The College of Arts and Sciences

PHILIP MASON PALMER, A. B.
Head of the College of Arts and Sciences

THE COLLEGE OF ARTS AND SCIENCES, though of more recent origin than that of the Technical College, has attained scholastically a place of prominence that is equalled or surpassed by few similar schools. The antecedent of the Arts College at Lehigh dates back to the incorporation of the University: the School of General Literature. It was intended by the founder, Asa Packer, to care for the cultural development of the engineering students and was quite influential in conferring the only degree then offered by the University.

The present College offers a broad curriculum, of which a part is covered by the distribution requirements and a part by the major work. It assures an ample gratification of the intellectual curiosity and love of knowledge, while it gives an excellent preparation for further studies for the professions of law, medicine, or theology and for graduate study for higher degrees.

The curriculum is so arranged that the distribution requirements are fulfilled in a large part during the first two years, thereby orientating the student and enabling him to better choose his major. Concentration in this major is made in the two succeeding years by a consistent selection of courses pertaining to that particular subject. A rigid final examination covering the entire major field is given at the close of the senior year, and the degree of Bachelor of Arts is conferred on those students who have proved themselves proficient.

The Faculty of the College of Arts and Sciences

PROFESSORS

PHILIP MASON PALMER, A.B.	<i>Professor and Head of the Department of German and Director of the College of Arts and Sciences.</i>
PERCY HUGHES, Ph.D.	<i>Professor and Head of the Department of Philosophy, Psychology, and Education.</i>
CHARLES SHATTUCK FOX, Ph.D.	<i>Professor and Head of the Department of Romance Languages.</i>
ROBERT WILLIAM HALL, Ph.D.	<i>Professor and Head of the Department of Biology.</i>
CHARLES JACQUES GOODWIN, Ph.D.	<i>Professor and Head of the Department of Greek.</i>
HORACE WETHERILL WRIGHT, Ph.D.	<i>Professor and Head of the Department of Latin.</i>
LAWRENCE HENRY GIPSON, Ph.D.	<i>Professor and Head of the Department of History and Government.</i>
STANLEY THOMAS, Ph.D.	<i>Professor of Bacteriology.</i>

ASSOCIATE PROFESSORS

ROBERT PATTISON MORE, M.A.	<i>Associate Professor of German.</i>
SYDNEY MACGILLVARY BROWN, M.A.	<i>Associate Professor of History and Government.</i>
JOHN MILTON TOOHY, M.A.	<i>Associate Professor of Romance Languages.</i>
EARL LEVERNE CRUM, Ph.D.	<i>Associate Professor of Latin.</i>

ASSISTANT PROFESSORS

LEGRAND REX DROWN, M.A.	<i>Assistant Professor of Education.</i>
HALFRED CHENEY BROWN, A.B.	<i>Assistant Professor of Romance Languages.</i>
GEORGE DEWEY HARMON, A.M.	<i>Assistant Professor of History and Government.</i>
GARTH A. HOWLAND, M.A.	<i>Assistant Professor of Fine Arts.</i>
ERNEST BERNARD SCHULZ, Ph.D.	<i>Assistant Professor of History and Government.</i>
RAFAEL ARCANGEL SOTO, M.A.	<i>Assistant Professor of Romance Languages.</i>
FRIEDERICH OTTO KEGEL, M.A.	<i>Assistant Professor of German.</i>
FRANK CHESTER BECKER, A.B.	<i>Assistant Professor of Philosophy.</i>
JAMES L'ARMOUR GRAHAM, Ph.D.	<i>Assistant Professor of Psychology.</i>

INSTRUCTORS

DAVID GALLUP SCOTT, M.A.	<i>Instructor in Romance Languages.</i>
GEORGE DORMER FARNE, A.B.	<i>Instructor in Romance Languages.</i>
MICHAEL ANTHONY FARRELL, B.S.	<i>Instructor in Biology.</i>
HENRY HARE CARTER, B.S.	<i>Instructor in Romance Languages.</i>
RICHARD HENRY CRUM, A.M.	<i>Instructor in Latin.</i>
ROBERT STONE, M.A.	<i>Instructor in Psychology.</i>
THEODORE THOMAS LAFFERTY, Ph.D.	<i>Instructor in Philosophy and Psychology.</i>

ASSISTANTS

FRANCIS JOHN TREMBLY, B.S.	<i>Assistant in Biology.</i>
GEORGE WELLINGTON HARTZELL, B.A.	<i>Assistant in German.</i>

The Department of English

THE primary aim of the English Department at Lehigh University is to teach the correct use of the English language to the engineering and business students. The department realizes the necessity for proper grammatical construction in the work of the engineer and business man. The first year or year and a half then, is spent reviewing and perfecting the use of the rules of composition and grammar in order that reports necessary in engineering and business work may be comprehensible. The value of the English department to the Arts students can readily be appreciated.

Aside from instructing students in the fundamentals of composition and the appreciation of the classics, this department supervises two campus activities: debating and journalism. Debates are held with other colleges, members of the debating team being coached by the faculty of the English department. By means of the rather recent addition of journalism courses, the English department is rather directly responsible for the success of student publications. The Brown and White, the undergraduate semi-weekly newspaper is edited under the supervision of this department.

ROBERT METCALF SMITH, Ph. D.
*Head of the Department of
English*

The Faculty PROFESSORS

ROBERT METCALF SMITH, Ph.D.

*Professor of English and Head of
the Department of English.*

MYRON JACOB LUCH, Ph.D.

Professor of English.

ASSISTANT PROFESSORS

EDGAR HEISLER RILEY, Ph.D.

Assistant Professor of English.

CURTIS DANIEL MACDOUGALL, M.S.

Assistant Professor of Journalism.

HOWARD GARRETT RHOADS, M.A.

Assistant Professor of English.

INSTRUCTORS

ARTHUR RICHARD BRAUNLICH, JR., M.A.

Instructor in English

GEORGE ALVIN FINCH, M.A.

Instructor in English.

EUGENE HULSE SLOANE, M.A.

Instructor in English.

RUSSELL BENJAMIN PARKS, M.A.

Instructor in English.

DALE HARTZLER GRAMLEY, M.S.

Instructor in Journalism.

WARREN FLETCHER, M.A.

Instructor in English.

SIMON DEPTULA, M.A.

Instructor in English.

The Department of Geology

BENJAMIN LEROY MILLER,
A. B., Ph. D.

*Head of the Department of
Geology*

GEOLGY is that branch of science which treats the Earth, comprehensively, as a subject of research and study. It also deals with the evolution of life on the Earth as indicated by a study of fossils found in its crust.

The Department of Geology, which was founded at the beginning of the University in 1866, has two purposes: the teaching of Geology as a cultural subject to those men who can take but a course or two in this department, and the teaching of Geology as a technical subject to the student mining engineer and geologist. Mining operations are undertaken today only after a thorough geological study has been made and to this end a high degree of specialization is necessary.

In addition to the historical nature of the work, the economic use of geological formations and deposits is studied with regard to origin, use, and methods of extraction. This study is greatly assisted by trips to mines and quarries where the actual conditions are studied. Lehigh is well situated for work of this sort, being on the edge of the cement belt, and close to anthracite mines.

Geology furnishes a means for studying prehistoric man and the conditions under which he lived. The origin of the Earth and continents, and the forces which have acted in times past and are acting now, are problems which find their solution by a study of Geology.

The Faculty

BENJAMIN LEROY MILLER, Ph.D.

*Professor of Geology and Head of
the Department of Geology.*

HOMER GRIFFIELD TURNER, B.S., M.S.

Assistant Professor of Geology.

AUGUSTUS HENRY FRETZ, Ph.B., C.E., M.S.

Assistant Professor of Geology.

LAWRENCE WHITCOMB, Ph.D.

Instructor in Geology.

BENNETT FRANK BUIE, B.S.

Research Fellow.

The Department of Mathematics and Astronomy

THE DEPARTMENT OF MATHEMATICS enjoys the distinction of teaching the oldest and most modern science and has relegated a position of importance because of the demands placed on it by all three colleges of the University. Mathematics is the basis for the study of engineering and business, and is indispensable to the Arts College in carrying out its program of cultural and intellectual development. With this double end in view, the department of mathematics offers courses which cover mathematics from its beginnings to the more recent discoveries.

TOMLINSON FORT,
A. B., A. M., PH. D.
Head of the Department of
Mathematics and Astronomy

The College of Business Administration

IN common with others of its kind, the College of Business Administration at Lehigh is of recent development. This college, like the business schools at most universities, had as its foundation one or two courses in economics. The increasing popularity of these courses led to the establishment of a separate department of economics within the College of Arts and Sciences and when this arrangement proved inadequate, the College of Business Administration was established. At its inception, the College was handicapped by limited quarters and a small teaching staff, but as the result of the untiring efforts of Dr. Carothers and the importance of training undergraduates to cope with modern business conditions, it has increased in size and quality until it now occupies a building of its own and boasts a faculty of ten highly proficient men who instruct more than one fifth of the entire student body.

The College has considered the fact that in any endeavor a good general education is of prime importance and that specialization can come later. It is the purpose of the business curriculum to give the student a thorough understanding of such basic subjects as finance, accounting, and economics, together with the Arts subjects necessary to insure a good general education. While the courses offered do not permit any narrow specialization, there is a wide choice of electives offered, the selection of which is left entirely to the discretion of the student. In this way he is assured of an opportunity to study the subjects that interest him most.

The advantage of such principles is demonstrated by the steadily increasing demands of the larger business concerns for Lehigh men. Each year has seen an increase in the number of students enrolled in this College which is building a reputation for graduating men who develop into capable executives and conscientious workers.

The College of Business Administration also affords an opportunity for men in the Arts and Sciences and Engineering Colleges to get a training in economics and other basic courses in business. The extent to which men of the other colleges study economics can be realized when it is known that economics is included in practically all the curricula offered at Lehigh.

The Faculty of the College of Business Administration

NEIL CAROTHERS, B. A., Ph. D.
Head of the College of Business Administration

PROFESSORS

NEIL CAROTHERS, Ph.D.	<i>Professor of Economics and Director of the College of Business Administration.</i>
ROY BURFORD COWIN, M.A.	<i>Professor of Accountancy.</i>
HERBERT MAYNARD DIAMOND, Ph.D.	<i>Professor of Economics.</i>

---------------------------------	--

ASSISTANT PROFESSORS

CARL ELMER ALLEN, Ph.D.	<i>Assistant Professor of Accountancy.</i>
WARD LESLIE BISHOP, Ph.D.	<i>Assistant Professor of Economics.</i>
ELMER CLAEK BRATT, A.M.	<i>Assistant Professor of Economics.</i>
H. ALBERT HARING, JR., Ph.D.	<i>Assistant Professor of Economics.</i>

INSTRUCTORS

WILSON F. PAYNE, M.A.	<i>Instructor in Economics.</i>
STUART BARTLETT MEAD, M.A.	<i>Instructor in Accountancy.</i>

The Department of Chemistry and Chemical Engineering

HARRY MAAS ULLMANN
A. B., PH. D.
Head of the Department of
Chemistry and Chemical
Engineering

THE importance of Chemistry and its practical applications have advanced at a very rapid rate, providing for the chemist and the chemical engineer eligibility to responsible positions in professional fields. The man trained in the science of Chemistry enjoys executive positions in manufacturing, agriculture, and biology.

The curriculum in Chemical Engineering is designed to prepare the student for the profession of chemical engineer which includes the design, construction, and management of manufacturing establishments in which new substances are to be produced. The engineer, regardless of his initial undertaking, should ultimately rise to superintendencies and higher responsibilities.

The chemist needs an uncommonly deep insight into the phenomena of matter and into the many processes in nature in which matter undergoes changes. The graduate in chemistry may apply his education in research or continue the application of known facts for the advancement of industry.

The curricula preparing for degrees in Chemistry and Chemical Engineering are essential alike in that they offer an education primarily in Chemistry. The modern conception of an education in Chemistry includes simultaneous study of physics and mathematics. During the final two years, courses are offered which deal with more advanced study of theories and the applications thereof.

The research department was established at Lehigh several years ago and since then has made an appreciable advance. Numerous fellowships are sponsored by the Wm. O. Goodrich Company, New Jersey Zinc Company, Columbia Carbon Company, the Archer-Daniels-Midland Company and others. In addition, there are several student research fellowships supported by the Freshman Class each year. The establishment of these fellowships reveals the necessity for well trained men and the desire of the Department of Chemistry at Lehigh is to better equip its graduates for responsible positions they will ultimately assume.

The Faculty of the Department of Chemistry and Chemical Engineering PROFESSORS

HARRY MAAS ULLMANN, Ph.D.

*Professor and Director of the
Curriculum in Chemistry and
Chemical Engineering.*

VAHAN SIMON BABASINIAN, Ph.D.

Professor of Organic Chemistry.

JAMES SCOTT LONG, Ph.D.

Professor of Inorganic Chemistry.

ALPHA ALBERT DUEFENDERFER, M.S.

*Professor of Quantitative Analysis
and Assaying.*

ASSOCIATE PROFESSORS

ARTHUR LEVERN SMITH, B.S. in Ch. E.	<i>Student Chemistry Foundation Fellow.</i>

The Department of Civil Engineering

HALE SUTHERLAND, A. B., S. B.
*Head of the Department of
Civil Engineering*

THE CIVIL ENGINEERING curriculum proposes to give a broad education in those general and scientific subjects which form the foundation of all engineering, and a special training in its own field, which comprises, as its principal projects, the construction of highways, railroads, harbors, docks, terminals, bridges, buildings, foundations, tunnels, water supply and sewerage systems, and water power developments. In accordance with this plan, the Civil Engineering department was one of the first organized at Lehigh.

The first two years are devoted primarily to such fundamental studies as are necessary in preparation for the technical work which follows. The junior and senior years are devoted to instruction in structural design, highway and railroad construction, hydraulics and sanitary engineering. To give the graduate a knowledge of the fundamentals of business, courses in Economics, Accounting, and Finance have been placed in the curriculum. These subjects prove very useful to those who later seek advancement along sales, managerial, or executive channels.

The Faculty PROFESSORS

HALE SUTHERLAND, A. B., S. B.	 <i>Professor of and Director of the Curriculum in Civil Engineering.</i>
RALPH JUSTIN FOGG, B.S. (On leave 1930-31)	 <i>Professor of Civil Engineering.</i>
WINTER LINCOLN WILSON, M.S.	 <i>J. T. Stuart Professor of Railroad Engineering.</i>
WILLIS APPLEFORD SLATER, C.E.	 <i>Research Professor of Engineering Materials and Director of the Fritz Engineering Laboratory.</i>

ASSOCIATE PROFESSORS

SYLVANUS A. BECKER, M.S.	 <i>Associate Professor of Civil Engineering.</i>
MERTON OTIS FULLER, C.E.	 <i>Associate Professor of Civil Engineering.</i>

ASSISTANT PROFESSORS

HARRY GORDON PAYROW, B.S. in C.E.	 <i>Assistant Professor of Civil Engineering.</i>
EUGENE HENRY UHLER, C.E.	 <i>Assistant Professor of Civil Engineering.</i>
CYRIL DEWEY JENSEN, M.S.	 <i>Assistant Professor of Civil Engineering</i>

INSTRUCTORS

HILL REID NETTLES, C.E.	 <i>Instructor in Civil Engineering.</i>
JUSTUS MITCHELL HOLME, B.S. in C.E.	 <i>Instructor in Civil Engineering.</i>
CARES CREIGHTON KEYSER, C.E.	 <i>Laboratory Assistant in Civil Engineering</i>
CARL LESTER KREIDLER, B.S. in C.E.	 <i>Research Fellow in Civil Engineering.</i>
GORDON WESLEY PARKINSON, B.Sc., C.E.	 <i>Lehigh Institute of Research Fellow.</i>

The Department of Electrical Engineering

ELECTRICAL ENGINEERING deals with everything that pertains to the generation, transmission, and utilization of electrical energy, including the design of electrical machinery such as generators, motors, transformers, etc., electrical transmission systems for power and light, telephone, telegraph, and radio equipment. The designing and manufacturing of electrical devices that are employed in an infinite number in industry and home are all the work of the electrical engineer.

The curriculum in Electrical Engineering aims to give broad education in those general and scientific subjects which underlie all branches of engineering, and to give special training in those technical and business subjects which experience shows are most essential to the practical electrical engineer. The curriculum includes a number of special studies in Civil, Mechanical and Metallurgical Engineering so that the graduate electrical engineer is prepared to deal with related problems in the other divisions of engineering.

The James Ward Packing Laboratory which the Electrical Engineering Department occupies jointly with the Mechanical Engineering Department, provides unequalled facilities for the embryo electrical engineer. This laboratory houses all the latest electrical apparatus, and contains many classrooms, research laboratories, and a library dedicated to the memory of the first departmental head, Professor William Esty.

STANLEY SYLVESTER SEYFERT,
M. A.
*Acting Head of the Department
of Electrical Engineering*

The Faculty PROFESSOR

STANLEY SYLVESTER SEYFERT, M.S. *Professor of Electrical Engineering and Acting Director of the Curriculum in Electrical Engineering.*

ASSOCIATE PROFESSOR

JACOB LYNFORD BEAVER, M.S. *Associate Professor of Electrical Engineering.
(On leave 1930-31).*

RESEARCH ASSOCIATE PROFESSOR

FREDERICK CREEDY, A.C.G.I. *Research Associate Professor of Electrical Engineering.*

ASSISTANT PROFESSORS

HOWARD DIETRICH GRUBER, M.S. *Assistant Professor of Electrical Engineering.*
NELSON SHERK HIBSHMAN, M.S. *Assistant Professor of Electrical Engineering.*
ARCHIE ROSCOE MILLER, M.S. *Assistant Professor of Electrical Engineering.*

INSTRUCTORS

JOSEPH MAX ANDRES, B.S. in E.E. *Instructor in Electrical Engineering.*
WILLIAM HARRY FORMHALS, B.S. in E.E. *Instructor in Electrical Engineering.*
HENRY CARL KNUTSON, B.S. in E.E. *Instructor in Electrical Engineering.*

GRADUATE ASSISTANT

WALTER PENNYPACKER WILLS, B.S. in E.E. *Graduate Assistant in Electrical Engineering*

The Department of Mechanical Engineering

MECCHANICAL ENGINEERING is concerned with the conversion of the latent energy of coal into heat, mechanical and electrical energy for the most advantageous and economical operation of the machinery of our modern industries and homes. It deals with the design, construction, installation, and operation of all such machinery.

The Mechanical Engineering Department at Lehigh was outlined and organized in 1867. For several years it was carried on in conjunction with the Department of Civil Engineering. While he was departmental head (1881-1918), Professor Joseph F. Klein was instrumental in establishing those sound principles of teaching which today make the course one of the most rigorous and comprehensive in the University. The curriculum is arranged to afford a thorough training in those fundamental scientific principles which form the basis of the design of machinery and apparatus, the equipment and operation of industrial plants, and the production and utilization of power.

The opening of Packard Laboratory in the Fall of 1929 marked the beginning of a new period of progress in the Department which was formerly housed in Williams Hall and the W. A. Wilbur Laboratory. This new million dollar laboratory, which is occupied jointly by the Mechanical and Electrical Engineering Departments, was presented to the University by the late James Ward Packard, Lehigh '84 and founder of the Packard Motor Company. With this modern building and its equipment, the Mechanical Engineering Department has facilities for training second to none.

The Curriculum in Industrial Engineering

THE success of any industrial enterprise depends upon sound financing, adequate accounting and intelligent forecasting of economic developments. Technical skill and engineering efficiency are primary requisites, but these alone do not suffice. Industry has created a demand for men who can combine this skill and efficiency with a knowledge of the problems of accounting, finance, statistics, and management which every enterprise encounters. It was with this demand in view that the curriculum in Industrial Engineering was established at Lehigh in 1925.

This course embodies a sufficient training in engineering to make the graduate at home in highly technical environment. It further provides a thorough schooling in the fundamental principles of economics, industrial management, corporation finance, and general business practice. The curriculum in Industrial Engineering, being closely related to that of Mechanical Engineering, is administered by the faculty of the Mechanical Engineering Department.

The Faculty of the Department of Mechanical and Industrial Engineering

FRED VIALL LARKIN, B. S., M. E.
Head of the Department of Mechanical Engineering

PROFESSORS

FRED VIALL LARKIN, M.E.

*Professor of Mechanical Engineering
and Director of the Curriculum in
Mechanical Engineering and Industrial Engineering.*

ARTHUR WARNER KLEIN, M.E.

Professor of Mechanical Engineering.

THOMAS EDWARD BUTTERFIELD, M.E., C.E.

Professor of Heat Power Engineering.

MILTON CALEB STUART, M.E.

Professor of Experimental Mechanical Engineering.

ASSISTANT PROFESSORS

ALEXANDER WALKER LUCE, M.E.

Assistant Professor of Machine Design.

BURGESS HILL JENNINGS, M.S.

Assistant Professor of Mechanical Engineering.

INSTRUCTORS

JOHN ROBERT CONNELLY, M.S.

Instructor in Mechanical Engineering.

GEORGE BOYD THOM, M.E.

Instructor in Mechanical Engineering.

RESEARCH FELLOW

OSCAR BERNHARDT SCHIER, M.E.

James Ward Packer Fellow.

The Department of Metallurgical Engineering

BRADLEY STOUGHTON,
B. S., Ph. B.
*Head of the Department of
Metallurgical Engineering*

THE metallurgical engineer operates in two fields. One of these covers the production, refining, and preparation for sale, of metals such as iron, copper, lead, zinc, aluminum, etc. The other field covers the intelligent use of metals and alloys in industries for structures, railroads, automobiles, machinery, tools, ordnance, wire products, etc. The ever increasing demand for materials of greater strength, lightness, safety, reliability, electric conductivity, hardness, cutting power, softness, offers practically unlimited opportunities for men of training and intelligence.

The curriculum in Metallurgical Engineering places special emphasis on a thorough training of the student in the fundamentals. The foundation of this course must be a sound training in mathematics, chemistry, physics, economics, English, and several foreign languages. Collateral studies are liberally

provided in the departments of Civil, Mechanical, Electrical, and Mining Engineering with emphasis also placed on Physics and Geology.

The large expansion program of Lehigh has made it possible for this department to occupy much more space than formerly. Class rooms, lecture rooms, private and student laboratories have been added since this department has been housed in Williams Hall. A large and complete museum contains, among other things, a collection of the instruments used by the late Dr. Joseph W. Richards when he was head of this department.

The Faculty

PROFESSOR

BRADLEY STOUGHTON, Ph.B., B.S. *Professor and Director of the curriculum in
Metallurgical Engineering.*

ASSOCIATE PROFESSOR

ALLISON BUTTS, S.B., A.B. *Associate Professor of Metallurgy.*

ASSISTANT PROFESSOR

GILBERT EVERETT DOAN, Ph.D., Ch.E. *Assistant Professor of Metallurgy.*

INSTRUCTOR

WILBUR EDWARD HARVEY, Met.E., M.S. *Instructor in Metallurgy.*

RESEARCH FELLOW

FORREST JEROME WHITNEY, JR., E.E. *Engineering Foundation Research Fellow.*

The Department of Mining Engineering

MINING, one of the first industries to be developed by man, is an important factor in our modern civilization. Practically all our raw materials have at some time been mined or have undergone processes which are included in the sphere of the mining engineer.

The field of the mining engineer concerns itself with the discovery and extraction of ores and naturally occurring mineral substances which are economically useful. To fulfill this purpose, the student mining engineer at Lehigh is given a comprehensive and rigorous training in all the branches of engineering.

The present curriculum offers several options in the junior and senior years. The student may specialize in construction materials, structural steel design, or metallurgy; he may elect advanced geology, fuel technology, or courses in mine administration.

Opportunity is also given to take courses in business administration or Spanish.

The facilities for supplementing the work of the curriculum by inspection trips are very good. Cement mills, ore and coal mines, limestone and slate quarries are within a short distance of Bethlehem. During the senior year, inspection trips are made to the anthracite coal regions and the metal mining regions of New Jersey.

The curriculum provides that the student has courses in all the technical departments as well as in the Business College and the College of Arts and Sciences.

HOWARD ECKFELDT, B.S., E.M.

*Associate Professor of Ore Dressing
and Fuel Technology*

The Department of Physics and the Curriculum in Engineering Physics

CHARLES CLARENCE BIDWELL,
Ph. D.
*Head of the Department
of Physics*

PHYSICS is one of the principal foundations upon which engineering development is based. In recent years, science has made great strides toward the perfection of human knowledge, and in this movement, Physics has played a dominating part. Physics, along with Mathematics and Chemistry, serves as a nucleus for scientific theory.

The curriculum in Engineering Physics at Lehigh trains the student so that he may, after graduation, be able to attack problems in research or engineering development with a thorough knowledge of the subject. The curriculum is so arranged that a student is able to acquire a cultural education along with his scientific subjects.

The majority of men trained in Engineering Physics at Lehigh go into Research Laboratories of various industrial firms or the Bureau of Standards.

Within the past year, student and research laboratories have been remodeled and several new laboratories fitted with the latest equipment for scientific investigation, have been added.

The Faculty PROFESSOR

CHARLES CLARENCE BIDWELL, Ph.D. *Professor of Physics and Director of the Curriculum in Engineering Physics.*

ASSOCIATE PROFESSORS

PAUL LEVERNE BAYLEY, Ph.D. *Associate Professor of Physics.*
MAX PETERSON, Ph.D. *Associate Professor of Physics.*

ASSISTANT PROFESSORS

CHARLES EDWARD BERGER, Ph.D. *Assistant Professor of Physics.*
PRESTON BANKS CARWILE, Ph.D. *Assistant Professor of Physics.*
AUSTIN ROGERS FREY, Ph.D. *Assistant Professor of Physics.*
CHARLES ROZIER LARKIN, Ph.D. *Assistant Professor of Physics.*

ROBERT KREADY MOWLER, B.S. *Graduate Assistant in Physics.*
J. LELAND MYER, B.S. *Graduate Assistant in Physics.*
LEHMAN CHARLES SHUGART, A.B. *Assistant in Physics.*

Department of Military Science and Tactics

As part of a national preparedness program, Lehigh, in common with many other colleges and universities throughout the country, has adopted the policy of compulsory military training during the freshman and sophomore years.

When the prescribed two year course has been completed, students are privileged to elect more advanced work. These courses include a six week period of Summer instruction, the infantrymen going to Fort Meade and the Ordnance being trained at the Aberdeen Proving Ground. Successful completion of these courses entitles the student to a second lieutenant's commission in the reserve corps of his respective unit.

Members of the Lehigh R.O.T.C. unit pride themselves in having been awarded a "distinguished rating" by the War Department eight times within the last nine years.

MATTHEW HENRY THOMLINSON,
Lieutenant-Colonel, U.S.A.
*Head of the Department of
Military Science and Tactics*

The Faculty

PROFESSOR

MATTHEW HENRY THOMLINSON, Lieutenant-Colonel, U.S.A. *Professor and Director of Department of Military Science and Tactics.*

MAXIMILIAN CLAY, B.S., Captain, U.S.A. *Assistant Professor of Military Science and Tactics.*
PERCY LEE SADLER, Captain, U.S.A. *Assistant Professor of Military Science and Tactics.*
CHARLES H. KECK, Captain, U.S.A. *Assistant Professor of Military Science and Tactics.*
JOHN K. RICE, Captain, U.S.A. *Assistant Professor of Military Science and Tactics.*
HAROLD R. EMERY, Lieutenant, U.S.A. *Assistant Professor of Military Science and Tactics.*

ASSISTANTS

THOMAS JOSEPH LAVIN, Staff Sergeant, U.S.A. *Assistant in Military Science and Tactics.*
FRED JOHN MOHRING, Technical Sergeant U.S.A. *Assistant in Military Science and Tactics.*
GEORGE FRANCIS GASDA, Sergeant, U.S.A. *Assistant in Military Science and Tactics.*

The Department of Physical Education

HOWARD ROWLAND REITER, M. A.

*Head of the Department of
Physical Education*

It is the aim of the Department of Physical Education to provide every student at Lehigh with the opportunity of physically keeping pace with his mental development, so that he finishes college equipped in all ways to face the problems of life.

"Gym" is compulsory but it is rarely necessary to force attendance because of the very interesting schedule of intramural sports managed almost entirely by the students themselves. Included on this schedule are such activities as intramural basketball, wrestling, and swimming. When departmental organization is considered, it becomes apparent that the old ideas of compulsory "gym" have been avoided. Those men who participate in any official sport are not required to attend any regular physical education classes, and the remaining students are permitted to select any type of exercise they desire. Men suffering from some physical deformity are given carefully planned corrective exercises.

The results of this system are commendable. Almost every man who is not engaged in some freshman or varsity sport participates in the intramural athletics, in this way deriving both pleasure and benefit from the exercise.

The Faculty

HOWARD ROLAND REITER, M. A.

*Professor and Head of the Department of
Physical Education.*

FAY CONANT BARTLETT

Assistant Professor of Physical Education.

MORRIS EUGENE KANALY

Seniors

History

FROM September, 1927 to June, 1931 is only four years, but men of this graduating class have witnessed one of the most extensive reconstruction and expansion programs of the University. Through alumni donations, the library was enlarged so that now Lehigh has one of the largest and most beautiful libraries in the East. The Packard Laboratory is one of the largest and most complete in the United States. All of the departments have increased their floor space, equipment, and undergraduate capacity to twice that of former years.

Upon turning to the athletic activities of the past four years, we have again witnessed several outstanding events. In our junior year we saw Lehigh defeat Lafayette in football for the first time in a decade. In our senior year, the football and soccer teams defeated Princeton in their respective sports for the first time in history. In our freshman and sophomore years Lehigh won the Eastern Intercollegiate Championship in wrestling for the first time, having shared the honor with Yale the year before. In our sophomore and junior years, the tennis team won the Eastern Indoor Intercollegiates. The rifle team has won the Eastern Intercollegiate Championship for the past two years and last year also placed a team second. Besides team honors, we have had many individual champions.

As we look back on the past four years we are glad to know that we have not only seen but taken part in the achievement of a "Greater Lehigh".

CLASS OF 1931

In Memoriam

PHILIP C. LEWIS

March 22, 1909

January 19, 1931

Butt, Managerial Board (3, 4), Arcadia.

SOMEHOW or other Phil had a hunch that Neil Carother's ability to stretch his stories would make him a fine teacher for anyone preparing to enter the rubber business; so, when the Trenton Times awarded him a scholarship as one of the outstanding products of Trenton High, Phil threw his old red sweater into a bag, grabbed his diploma, and hustled off to Lehigh.

Somehow, though, he made a mistake about Neil. His own line evidently surpassed that of his master for he has convinced the department that he will make a good business man and is all ready for his diploma. Phil's fondest recollection of Lehigh is an "A" he received in freshman math when he was still a student. He has managed to use up four cars during his four years at Lehigh but still remains faithful to the same woman.

He finds but one fault with Lehigh; its night life is too fast for his shy and retiring nature. However, he has learned how to keep books for that rubber factory.

PHILIP ERNEST ALBERT

TRENTON, N. J.

"P.E.A."

Football (4, 3), Arcadia, Quarter (1, 4), Glee Club (1, 2, 3, 4); Mustard and Cheese Cast (3, 4); Eta Sigma Phi, Deutscher Verein, President.

WILLIAM GASTON ALCORN

BETHLEHEM, PA.

"Boo"

"B-I-L"

BOO will leave a distinct impression on all who have met him. A natural, good natured disposition, combined with an unusual variety of talents and a deep interest in his associates have made for him many friends.

Although he is going to seminary to prepare for the ministry, Boo seems to have all the necessary qualifications of an actor, even to a temperamental disposition. In several of his dramatic efforts, he has enacted the victim of intoxication with a genuineness that caused us to wonder as to the origin of his ability in such roles.

Music has been an important part of Boo's college career. We shall remember him as always singing. In spite of its ubiquity, his voice is really pleasing and the enjoyment that he finds in singing has been shared by those who have heard him.

SAMUEL DEANE ALLISON
HARTFORD, CONN.

"Monk"

"Deane"

Business

Thera Xi

Ass. Manager, Freshmen Baseball (1), Burr, Business Staff (2, 3, 4); Brown and White (3), Band (1, 2, 3, 4), Glee Club (1, 2, 3, 4), Manager Combined Musical Clubs (4).

SHOULD anyone attempt to summarize the activities that Monk engaged in while at Lehigh, the result would read like an "Office Boy to President" story; on the other hand, on account of his pleasant evenings and week-ends with the ladies, it would read like a—well, like an—ah! never mind, but ain't it just grand, Maggie?

Deane is one of those particularly smooth creations, his fraternity's "committee of one on diplomatic relations," he is invariably on hand when the weaker sex is in distress or something.

One Saturday in the band he punishes the drums, the next time an innocent saxophone takes a ride at his merciless hands, or again, the cymbals are given a treat in his own mean fashion.

In the winter, he has been known to work as a student; and in the summer the struggling concern of R. H. Macy pleases the New York public with Allison behind the umbrella counter. We hardly know what he will do next, so versatile is he, but he has our best wishes for a prosperous career.

Electrical Engineering

Taylor Hall—B.

American Institute of Electrical Engineering.

A CRASH, a bang, a cloud of dust—and "Power Factor" on his lusty steed Bucephalus is off for one more week-end at Hanover. "Jakie" is another one of those fellows who look upon Lehigh as a good place to rest between week-end excursions—and we may say—what excursions.

However, while at Lehigh, "Fred" has done other things than rest. As a firm disciple of "Dutchy," "Jakie" claims he can now, after four years of Electrical Engineering, replace burned out fuses, and repair broken curling irons. He is said to be particularly adept in the latter. (There are many who can vouch for this.)

Strange as it may seem, it is rumored that Wall Street is calling "Quadrature." If he applies there some of the tactics he used on his A.C. problems, depressions certainly will be a thing of the past in the business world. However one thing is certain, in a very short time "Fred" will make J. P. Morgan and a few of those other big boys appear much smaller than they really are.

FREDERICK HENRY ALTLAND
ABBOTTSTOWN, PA.

"Power Factor"

"Jakie"

Metallurgical Engineering

Delta Phi

Track Team (1), Soccer Squad (2, 3), Manager Tennis (4), Scabbard and Blade (3, 4), Chemical Society (1, 2), Metallurgical Society (3, 4), Treasurer (4).

JACK, a product of Mercersburg, was cut out to be a big athlete at Lehigh, but was waylaid by the copious beverage for which Bethlehem is famous. Beside that he took Scimitar, Kappa Bet, and B. U. X. a little too seriously for outstanding achievement on the athletic field.

Many of us will remember Jack as the thin-topped lad who taught the Dispensary how to make college men totally bald by a few treatments under the violet ray machine.

Possibly visiting teams will remember the home team manager who could arrange many minute details of entertainment, such as procuring of local talent and inspiration water, and who made the visiting teams seldom remember which school they were playing for.

More seriously speaking, we are expecting big things of Jack in Metallurgy. He expects to work for a steel company in Pittsburgh, and will no doubt join those who with their own big "corporations," are presidents of steel companies.

JOHN ROBINSON ANDERSON
MEDIA, PA.

"Bot"

"Jack"

HARRY ANDREWS, JR.
WALNUTPORT, PA.

"Harry"

Chemical Engineering

Sigma Nu

Football (1), Basketball (1), Lacrosse (2, 3, 4), Burr Board (2, 3, 4), Circulation Manager (4), Soccer Managerial Competition (2, 3), Varsity Manager Soccer (4), Executive Committee of Intercollegiate Soccer Association of America (4), Vice President Lehigh Union (4), Sergeant-at-Arms Senior Class, Cyanide, Scabbard and Blade; Mustard and Cheese Club (3, 4); Electrical Manager (4), Chemical Society.

HARRY is not running for sherriff, as the tin-type might indicate, nor is he running from one. Hard boiled as it looks, it was deliberately posed at McCaa's and not snatched from a post office bulletin board. So far as known, he is wanted only in Baltimore for the charge of stolen affections. Not an Adonis by birth, "Ja" shows what Castilucci's, Koch Bros', Mens Shoppe, and Gaskaska can do for a man.

Just as the sea is said to give up its dead, so Walnutport with about the same spirit, surrendered Harry. But he is a different "Ja" from the one that walked the hill up to Uncle Asa's Institute four years ago. Wine, women, song and chemistry have made the change (he learned about life from Dr. Bull). Accused of being a Dutchman his freshman year, "Ja" dramatically bragged "I'll show you I'm not a Dutchman for nothing," as he gulped heroically and disasteriously at his fourth (and last) beer. This spirit coupled with a genial personality has won him friends and campus honors and assures him of respect and success.

ROBERT LIGGET BAIRD, JR.
LANDSDOWNE, PA.

"Bobby"

Mining Engineering

Delta Phi

Lacrosse (1, 2, 3), Football (2), Manager, Varsity Basketball, Vice-President, Interfraternity Council, Arcadia, Senior Cabinet, Freshman and Sophomore Honors, Tau Beta Pi Prize, Tau Beta Pi, Cataloger, Omicron Delta Kappa, President, Scabbard and Blade, Captain, Sword and Crescent, Pi Mu Epsilon, Mining Society.

JUST picture a flaxen-haired youth with great, grey dreamy eyes, a smart young chap who gets around quite a bit, and one who is well liked everywhere, such is Bobby Baird.

This promising young engineer has not only acquainted himself with the 'whys' and 'wherefores' of mining, but has become familiar with many other lines as well. Just mention "hold-ups," black eyes, red heads, Fords, and, in fact, most anything and Robert will be able to offer a clever explanation.

Although Bobby has a great weakness for puns, a strange liking for promiscuous neck-ties, and has sometimes even been known to imbibe a little beer; nevertheless, it may be said that these things have never detracted from his greatness.

Chemical Engineering

Bethlehem

Chemical Society (1, 2, 3, 4), American Chemical Society.

THE owner of this cherubic countenance has endeared himself to all his classmates by his perpetual good humor. This could be explained by the old saying about fat men being always jolly, were it true that Al was fat. But not so. He is only "pleasingly plump."

The only things ever found against him are that he comes from New York City, and persists in believing that this is the greatest city in the world. He is a rather modest chap and his friends regard him as one of those fellows who knows his stuff, but doesn't care to inform everyone about it. Not all his time however, is devoted to work. He believes in mixing his work with plenty of play. He thinks that all work and no play is apt to make anyone disgusted.

ALBERT CLEF BAUR
NEW YORK CITY, N. Y.

"Al"

SOMEONE told "Bill" Beard that Lehigh was as good a school as any if he wished to pursue an Electrical Engineering course, so acting on the well meaning advice he packed his trunk and left the beautiful environs of Mt. Kisco, N. Y. to wander into the Lehigh Valley in pursuit of wisdom and knowledge.

For the first six months as a Lehigh undergraduate Bill devoted his time exclusively to his books until one fine day he realized that a certain amount of diversion could be sandwiched in between studies. From that time on Mt. Kisco's favorite son managed to mix his work and play, never allowing either to become his master. "A time for work and a time for girls and other follies" has always been Bill's motto.

As a result of this wise policy the class of 1931 will number among its graduates one Wilfred G. Beard, scholar, gentleman, and man of the world.

WILFRED GEORGE BEARD
OYSTER BAY, N. Y.

"Beardie"

"Bill"

JOHN DOWNEY BENEDICT
WAYNESBORO, PA.

"Ben"

Industrial Engineering

Phi Delta Theta

Manager, Cross Country (4); President, Arcadia; Freshman Honors, Sophomore Honors; Pi Mu Epsilon; Tau Beta Pi, Treasurer; Sword and Crescent; Musical Clubs (2, 3, 4); Assistant Manager (3); Industrial Engineering Society (1, 2, 3, 4).

IN twenty years, as we reflect on our worthless past, we will say, Ah, a goodly school chum was Downey Benedict. How well he always dispatched his chores! Had we but borne our existence with such a determination of purpose. Ah, but did he? Let us see—'tis true, on the surface one would have said that Ben was highly successful. He had reaped honors like the salt in the sea. But do not be fooled, my friends, Downey was a scapegrace—a literal Casanova with the women. His vivacity of youth was spent in wasting, wantonness, and wiles—(some of the wiles weren't bad.) In later years he settled down, married, and was reformed—formerly he had been Lutheran. Now we see him as a successful beer baron, happy, and riding the crest of the wave. All of which goes to prove that a Lehigh graduate can be successful.

LEON BERG
PHILADELPHIA, PA.

"Lee"

"Duff"

LEE is one of those erudite chaps who never has much to say, but when he says it, it is always the right thing. Between naps in the afternoon, letter writing, and the Globe at night, we wonder when Lee cracked the books . . . but his name was always well above the average when the marks came out.

After a year of social seasoning at Syracuse, Lee came to Bethlehem and Lehigh to see how the other half of the world lived and to round out his collegiate career. Mealey's, Schuster's, and the other favorite rendezvous can readily attest to the fact that he entered into the swing of things and absorbed all that Lehigh had to offer along extra-curricular lines. Among his many accomplishments, the most outstanding is his consistency . . . having brought the same girl to the last four house parties. Perhaps that explains the letter writing.

Mechanical Engineering

Mechanical Engineering Society.

Bethlehem

A DECADE after the bombardment of Paris, Aberdeen Proving Ground, deposited one of its "Big Shots," Vincent Berger, in Bethlehem.

Aberdeen's big "homb" settled upon Bethlehem in the quiet of the night, his shrill whistle causing Lehigh professors to tear their hair. They, however, resigned themselves to their fate, scientifically planning the metamorphosis of Vince from the "bomb" to the true humility of a "sud."

And so, Lehigh motheringly took this "danger" into her arms "lathed" the Aberdeen roughness from his outer shell during his freshman year, melted his interior reserve his sophomore, molded the ingot of a mechanical engineer his junior, and "hushed" the product his senior year.

Now she turns Vince out a true shrapnel whose effectiveness lies not in direct hits, but in an ability to divert his energies in many directions that will undoubtedly cause casualties in the ranks of the mechanical difficulties of industry.

VINCENT PAUL BERGER
ABERDEEN PROVING GROUND, MD.

"Vince"

"Venus"

Electrical Engineering

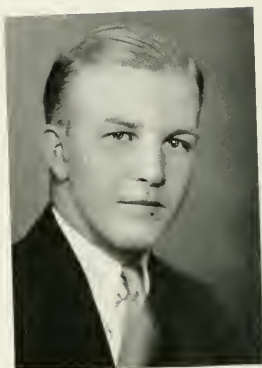

Taylor Hall—E.

Basketball 1), Sophomore Honors, Tau Beta Pi, Eta Kappa Nu, Mustard and Cheese (1), A. I. E. E. (2, 3, 4).

"WELL! Here I am folks, but I really don't see how I did it."

Please do not be misled. It's only a modest excuse that Bill likes to offer when someone asks him how he ever happened to graduate in four years. Bill knew he could do it when he came down here from that obscure and unheard-of town of Landisburg, Pa. four years ago. We have never been able to find this place, but we suspect that back in "them thar hills" lives a colony of pigmies from which Bill has sprung. At least his stature leads us to think so. For two years this young man pursued his course in electricity, but one day he discovered a strange and fascinating current—Love. Since that time he has neglected his work to do research in this field. Ask him for his discoveries if you wish.

A beautiful moon, wine, women, and song! If Bill fails to succeed, these factors will be the cause.

LEROY STANLEY BILLMAN
LANDISBURG, PA.

"Sharty"

JAMES McVEY BISBEE, JR.

SUSQUEHANNA, PA.

"Jim"

Electrical Engineering

Bethlehem

Freshman Track, Sophomore Honors, Student Branch A.I.E.E., Eta Kappa Nu, President, Tau Beta Pi

CAME the clamor and shrill of whistles, bells, drums, fife, steam pianos, tubas, pipe organs, Jew's harps, Irish potatoes, and other vegetables too old to mention. James M. Bisbee, Jr. (himself) boarded the Erie Lines for fame, fortune, Lehigh, Bethlehem, and other points unknown, and another good farmer was sacrificed to the non-renting God of Engineering.

The scene changes: Time: 4 years later (+ or -)

- Characters: (1) A budding E.E.
(2) Another budding E.E.
(3) Still another budding E.E.
(4) Our hero—ditto A.B.E.E.

Phase angles, power factors, transients, surges (not blue), oscillations, quadrature power, negative power, positive power, functions, factions, fiction, stations, relays, delays, time lag, and other expressions of sorrow and behold! our young hero—with a smile on his face, a yen (El Brendel has no copyright) in his heart, a thought on his mind, a meal in his stomach, and his hands in his pockets—goes forth to get a strangel hold on poor old mother Earth. Moral: God help the E.E.'s.

CHARLES JUSTUS BISHOP
SCRANTON, PA.

"Bish"

"Charley"

BY 1935 Bish will be a doctor,—provided he doesn't get so involved in medical school that he turns out to be a druggist or a hospital orderly. 1935 is a long time ahead, and Bish's inclinations are steadily becoming less serious. But, doctoring runs in the family, so he ought to fall into a practice anyway;—its either that or tonsilectomy.

Having sprung from Scranton, Pa. (that was the quickest way out), Bish has literally been forced to spend most of his time defending the tasty Scranton viand of biscuits and gravy, and insisting that the Scranton streets are not consistently falling into coal mines. Its been a tough battle, but Bish can outtalk most of the doubting ones.

If the doctor business fails, and Bish wakes up some morning without a dime, he can always turn to Henry L. Mencken for a natural job,—he's born to it. Henry is quite a "debunker," but Bish is no slouch! It is a treat to hear him, and the better because he says what he thinks.

Business

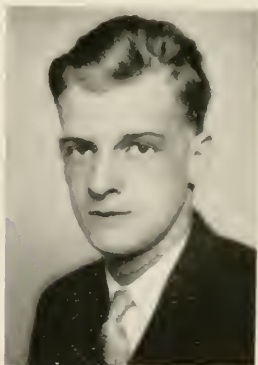

Phi Delta Theta

Burr, Editorial Staff 2, 3, 4; Manager, Cross Country 3; Sophomore Cabiner, Spiked Shoe, Glee Club 3, 4

WAY back in 1926, Lou—another of those poor benighted brethren who started as engineers; only to find that Business Administration needed them more—came to Lehigh with purity and high resolve in his heart, sweetness in his soul, and a terrifically blank look in his eye.

It's a far cry from that day to this, and much beer has passed the way of all liquid. Today we find him with matrimony and a Bell Telephone job in mind—what more could anyone hope for? (Yeh—we have lots of ideas on that subject, too, but we're too polite to mention them.)

During his stay here, Lou achieved notoriety and constant danger at the Phi Delt house by his feeble, salty wise cracks; and for the last three years he has been inflicting them on the helpless public of the BURR. And he had the temerity to call it humor. Anyone with that much nerve should get far in the business world—.

LOUIS MORRIS BLOOM
PHILADELPHIA, PA.

"Lou"

Track Managerial Competition, Numerals (1), Brown and White (1, 2, 3, 4), Editorial Council, News Editor, Makeup Editor, Lehigh Review (3), Robert Blake Society, Secretary-Treasurer (4), R. W. Hall Pre-Medical Society, President (4), Lehigh Liberal Club.

THE sweet young thing so bodily envisaged above, simply could not help himself. After all, he did come from the City where, it is well known, children do grow up without inhibitions.

Journalist extraordinary, and man about town, he became a pre-medical student and took up with the Blake society, to which may be attributed his genteel manner. He has a nasty habit of dividing the world into two classes, those who are Bogart and others. Mutz, let it be known, is a rip among the ladies and a devil of a fellow.

This queer specimen may be seen on the campus 'most anytime. What with being this and that, Bogart is a busy man, but he is often seen strolling along, Mephistophelian in appearance, tongue in cheek, left eyebrow on high, with a pious look in his good eye.

MAURICE STANLEY BOGART

NEW YORK, N. Y.

"Mutz"

JAY HAROLD BOLTZ

LEBANON, PA.

"Boltz"

Electrical Engineering

Bethlehem

Freshman Track Squad; Epitome (2, 3, 4), Managerial Competition, Advertising Manager, Senior Class Book Committee, Sophomore Honor, Symphony Orchestra (1, 2, 3), Glee Club (1, 2, 3, 4), Band (1, 2, 3, 4), St. Paul's Society, Student A. I. E. E. (3, 4), Electrical Society (2, 3, 4).

JAY came to "Old South Mountain" not knowing what the cards held in store for the future. His first act was to cast his lot with King Kilowatt. Despite many shocks, and the modern tendencies to overthrow monarchs, he remained a staunch and loyal subject to this invisible, invincible king.

His freshman track training served him well during his sophomore year when he covered Allentown and Bethlehem, informing the business men that their worries were over if they advertised in the "Epitome."

With the memory of cotton and the "pop, pop" of the machine gun at C.M.T.C. still fresh in his mind, he decided the squeak of the clarinet was sweeter—he forsook the M. S. & T. Department to join the band.

Jay is an earnest believer that life is not a gamble, and so he believes that success lies in studying the cards dealt, and playing them to the best advantage—too bad he is not a magician, it would be a lot easier.

JAMES DASKIN BOYD, JR.

BAYONNE, N. J.

"Jim"

Arts and Sciences

Track (1)

Chi Psi

HAIL, hardy, and handsome from t'other side of Hoboken, where the rippling waters of the Atlantic wash the sands of the thriving settlement of Bayonne; came one chemically inclined with ambitions, hopes, desires, ideas, and ideals. Our one and only tool of a beautiful dame, en personne, none other than our "slew toot Jimmy Boyd." Due to a variety of reasons, which need not be mentioned here he became an Arts man majoring in chemistry, at the end of his lordly sophomore year. Relieved of the strain of the mechanics of engineering he could concentrate on his "loved" chemistry, but his newly acquired artistic temperament directed it to higher fields. Thus he became a connoisseur of malt potations and a believer in the art of perfect rest. Let it remain as such.

Chemical Engineering

Chemical Society

Bethlehem

HARRY comes to us from distant Egypt—believe it or not. In that metropolis he is noted as a fiddler, and in additions is an all-around athlete, excelling in tennis, basketball and handball. He has achieved the distinction of being one of the highest scoring forwards in Bart's afternoon basketball games in the upper gym. Also if he finds time to continue practicing tennis after graduation, it seems certain that he will become a leading contender for the amateur crown. Besides being an athlete, he is industrious, and is a hard working student—a true disciple of the teaching—"a sound mind in a sound body."

Above all, he is a real friend, always willing to go out of his way to be helpful or sociable. Good luck, Harry, and may your new friends all be as true as your self.

HARRY JEREMIAH BOYER

EGYPT, PA.

Freshman Swimming Team (1), Football (2, 3), Wrestling Team (3, 4), Alpha Kappa Psi

YOU'RE right Bill. Washington isn't such a bad place after all, but the Tasmanian situation is rather terse, and the lobbying business men there must be looking forward to prosperous times.

Bill first intended to go to Princeton, but upon hearing that Beer flowed more freely in Sous Bethlehem, he tacked his ship and cast anchor at Lehigh. On probing Bill's quietness we find he says nothing and does more. When not dividing his time between the fair sex or catching up with his studies, he can be found on the mats showing the best of the boys how the Sergeant-of-Arms does it at the White House.

Bill's election to Alpha Kappa Psi in his junior year branded him as a worthy student. He has spent few idle moments at Lehigh. This energetic spirit coupled with natural ability will carry Bill to lofty heights in the years to come.

WILLIAM YOUNG BRADY, JR.
WASHINGTON, D. C.

ROBERT CARL BRAUN
READING, PA.

"Bob"

"R.C."

Deutscher Verein; Chemical Society (1, 2, 3, 4)

THIS unique specimen of humanity is the gift of the "pretzel city" to the world. "Bob" came here with high ambitions in the fall of 1927 and, unlike many others, still has them. One of his chief desires for the past three years has been to join the tennis squad; but, because of his extreme bashfulness, he has never appeared on the courts. He insists, however, that the real reason is that it's a bad "racket." Getting on to other sports, it must be mentioned that "R.C." is quite a famous archer; at least he's very good at making "Bowe's." We all agree that "Bob's" occasional Reading accent is very amusing; but he says he is proud of it. It has often been wondered why he went Theta Kapp. Could it be because of the proximity of St. Luke's? Well, just nurse the world along and you'll succeed.

JOHN GILMORE BREWER
PITTSBURGH, PA.

Business

Reporter, Brown and White (3)

Pi Kappa Alpha

HERE is the photo of one of Lehigh's future financiers. Even though treasurer of his fraternity, he can add figures without making mistakes of over fifty dollars.

John does not profess to be a great athlete but he sure can tear off a mean hundred on his way to catch a trolley for the stage plays. Of course he studies occasionally, especially by the aid of the radio and some inspirational photographs, but he does not concentrate more than six hours at one time. This man is also a great student of literature, being particularly interested in books pertaining to the Roman Conquests. He persists in buying books in partnership with other fellows and then claiming them for the first reading.

For his future we can predict a great chance in the show business or, possibly, as a banker he would take two tens for a five.

Business

Theta Xi

CHARLIE, although a descendant of a long line of engineers, turned to preparing himself for the life of a bond seller. Engineering has its draw backs, and when his folks sent him to Rensselaer hoping to make an engineer out of him, he just didn't take to the stuff, and having heard of Dr. Carothers and his famous course, he transferred to Lehigh. Since then, between "El Macnerchor," Bethlehem, and Skidmore College, Saratoga, he has absorbed a more than ordinary, liberal education and learned a few of the principles of business.

However, looking into the future, the writer would be willing to bet his last nickel that Charlie, with his personality, character, and interest in business will be a success. Here's luck.

CHARLES EVERETT BURT
HARTFORD, CONN.

"Charlie"

Football 2, 3

WHEN Joe came to Lehigh from a little college in Lancaster in 1927, he was one of the biggest men in his class. The product of a South Side bottling works has not made him the least bit smaller. Studies and activities didn't mix well and Joe found that demon probation had a bar and chancery on him with a fall imminent. But in the closing minutes of the bout the demon was thrown and our little hero emerges a graduate.

The Maennerchor, and Cedar Crest College were Joe's chief interests, while football occasionally conflicted with these two pleasant diversions.

A few of us have gone gray while Joe has been here, a perfect example of Owen D. Young's "Five Year Plan." The best way to describe Joe is just to call him a student who is always ready to lay down his life, no, pardon me, his books for any good cause.

Sigma Chi

Epitome, Assistant Editor 3; Senior Classbook Committee 4; Review, Business Manager 4; Business Staff 2, 3; Football Managerial Competition 2; Lehigh Union 5; Interfraternity Council 3, 4; Executive Committee 4; Arcadia 4; Board of Control of Athletics, Secretary, Pi Delta Epsilon, Sword and Crescent, Industrial Engineering Society.

COMBINING the "savoir faire" of Philips Andover, the irreproachable qualities of a Southern gentleman and the stubbornness of a hill-billy of West (By God) Virginia; "Blackie" has attained an enviable position in the scholastic, social, and political field of the University. His senior year saw him ably occupying executive positions in the various organizations of the campus and in his fraternity. True to his West Virginia predecessors at Lehigh he has lived up to their reputation for "bull throwing." Tales of feuds, floods, and mountain-dew—and they get bigger and better every day. His innumerable long-distance calls have been a boon to the Telephone company and we are afraid he will not be long in the ranks of bachelorhood.

MAX CARLIN

Bethlehem

Track Team (3, 4), Cross Country (1, 3), Lacrosse (1, 2), Pi Mu Epsilon, Newtonian Society, Lehigh Mathematics Club.

WHAT a sad day for Brooklyn when in September, 1927, Max Carlin boarded a horse-car for Bethlehem.

From the time he arrived (when he was enthusiastically welcomed by Lehigh's graduates, undergraduates, and never-graduates) until now, Max has been Lehigh's favorite son. With his charmingly-waved auburn hair, his modest manner, and his mouse-like quietness, he has dug his way into everyone's heart. Max seldom appears without being followed by a madly-cheering crowd, several dogs, and a rotten orange.

Max is credited with founding Pi Mu Epsilon. People can't figure otherwise how he ever got into the thing. Also he is the only cross country and track man whose time Kanaly hasn't taken. Morris says he was always home at supper when Carlin finished.

ROBERT FRANKLIN CARR

MONONGAHELA, PA.

"Gas House"

"Robbie"

BOB hails from Monongahela via Arizona. These are not the only strange places he has been or will be. If Bob was 'nt so young we would swear he lead the famous "Whiskey Rebellion" in western Pennsylvania.

He has a knack of getting his studies. Not that we ever caught him on the books—it's just that we would like to know his secret of getting along without them.

To look into this young man's future is a problem that would make a fortune teller falter. We venture this—his career will either shine with great brilliance or be dim with sudden failure. There is no half way about this fellow Carr and we bet on him to come thru.

Beware of premature engagements Bob—and look out for "French Doors."

SURVIVING the long trek from Connecticut, back in 1927, young Curt bought himself a "dink" and went to work as an electrical engineer. Engineering alone did not attract him here, for he had found Suffield a little too far from Florida and moonlight nights. He was accustomed to tearing around Bethlehem and Brodheads-ville in a little old Ford, until the radiator backed up and bit him. That little incident changed Curt considerably, and he gave up everything but studies and occasional trips southward. We suspect that Curt, now a polished man of the world, will some day finish all his "A.C." courses and succeed Mr. Einstein, or Professor Knutson. Anyway we hope he'll be successful, whatever he does, and wherever he goes.

ROBERT STERRETT CHESS, JR.

CRAFTON, PA.

"Bob"

If you ever meet a good-natured, rolly-polly fellow who's always "gripping" about something you may feel quite sure he's our Chessie. Bobbie is always complaining that he flunked all his quizzes, later we find out he got an "A" in the course. Just hor air we think.

If you have any extra cigarettes, candy or anything to eat, be sure to hide them for Chess will sneak up and grab everything. Why don't you ask Santa Claus for something, for a change, Chess?

The women just love that big, silent he-man type, you know. All the "binnies" fall, and hard too. Ask him about his conquests. He'll tell you.

And activities—more than you could shake a stick at. Athletics, scholastics and a fist full of honors. Darn good four year's worth we say.

ARTHUR JOSEPH CIASTKEWICZ
HACKETTSTOWN, N. J.

"Art"

"Sur"

Mining Engineering

Taylor Hall--A

Wrestling '1, 2, 3, 4, Sophomore Council, Arcadia, Senior Banquet Committee, Geological and Mining Society.

HERE he is folks, Hackettstown's youngest contribution to Lehigh. Surely you have heard of Hackettstown. If not, stop around and see Art. He will tell you that it's not as large as New York but just as good. We wonder why he doesn't visit this great metropolis of Jersey more often.

For three and a half years Art has been the shyest and most bashful fellow in school. Then good fortune stepped in and he suffered a bruise while wrestling. Since then he has been a constant visitor at the hospital grounds. And how his shyness has left him, the nurses at St. Luke's sure know what to do. Has anybody here seen Kelley?

It was too bad Art injured himself in a tryout, as he showed great promise in wrestling and may have gone far in the Intercollegiates. Maybe we can get him to continue his wrestling career in Philadelphia (he is crazy about the City of Brotherly Love.)

CARL is endowed with the greatest capacity for sustained work that the Psychology Department could wish to test. For two years we have looked on in amazement while "Ozzie" dove in and practically wrote the Epitome, made Tau Beta, and got himself mixed up in so many other activities that the various honor societies thought he was trying to ring in a few extras.

With a personality that thrives upon friendships and associations, "Ozzie" has thoroughly enjoyed his manifold activities, and has made many friends. Carl was born in Berlin, where everyone carries his own beer mug. Consequently, he has put in a great deal of time being the good Samaritan to people who were rash enough to ripple too freely of Bethlehem's amber fluid.

Unless the "Chief" has worked himself out at Lehigh, he will probably spend the rest of his days making other people feel foolish by doing all the work while they are still thinking about it.

Bethlehem

Alpha Kappa Psi; Musical Club Symphony Orchestra (1, 2, 3, 4),
Musical Club Dance Orchestra (1, 2, 3, 4), Band (1, 2, 3, 4), Leader (4)

ONE beautiful day in September, 1927, Lehigh awakened to find in its midst a new man, at first appearance not at all unlike any other freshman. But this man had a bass horn, and unlike other freshmen he could play it. This was Charlie's big opening, and he took advantage of it by immediately blowing his way into every musical organization in school. Since then he has maintained his undisputed position as Lehigh's premier bass player, and in his senior year was unanimously elected to lead the Lehigh University Band.

In spite of the fact that Charlie is a Business man, he has worked hard, and deserves all the honors he has received. He lives in Bethlehem, and that in itself is a very severe handicap to overcome. Yet "Phoof" gritted his teeth, obtained good grades, and became one of the prominent men on campus. Whether Charlie be a C. P. A. or bass soloist for Paul Whiteman, we wish him all sorts of luck.

LESLIE MCKINLEY COHN
NEW YORK, N. Y.

"Les"

"Quinn"

MEET the Honorable Leslie McKinley Cohn, President of Eta Sigma Phi. With such a position of honor and distinction, you can hardly blame "Mac" for his self-assuring manner and his leisurely bearing of savoir faire. His habit of speaking with his mouth closed is only an outward demonstration of this masterful personality. "Les" has accomplished many more things than snaring mere Latin honors, things to which only the fair sex of Bethlehem can testify. "Les" really seems to cast some particular charm over his ever insistent admirers. They flock to him, but one by one he staves off their passionate advances, he gives them the cold shoulder, the frigid glance, the vacant stare.

In all seriousness, however, his friends expect great things of "Les" even in the field of Latin pedagogy; after all you can't keep a good man down.

STEPHEN HOBART CONDIT

"Steve"

Business

Sigma Phi

Wrestling (1, 2, 3, 4), Assistant Manager Football (1, 2), Manager Fresh Baseball (4), Brown and White Reporter (1, 2), Fresh Cabiner (1), Alpha Kappa Psi (3, 4), Secretary (4)

STEVE started off his college career with a bang by getting his numerals for assistant manager of football. Finding himself proficient as a manager, he followed the baseball team for two years and this season he is "yearling" manager. In his spare time, he kept his studies up and made Alpha Kappa Psi, honorary business fraternity, during his Junior year. As secretary of this society he faithfully forgot to invite the faculty members to most of the meetings—much to their disappointment. Steve has been on the wrestling squad four years. All he got out of it was a bad knee and the respect of his friends for "stick-to-it-iveness."

Also there are few who have enjoyed the social life of Bethlehem and vicinity more than he.

With athletics, managerships, and high scholarship, Steve has made for himself a well-rounded set of college activities, and we predict similar success in the business world.

Chemical Engineering

Coopersburg

Chemical Society (2, 3, 4)

ELLSWORTH took up Chemical Engineering because he heard it was the hardest course that Lehigh had to offer. He likes to do hard things because he is likely to forget the easy ones. One only slightly acquainted with him usually thinks that he never forgets, because he almost always has his work done right on the dot. As you know him better, however, you notice that he always holds the last page of a report open as he hands it in, to let the ink dry. Let's hope he will always have an accurate watch. "Anyway, what's the use of having things done before you need them?"

"Cooper" is the world's greatest radio enthusiast. He built a short wave set that will get England anytime. If it doesn't, he knows they aren't broadcasting.

Good luck to you, Ellsworth, and may all your endeavors be as successful as your "research on radio."

GEORGE ELLSWORTH COOPER

COOPERSBURG, PA.

"Cooper"

Football (1, 2), Tennis (2, 3), Freshman Cabinet (1), Senior Cabinet (4);
E. E. Society.

GEORGE "SLEUTH" COOPER came out of his Sewickley lair one September day and went to the railroad station. While he was waiting for his train to come in, he again turned over in his mind, to make doubly sure, all those things which had influenced him in choosing Lehigh as his prospective Alma Mater.

He liked electricity and the more he studied it the more his interest in electrical engineering increased. He combined work with pleasure and acquired a short-wave receiver over which any of his friends on any afternoon can hear the man from Rugby, England.

"Sleuth" seldom hurries but when he does it is a case of every man for himself and a clear path for "Sleuth." His chief pleasure is in preserving his dignity but now and then he casts it aside to join in noisy jolity and rough-house. Bridge, chess, and the movies serve to pass away his spare time.

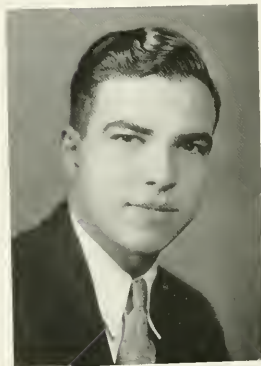

It is surely safe to predict that "Sleuth" will make a place for himself in his chosen profession, for he mixes interest with industry, a combination hard to beat.

GEORGE MULLEN COOPER

SEWICKLEY, PA.

"Sleuth"

ERNEST JESSE CRESSWELL

SCRANTON, PA.

"Ernie"

Football (1, 2); Manager Freshman Swimming (4); Freshman Cabinet,
Sophomore Historian.

PROBABLY everyone doesn't know that Ernie comes from the Electric City. He tries to keep that from being generally known. His middle name is 'Jesse'—those things will come out sometime so it might just as well be now. Ernie made it quite difficult for several business men to pass accounting, but outside of that he isn't such a bad fellow;—after you get to know him. For some unknown reason he decided that Pete needed help in taking care of the swimming team. After two years of intermittent appearances at the gym, he finds himself burdened by the duties of Manager of Freshman swimming. He's a so-called Industrial Engineer—what a handicap, but it's his own fault. Quiet, unassuming, likable—he should go far in the cold world. The best of luck Ernie old man, there's work to be done.

HALL WATSON CUSHMAN
BAYSIDE, N. Y.

Beta Theta Pi

Freshman Swimming, Captain, Varsity Swimming 2, 3, 4) Captain 4), Track Squad 2, 3, Tau Beta Pi, Phi Club, Cyanide.

TO see the captain of the swimming team in action brings even the coolest of sport fans to admire the muscular coordination and resultant speed this man has developed. We who know "Watso" Cushman intimately have tried to compare this speed in the water to his velocity in the more ordinary activities of life.

"Watso" started out ever so slowly. We remember distinctly that big, ungainly freshman with the hither and yon look upon his face. Slowly he picked up momentum thru the next two years. Now we are not quite ready to compare the speed of the man Cushman to the swimmer, but we are willing to predict a finished product in the not far distant future.

Of late we have noticed this Flushing flash troding paths formerly avoided. Having left the ranks of the bashful we caution him to be ever wary of the fair ones.

Chemical Engineering

Chemical Society 1, 2, 3, 4

Bethlehem

BEFORE you is a true scientist. He absorbs physics and chemistry with ease and readily finds application for them. In fact, for the past year he has done research in chemistry in his spare time.

Everyone knows that Ben is always busy, at least during and just before classes. If a course is a three credit hour one, doesn't it mean that all study for that course must be done in three hours of classwork? Ben thinks so, and follows this scheme with most gratifying results and so has time for a "special" at Fem Sem.

One of Ben's pet ambitions is to isolate free electrons and protons and to store them so he can mix them and study their behavior. Perhaps he expects a reaction like that in Freshman Lab when he mixed calcium carbide, sodium peroxide and water.

Good luck and success, Ben, in the lab or out.

ELMER BENJAMIN CYPHERS
BETHLEHEM, PA.

"Benny"

"Cy"

BOLD Lochinvar rides out of the West, not on the well groomed steed of tradition, but on a modern steed of steel and rubber; and if we are to believe his reputation, like a miniature Twentieth Century Limited. But with- all, Cal drives his car carefully, and likewise drives with equally dazzling speed to his opponents on the tennis court, bidding fair for Coach Carother's team.

Cal's "driving" prowess, however, is not confined to speedway and tennis court, for the golf course is yet another scene of driving triumph for him. Fortunately, Cal's chosen field of endeavor will not only bring him the necessary affluence for pursuit of his hobbies, but likewise the indispensable surplus of time there, I gave it away—but you must already have guessed him to be an "Industrial."

BENJAMIN MILLER DAVIS

FREELAND, PA.

"Ben"

BEN came to Lehigh from Freeland, Pa., the region of hard coal, hard women, and hard men (if we can believe all the tales he has been telling for four years). At least Freeland keeps the Mining and Mechanical Institute running, and its graduates seem to wade through Lehigh without losing much sleep over work. Years and years ago they saw the sun in Freeland, but that was before Ben's time, and he had to come to Bethlehem to get a better look at it,—such as it was.

Ben has been finding enough to occupy his time within these four years. While we haven't heard so very much about all of it, we suspect that the unheralded activities have perhaps been the most enjoyable. At the same time he has been able to do some work, play a little basketball, stir up interest in the touch-football league, and do a few miscellaneous things. We trust that he hangs on to his sense of humor during all of the next fifty years.

PHILIP SMYSER DAVIS

LEBANON, PA.

"Phil"

"Chock"

Mining Engineering

Phi Delta Theta

Burs., Editor-in-Chief 4; Editorial Staff 1, 2, 3; Manager, Football 4; Freshman and Sophomore Honors, Tau Beta Pi; Phi Delta Epsilon, Sword and Crescent, Omicron Delta Kappa, Scabbard and Blade, Cyanide, Aradia, Banquet Committee 3; Mining Society 1, 2, 3, 4.

ALTHOUGH it always seems so banal to say that a man arrived on the verdant slopes (or slopes) of Old Souse Mountain four years ago, such alas was the case with Chock. And although it is just as banal to say that he graduated, he did—after laying in a stock of activities large enough to choke the proverbial calf.

Phil (or as some call him Phil) romped through school with the least possible effort and the highest possible marks—and, of course, a Macnetherchor membership and accruing benefits. Now he intends to seek new fields at Harvard Business School, after which he will enter the road construction business and pave the road to success. "Ah, me, the tragedy of life," said MacBethlehem, "as he pucked his sipe in pience."

Metallurgical Engineering

Sigma Phi

Freshman Soccer, Freshman Track, Assistant Manager Soccer 3, Scabbard and Blade 3; Captain 4; Cadet Major R. O. T. C. 14; Rifle Team 1, 2, 3; Captain 4; Vice-President Metallurgical Society 4.

DICK has lived in Washington for so long that he automatically travels in circles. That is to say, he always get back to the place from which he started, and that place is of course Washington.

During his stay here, Dick has improved a natural proficiency not only for shooting a rifle but also for shooting the bull. He was on the rifle team for four years and was twice instrumental in the winning of the William Randolph Hearst trophy for Lehigh. (Just another big shot). In his Senior year he Captained the team and was also Captain of the Scabbard and Blade society, the honorary military club.

Dick has been active in tennis and soccer, and is also a bowling and basketball fan, having taken part in many interfraternity sports contests.

He expects to follow metallurgical engineering when he leaves Lehigh in February. Here's success.

JULIAN DOUGLAS DICKERSON

WASHINGTON, D. C.

"Dick"

Intra-Mural Boxing (1), Freshman Cabinet (1).

HERE we have the one Lehigh student who does not call down the wrath of the Heavens upon the lowly freshman who forgot to awaken him. Chuck is awake long before the freshman becomes conscious, and is indulging in a reverie concerning the prospects of a conversation before classes. When the discussion is concluded by a professor anxious to get his head into the gas chamber, the joy of living is upheld only by the thought of a coming ten minutes for another of his strange interludes.

Until the last summer session Chuck spent the intervening fifty minutes on the subject of Indians, particularly wooden ones that roam the streets of Bethlehem with broken legs. At the summer session, however, he dozed and woke to meet, not a squaw, but the beautiful cause for bigger and better phone bills, and the reason for sleepless classes,—even nights. Here's hoping he'll always sleep as profitably.

CHARLES EDWIN DORWORTH

BELLEFONTE, PA.

"Chuck"

JAMES NEAL DOW

"Jimmy"

Chemical Engineering

Phi Sigma Kappa

Football (2, 3, 4); Burr, Managerial Board; Interfraternity Council, Chemical Society.

JIMMIE swooped down on Lehigh and set himself for a four year whirl at chemical engineering. He spent a stormy freshman year getting acclimated and ended it with a profound dislike for English and M. S. and T. However he later overcame this inferiority complex and settled down to the task of chasing molecules around the chem. building. He accomplished this with apparently little effort and very excellent results. His scope of learning does not tarry there however. Anyone who has listened to his arguments on philosophy, aviation, automobiles, and the 18th amendment will testify to that. His invasions into the ranks of the fair sex have been few and far between but no one is going to hold that against him. He would much prefer being on the business side of a half nelson with a fraternity brother as victim or at a seat in the Arena in Philly, to a full dress affair at Cedar Crest. Jimmie will probably give the Dupont plant a break next year.

RAYMOND HENRY DRUKKER

PASSAIC, N. J.

"Ray"

"Druk"

Mechanical Engineering

Lambda Chi Alpha

Manager, Varsity Swimming 4; Assistant Manager Swimming 3; Assistant Manager Freshman Baseball 1; Senior Cabinet 4; Interfraternity Council (3, 4); Mechanical Engineering Society

IN the first ranks of "God's Greenest Freshmen" stalked an ignorant, innocent, imaginative youth, to register with '31. Raymond Drukker, a little, rotund Dutchman, strayed for the first time in his life from the mosquito bitten town of Passaic. The years sped by, bringing first wonder and disillusion, then participation and sophistication, and behold, a man of the world appears. Surviving camp, firehouses, and tea dances have wrought their black magic, and the experienced, confident "Druk" steps out to meet the hoogaboo, known as life. Jack Petrikin holds no terror for him, the Colonial Grill has divulged it's deepest secret, and accounting is a cinch.

That is his history, tasting everything that Lehigh had to offer, discharging her every command, and ultimately passing her chapel courses. Here's a toast to his future: may it be as bright, eventful, and as lucky as his stay at South Mountain.

Electrical Engineering

Omega Phi Sigma

Freshman Honor; Sophomore Honor; Robert W. Blake Society, Eta Kappa Nu, Treasurer, Electrical Engineering Society, President, Radio Society

ELMER CHARLES EASTON

NEWARK, N. J.

"E"

ELMER CHARLES EASTON was born in Newark, New Jersey. He was graduated from Barringer High School in February, 1927.

El was active in club work in and out of school. Prior to entering Lehigh he was a member of Roseville Chapter Order of DeMolay; President of the Lesamis Club of Newark; President of Alpha Chapter Nu Alpha Sigma Fraternity; and later Grand Master of Nu Alpha Sigma.

At Lehigh he was a member of the Radio Society and served at various times as chief operator of radio station W3AEQ, Secretary, Vice-President, and President of the Society. He was treasurer of the Electrical Engineering Society. He organized the Omega Phi Sigma Fraternity and held some office in that group at all times.

He was awarded Freshman and Sophomore honors, and was elected to the Robert W. Blake Society and Eta Kappa Nu.

Football (1, 2), Lacrosse (1)

It is not difficult to identify his tall angular and shuffling gait as he trudges along the campus. "Les" can be found invariably with a book under his arm on his way to the library—and a secluded nook to study. Funny—but he never seems to get there. But who came to college for an education?

"Les" feels that meeting the right people is of paramount importance in acquiring that university smoothness. To this end, he has zealously bent his efforts, and we must say he has achieved his aims. Austy Tate lost a potentially great football star, when "Les" abandoned the gridiron because his social obligations were pressing too heavily upon him.

His amiable nature and indolent good fellowship have made him a very likeable chap. We will no doubt hear from "Les", who prides himself in being quite a globe trotter, from a far off place like sunny California where he expects to seek his fortune.

LESTER STAUNTON EHRLICH

ALFRED EISENSTAEDT

NEW YORK, N. Y.

"Smooth"

HERE he is, girls. Back in 1928, Al arrived from the big city resolved to set the feminine hearts palpitating. If Bethlehem had known to what extent he succeeded, it might have been another story. After a most thorough development of the local talent, Al widened his territory to include both Allentown and Easton, with occasional visits to Reading, with a trail of broken hearts by the wayside. (It is said that a page from his address book sold for \$5).

Not content with mere social activity, Al surprised the community with his clarinet virtuosity, and attributes his success to the Band uniform. We are inclined to believe, however, that the moustache is no small influence. In spite of his boast to remain a successful bachelor, we feel that eventually some heiress will snap Al up, and when she does—"dousement, non brave."

KENNETH EUGENE ELDRED

BAINBRIDGE, N. Y.

"Chick"

Business

Phi Sigma Kappa

Assistant Manager Freshman Baseball; Varsity Baseball Managerial Competition '23; Lehigh Union Freshman Cabinet, Lehigh Union Sophomore Cabinet, Sophomore Council.

OUT of the northwest rode, no galloped, no that's wrong, drove young Lochinvar, nee 'Chick' Eldred, Be that as it may, one dreary day some four years ago, 'Chick' sallied forth to Lehigh to match wits with Dr. Carothers. It was to be a four years battle with the winner take all and the devil take the hindmost. Now as the haze of the battle lifts we see 'Chick' standing the victor by a nose.

In spite of this battle of the century, 'Chick' has found time to make a host of friends, both on and off the campus, and to find that life is good. And now he has thrown out a greater challenge to all comers. First big business—than matrimony. Salute Adventurer!!

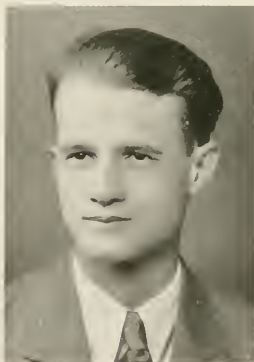

Mechanical Engineering

Taylor Hall—E.

Assistant Manager Freshman Basketball; Mechanical Engineering Society.

IF you, gentle reader, can imagine two quarts of Irish, one gallon of apple sauce, and twenty-four unprintable expressions all assembled into one half pint, which has a grinning countenance and a right arm well developed by a slip stick, you have a picture of a Lehigh engineer named Bob Elly. But this product of Elizabeth, N. J. insists upon making one pun after another, all equally bad, to the distress of his friends. There is a future for you, Bob, in spite of all your wise cracks, in the traveling salesman game.

A cheery, good natured smile, a willingness to help others, and a world of pluck in battling the difficulties of the M. E. department are our best recollection of Bob. As you leave us, take with you all of our best wishes for your success in your work and a copy of "Judge" in which you will find some jokes which may be repeated with impunity.

ROBERT DUNCAN ELLY

ELIZABETH, N. J.

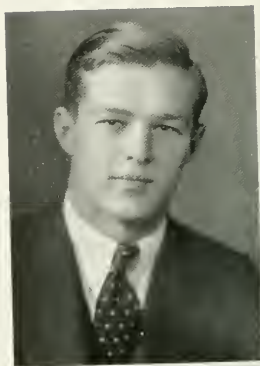

"Bob"

Wrestling (1, 2, 3, 4), Captain (4), Review (2, 3), Senior Cabinet (4)
Senior Ball Committee, Mining and Geological Society.

ONE fine September morn there arrived at Lehigh one John A. Engel bearing with him the usual baggage, many weird ideas, and a large assortment of Boy Scout badges. Since then, evolution having taken its course, the ideas have changed, and the badges have given place to Lehigh honors and plunder.

After establishing his standing on the campus and gaining the nicknames of "Legs" and "Tangle" through wrestling, he turned his energy in another direction, thus becoming a conspicuous figure on Birkel Alley. During the early stages of this new interest someone did him dirt by moving the street light. He then resorted to counting the houses. Evidently this method of finding the right house has succeeded.

When Johnny leaves us, the attendance of the Nativity dances will probably fall off, for his fans, particularly the fair ones were many.

Cross Country (3, 4), Tennis (2, 3, 4), Track (4), International Relations Club, Spiked Shoe Society.

ROBERT BARNARD ENGELMAN
YONKERS, N. Y.

"Bob"

BOB came trotting to Lehigh in the fall of 1927 with the high hopes of becoming a lordly senior by the spring of 1931. In his freshman year he showed Dr. Carothers that he was material for the tennis team by taking a runner-up position in the freshman tennis tournament, and then making a place for himself on that team in his sophomore, junior and senior years. After figuratively trotting to Lehigh, Bob trotted for Lehigh on the cross-country and track teams and for his excellent efforts was made a member of the Spike Shoe Society.

He always maintained high averages and so has accomplished his other high hope, namely, to be a lordly senior in the spring of 1931. One more wish from me and I'm sure from the rest of his friends,—May you always have those high hopes and may they always be accomplished as successfully.

Phi Sigma Kappa

Band 22, Mustard Plaid, Mustard and Cheese, Student Branch of A. S. C. F.

SOME four long years ago, there set out, from the foothills of the Alleghenies, a carefree young farmer lad determined to explore the mysteries of college life. Equipped with only his banjo and a desire to win his way, he entered into this land of beer and houseparties, and began to do things.

The first of these was to take up the cymbals. Many are the days that he marched clashing those cymbals with a low note of harmony that only he could attain. (Thank Gawd). Bill seemed to live for only his cymbals till came the day when he had passed enough band to substitute for R.O.T.C.

During the later years we find our hero delving deeply into the mysteries of engineering and again becoming so engrossed that even during the summer his mind was occupied with the vast mental problem of driving spikes in a rail-road bed.

What the future holds in store, no one dare say. We all feel assured that some day this has been musician and would be railroad builder will take his place with Lehigh's great.

Business

Phi Beta Delta

It took Erny but fifteen minutes to make up his mind to matriculate at Lehigh. When he reached the fair (?) city of Bethlehem, he was amazed at the endless procession of female beings promenading along the bee-vue-ful avenues of the city. In his first year at Lehigh he felt urged to separate the wheat from the chaff and after doing this, he successfully exploited the chaff.

To become serious; in his second year he settled down to the painful business of becoming educated and I must admit that he made an excellent job of it.

In his last year he dropped all frivolities, I have a strange confidence in his making a success of his chosen work.

O TOLL, ye bells! Sing dirges, ye students; for soon this brilliant scholar is leaving his Alma Mater. No longer will his handsome features and stately bearing grace our campus. The loss of so outstanding an Arts student is responsible for the general air of sadness hanging over old South Mountain. Yes, Dick is an Arts student—and he's majoring in Physics! He degenerated—or, as *he* says, was reformed—from an Electrical Engineer. All is not yet lost, however, for Richard has lately evinced an inclination to return to Old Lehigh to continue his studies. He may take as many as twelve hours, if so heavy a schedule does not prevent his week-end activities in Reading. Dick says the object of these visits is to see the folks, but actually, we suspect a brunette in the woodpile somewhere.

Varsity Wrestling 1, 2, 3; Varsity Football 1, 2, 3, 4; Golf Champion 3; Vice President of Sophomore Class, President of Senior Class; Board Control of Athletics 3, 4; Chairman 4; Arcadia 3, 4; Phi Club, Cyanide, Sword and Crescent, Omikron Delta Kappa.

FRANCIS, as Austie calls him, should have five times the sense of most of us because he comes from Nichols.

He took to Lehigh at once. In fact he liked it so well that he has come back for every summer school, and at one time wasn't sure if he could bring himself to leave in June.

Fran's vigorous college career has been marked by several exciting episodes. There was for example, the time, when as vice-president of the sophomore class, he was captured by freshmen, handcuffed, and carried into New Jersey. He outwitted his captors and escaped to return successfully to preside over the sophomore banquet.

Fran, with an enviable record, has achieved honor and distinction at Lehigh. But more valuable and more lasting are the admiration and friendship of his college associates which he has won, and which he will always have.

EBEN FRANCIS EVERS
EAST AURORA, N. Y.

"Fran"

"Mooney"

INTRODUCING Faust, the great Magician. Hen has quite a bag of tricks, but his most famous is coaxing A's out of profs. Don't get the idea from this, dear reader, that he is not a good student, because Hen actually has made his studies a sort of side line. He really is industrious, in spite of the fact that he is an industrial engineer. And being an engineer, he surely knows his curves. Quizzes mean nothing to him. His instructors usually feel the same way about it after reading them.

As a Don Juan, he is—oooooh ah! Well, his love affairs make Anthony and Cleopatra look like a couple of third-raters. To perfect his art, we are told he is considering taking a post-graduate course in advanced wrestling under Professor Sheridan. Even now, his technique with the fair sex is incomparable. At least he hasn't had any complaints yet.

JOEL, one of our gav Lotharios, hails from the cemetery and trolley car country—Brooklyn. When the breweries shut down there, he immediately packed his bags and came to Bethlehem. But that was in those freshman days when—

Undaunted by the seemingly overwhelming obstacle of coming from Flatbush, Jellings has proved that gentlemen and scholars could be turned out of other towns besides Hellertown and Emaus. If his weekly visits back to Brooklyn are any indication at all, we may readily say that Jellings has forsaken the ways of all flesh and joined the ranks of the Benedictics.

Quiet and unassuming by nature and possessing those sterling qualities which are readily recognized by all, we feel that his debut into the business world will be a success.

JOEL MANUEL FLASTER
BROOKLYN, N. Y.

"Jellings"

"Fake"

FOUR years ago this young man came to Lehigh from the neighboring metropolis of Allentown, imbued with the ambition to master the complexities of mechanical engineering. Armed with a slide rule, he plunged into the fray. The foe was a worthy one. Four slide rules were mortally wounded in conquering machine design and calculus. Undaunted our hero fought on to victory.

Johnny has always had the interests of his fellow-men at heart. At the present time he is concerned with decreasing the entropy of the universe. The master minds of the world await his solution.

Like all great men of science, Johnny is forgetful. This can be explained when we realize that his mind is occupied with weighty problems and is above the commonplace. Meanwhile we suggest that he purchase his slide rules by the dozen so that he may be assured of having "spares" throughout his engineering career.

JOHN DAVIES FOLWELL

ALLENTOWN, PA.

"Johnny"

WALTON FORSTALL, JR.

ROSEMONT, PA.

"Walt"

"Grenouille"

Wrestling Squad (1, 2, 3, 4), Brown and White Editorial Board (1, 2, 3, 4), Editor-in-Chief (4), Epitome (3, 4), Review Editorial Board (3, 4), Arcadia-Senior Cabinet, Freshman Honors, Sophomore Honors, Alumni Junior Prize in Mechanical Engineering, Corresponding Secretary, Tau Beta Pi, Secretary, Sword and Crescent, Vice-President, Omicron Delta Kappa, President, Pi Delta Epsilon, Treasurer, Pi Tau Sigma, Pi Mu Epsilon, Newtonian Society, Mechanical Engineering Society, Phi Beta Kappa.

THERE are in each incoming class a gifted few who are capable of combining a wide scope of activity with scholastic success. Of these potential colossi four years ago, Walt was one.

His debut on Lehigh's campus activities was made in connection with the Brown and White. That this was a wise choice is signified by his successful career as editor-in-chief. In the gradual metamorphosis from freshman to senior he came to devote more and more of his time to an ever widening field of activity, eventuating as a member of Tau Beta Pi, Sword and Crescent, and Omicron Delta Kappa.

The facts lead to the unavoidable conclusion that here is the exceedingly rare combination of a cheerful, compelling personality, a keen intelligence, and an insatiable capacity for work.

CHARLES OTTO FREDERICK, JR.

PORT CHESTER, N. Y.

"Charlie"

Business

Bethlehem

Track 3, Brown and White, 4; Mutual Clubs 1, 2, 3.

WELL here's Charlie, another of our "bad penny" group. He left us a couple of years ago for what he termed "better lands," but we guess they weren't so good after all, so he, like the proverbial cat, came back.

Charlie's a Brown and White reporter and, in this capacity has solved many dark mysteries of Bethlehem's underworld. From the last reports he's now working on that "Sweet Mystery of Life."

Charlie's diversion seems to be music. He thinks Bethlehem's girls bad and its beer worse. From the looks of things we guess he's being true to someone back home.

There is a serious side to Charlie too, and those of us who know him recognize those qualities of a real straight shooter, and we predict, without a doubt, a successful future for him.

Chemical Engineering

Alpha Kappa Pi

Newman Society, President; Pi Mu Epsilon; President (2), Mathematics Club, Chemical Society, Treasurer.

FRANK came to Lehigh filled with the idea that several major problems exist in this world which, if solved, would benefit mankind. Foremost among them was the problem of making synthetic milk. From four years of diligent research he has concluded that since milk is nine-tenths water, he therefore has the problem nine-tenths solved. The remaining tenth still awaits his consideration.

Believing that all work and no play would make him unpopular at house-parties, Frank also took a passing interest in the fair sex of Bethlehem and vicinity—passing from one to the other as quickly as possible. His latest idea on the subject is the organization of a "Girl-of-the-Month" club for the benefit of backward frosh, but as yet it has been impossible to find other competent judges.

Such an indomitable spirit of research must lead to success!

Burr, Business Manager (4), Burr Board (2, 3, 4), Manager, Varsity Wrestling (4), Treasurer, Freshman Class, Treasurer, Arcadia, Treasurer, Union, Vice President, Gamma Club, Sword and Crescent, Pi Delta Epsilon, Omicron Delta Kappa, Secretary and Treasurer, Eastern Intercollegiate Wrestling Association, Band (1, 2), Musical Clubs (3, 4), Mustard and Cheese.

THIS fair-haired Pittsburgh booster believed in giving the engineering professors a sporting chance to out-guess him, and that is how Sam became a business man. However, as an efficiency expert, he is unrivalled, for he certainly accomplishes the greatest amount of work with the very least possible effort.

Being endowed with a most pleasant personality, an enviable art of conversation, and the ability to make the humblest, most decrepit looking musical instrument produce the very "hottest" music north of the equator, it was inevitable that Sam should become a popular favorite not only with his classmates, but also with the women. Nevertheless, Sam's only "baby" was a beautiful blue and yellow phaeton which he nightly rucked under the canvas cover. Although he never avoids the fair sex, his head has thus far ruled his heart and the conquest remains open to all girls free, white, and twenty-one.

Mining Engineering

Taylor Hall—B

Class Editor, Epitome (3), Senior Class Book Committee, Historian, Senior Class, Senior Cabinet, Arcadia, Scabbard and Blade, Musical Clubs (1, 2, 3), Treasurer, Mining Society (3), President, Mining Society (4).

FROM Trenton, N. J., came this little, blond beam of God's sunshine. If we had known no better, we would have believed this to be an age of innocence, for he fairly radiated just that. Breathless we watched his progress, but our disillusion soon became apparent. Liquids (excluding water) and women; what could the result be with exposure to these? He went the way of good Lehigh men.

There is hope though, for fast as the backsliding has been, Bill has tried not to hasten it. He has attempted to meet his fate on a 50-50 basis. The ultimate result has been friends.

Bill started out as a mining engineer and will graduate with that degree, but we doubt very much if that will be his profession. We are expecting favorable reports of Bill from the business world.

Varsity Lacrosse (2, 3, 4), Varsity Football Squad (2, 3), Freshman Football, Freshman Wrestling, Freshman Lacrosse, Civil Engineering Society.

INTRODUCING W. Corlett Galvin—1931 model of ve-
 nant knight. He dreams of chivalrous deeds,
 fiery steeds, and maidens fair. But alas—as a nearest
 approach in this modern world he has become a "sivile,"
 boldly charging stresses and strains, "damning" this
 and bridging that; with little difficulty he slew the
 seven-headed dragon "Annie Mack" and rode victorious-
 ly homeward with the much covered sheepskin. In
 place of the knightly art of jousting Walt adopted
 lacrosse and his dexterity with the stick won him a
 varsity berth for two years. Walt also handles the
 hockey stick with no mean ability.

As an all-round good fellow, considerate, willing, and
 generous, Walt is a true Southern gentleman despite his
 Yankee finish—well liked by all who know him.

At present he is planning to incorporate with a certain
 attractive "Irish colleen," go to China and start a League
 of Nations all of his own. Good luck and send a few
 ambassadors to Lehigh, that she may boast of more
 loyal sons as fine as this one.

WALTER CORLETT GALVIN
 JAMAICA, LONG ISLAND, N. Y.

Delta Tau Delta

Assistant Manager Varsity Tennis (3), Musical Clubs (2, 3, 4), Mustard
 and Cheese Production (2, 3), Mustard and Cheese Club (3, 4).

DAN GEARY is Lehigh's Mystery man. The mystery
 being how he has stayed in college for four years.
 Despite the efforts of the entire business department to
 try and put him out this sly, red-bearded, New England
 Irishman has eluded them. His ability to get out of
 studying is uncanny. He even went so far as to develop
 a phoney case of measles last spring and had Doc. Bull
 send him home a month early for summer vacation.

That he is intensely interested in his Glee Club and
 Mustard and Cheese work is evidenced by the fact that
 he is an active worker in the study of Beethoven's works
 and the whole background of German Music. His
 Mustard and Cheese work has been helped by his ability
 to concoct the tastiest mustard and cheese sandwiches
 found in any sea food place in town.

IRVING EUGENE GENNET
NEWARK, N. J.

"Gene"

"Irr"

Arts and Science

HERE we have a quiet, unassuming, popular young man, one of Bethlehem's finest—(whatever that may be). "Graham," as he is known, is notorious from the high-topped ridges of South Mountain to the lowly bluffs of Emaus. Many a lass has whispered with both fear and delight as this young Galahad and his Packard steed dashed by; for 'tis rumored he enslaved the maidens of Cedar Crest with his crooning melodies.

Those who grace the ominous portals of Christmas Saucon can recognize our "Sage of Seneca Street" explaining to a despairingly, vacant group one of Carother's Soich. points. If ever "Goody" misses a social event, know ye lowly ones, that his intellectual pursuits lead him to study for finals only four months hence.

Not satisfied with high scholastic honors attained at Lehigh, "Goody" intends to continue his studies at Harvard Law where no doubt we will hear more of him.

STEPHEN LINCOLN GREGG

WASHINGTON, D. C.

"Steve"

Electrical Engineering

Theta Delta Chi

Soccer (1, 2), Junior Cheerleader (3), Head Cheerleader (4), Manager Freshman Basketball (4), Chairman Junior Banquet Committee (3), Tau Beta Pi, Pi Mu Epsilon, Treasurer, Scabbard and Blade, Electrical Engineering Society, A. E. E. E.

DESTINY gave Stephen "Lincoln" Gregg to the aid of the "North" almost in the same capacity as was his immemorable namesake summoned save that perhaps Steve was a bit more prepared. For indeed, Steve has been a soldier through every walk of life and consequently well disciplined. Watch his heels snap when a fair-haired Saxon assails his eye.

Having previously acquired this instinct of concentration, Steve early got the jump on us and lost no time in planting himself in Lehigh heart and soul. He launched an activity program as a freshman that was to culminate in his being chosen manager of freshman basketball, head cheerleader and a member of that coveted society of honor—Tau Beta Pi. But when a man gets a daily letter from Washington with each word underlined, it's a bad sign! Surely we know of no maternal care so profound.

Business

Kappa Sigma

Track (1), Basketball (1), Band (2, 3, 4), Symphony Orchestra (2, 4), Glee Club (3), Dance Orchestra (4), Mustard and Cheese Orchestra (4).

HELLO! Who is that young fellow over there? What, don't you know who he is? He is our distinguished "Doctor," Lehigh's chief dispenser of smiles and happiness. His services are free for the asking. Many patients consult him daily. One consultation is all that is needed to drive your blues away. He never seems to have any sorrows or despairs, but always has a smile and a good word for everyone. We wonder what his secret formula is. This world would be a much better place to live in if everyone would have "Doc's" optimistic attitude.

Do not think that the "Doctor" spends all his time smiling his way through college. He is a good student, has never had to worry about lessons. He is also quite a versatile musician, playing the piano and saxophone well.

We do not know what he plans to do upon graduation, but we know that he will continue to spread good fellowship. We wish him the best of luck in all his ventures.

Football (1, 2, 3, 4); Basketball 1, 2, 3, 4; Vice-President, Junior Class; Treasurer, Senior Class; Phi Club, Cyanide, Interfraternity Council; Chemical Society.

IT is exactly four years since the Bethlehem Boy Scout Band turned out to the last mouth organ, to welcome the pride and joy of Hackensack to this, our fair city.

In spite of his rather giant-like size, Sam isn't slow. This is proven by the speed with which he became—acquainted—shall we say?, with some of the fairer Fem Semmers. His three years of varsity football and of basketball also bear out this statement.

The life of a chemical engineer here at Lehigh is pretty tough. Perhaps that's why Sam rarely missed a week-end at home—it may have been for recuperation purposes, but one can't tell!

Good luck, old man, may your children all grow up to have curly hair and be football players!

LOUIS BENJAMIN G. HAMBURGER
MOUNT VERNON, N. Y.

"Lou"

"Ham"

Bellows

Newman Society.

Bethlehem

THE year Frank Carideo left Mt. Vernon to achieve everlasting fame on the gridiron, a glib and eccentric individual from the same town entered the Freshman class at Lehigh. His success here is evinced by the appearance of his picture above.

"Lou" has been one of the outstanding residents of Birkel Alley for the last few years. Report has it that he is pursuing an education so that he can sell as snappy a bond as the next man. Be that as it may, "Lou" has at least acquired the art of putting the nine ball in the corner pocket to a high degree and we greatly doubt if Max's will be the same without his elongated form considering a four ball combination and a kiss shot.

About the best wish that we can make for "Lou's" future is that he make as many friends in business as he has at Lehigh and that he will pursue his chosen work as well as he has done in the past—and that will not take much wishing to make it happen.

Electrical Engineering

Chi Psi

Assistant Manager of Lacrosse (3); Brown and White Board (1); E. E. Society (2, 3, 4); Student Branch A. I. E. E. (3, 4).

OBVIOUSLY, John comes from the "corn pone and waffle" state, Virginia. Not so obviously, he originally lived in the wild western state of Colorado. His cowboy experience out there is evidently what fitted him for his extensive riding of old Fords.

John was one of the few men who were usually announced soon after their entrance into Packard Lab. He would hardly have his hands on the apparatus before a flash and a blown fuse would say more surely than words, "John Hamp is here."

In spite of this, John made out quite well in his studies and, with the help of one summer school, expects to gain the objective he started out for, four years ago.

The only danger that seems to lie in John's path in the future, is the possibility of those three southern beauties getting him before industry does.

JOHN WILSON HAMP
STAUNTON, VA.

"Johnny"

Publications Committee (Chairman); Arcadia; Freshman and Sophomore Honors, Williams Prize; Robert Blake Society.

FROM Pen Argyl, came the "Midge"—just five foot five. Text books seemed to be C. A.'s hobby, although Friday nights usually found him among those present at Gateson's "rat races."

"Midge" thought he was picking the course of least resistance so he decided to major in English. As a disciple of Dr. Smith, day after day, he has wandered aimlessly among the catacombs and cubicles of the library.

"Still water runs deep," and "Midge" typifies this bit of philosophy. Daily missives from Frederick are living testimonials that all his time has not been spent in the classroom during his four-year quest for knowledge. We admire "Midge" for his ability to maintain a Phi Beta average and still have time enough to devote to his social activities. Quiet, unassuming, firm, and sincere, C. A. has made a host of friends.

STEP up gang, and meet Dutchy Seyfert's electrical wizard (?), hot from the metropolis of Narberth, who came to Lehigh from Lower Merion, innocent of women's ways and of the fact that nobody liked his singing. Bob found, soon after his arrival, that his high school created little interest, so he turned his attention to athletics, where he soon attracted people's comment, and was often mentioned in connection with three sports. During this first house-party, he left before the "fems" began to appear, and wasn't seen until the last of them had left. His high-powered Ford and a summer at surviving camp changed him soon, and the fudge he received was home-made forever after.

So here's to Suitcase, by which name he is better known, with a wish that his journey through later years may be as pleasant and as successful, not counting probation, as were his four years with '31 of Lehigh.

Basketball Managerial Competition 2, Freshman Cabinet 1, Sophomore Council, Banquet Committee 2, Senior Cabinet Lehigh Union 4, Band 1, 2, Musical Clubs 1, 2, 3, 4, Quarter 1, 2, 3, 4, President 4, Mustard and Cheese Play 1, Cyande, Executive Committee 3, Metallurgical Society.

FROM a town boasting "Seven Country Clubs in Seven Miles", nor to say anything of the miniature golf courses, came this innocent youth with a silver voice and curly hair. Four years of "club" life have slightly tarnished the silver, and worry has started to uncoil the spiral ringlets of his brow. But the youth comes forth a man admittedly well versed, scholastically and socially. Upon cross examination he admitted it himself, but then that doesn't have a whole lot to do with the subject. Nor is it necessary to waste words in praise, for a glance at Jack's activities will preclude that, despite his overlooking an old adage about believing in signs, which was somewhat of a hindrance. We do want to say this though, a man of his wisdom and personality can't go far wrong even if he is a metallurgist.

WILBUR PARKHURST HARROWER, better known as "Texas Pete," poses as a gun toting, fast shooting, bad man. To further establish his Western traits, he has assumed a reticence which would do credit to a clam. However, those who know Pete best, know him not as a tough hombre, but as a sincere and kind-hearted friend.

When Pete entered Lehigh, he at once decided to become an Industrial Engineer. After due consideration and a year of engineering, he decided that the business world offered more opportunities to the young man of today. Since this momentous decision he has devoted his time to the study of business. For the most part he has spent his week-ends in Bethlehem. It is not certain whether the cause of this was a desire to study, or whether Pete scorned the nearby civilized haunts and preferred to take imaginary trips to Montana, Texas, and Canada.

If his ability to make friends in college is a measure of his ability to make friends in the world, there can be no doubt of his future success.

WILBUR PARKHURST HARROWER
PLAINFIELD, N. J.

"Pete"

Freshman Honors, Pi Mu Epsilon (2, 3, 4), Pi Tau Sigma (3, 4), Recording Secretary (4), Mechanical Engineering Society.

HERE we have another of Lehigh Valley's sons who have taken Dr. Conwell's advice and searched for their diamonds near home.

Jim is quite a scholar, and to prove this he started out four years ago with a bang, by knocking down a flock of A's.

We don't know how he does this, since his books always look as clean and new as they were the day he bought them. We have also observed that he often takes his lecture notes on any convenient scrap of old paper—when he doesn't go to sleep. This is only one of the deep mysteries concerning this young man. No one knows the reason for his frequent visits to Philadelphia. However, these mysteries are quickly forgotten when you meet Jim, for he always greets you with a pleasant smile.

JAMES BUSSE HARTMAN

"Jim"

THANE EDWIN HAWKINS

HARRISBURG, PA.

"Hank"

Mechanical Engineering Society

HERE'S our good old friend. "Tee-Hee" Hawkins. He's just an M. E., but then a man has to be something, and there's no accounting for taste. Anyone who joins forces with A. W. Luce and Company without being forced to it, can't be right. Having thus established the status of Hank we might add, as a sort of prophecy, that a few years might find him sojourning in London, since he is at his best when in the fog. However, contrary to the opinion of many people, he has been known to emerge at intervals from this hazy atmosphere. His effort to overcome the fog has met with success recently.

Putting all the bunk aside, if you'll take a tip straight from the shoulder its this. M. E. or no M. E., fog or no fog, he's a good pal for any man to have.

WITH but one hundred and fifty words allotted to "Jim's" biography, to describe him, as would be befitting, is impossible. "Jim" came to college with zeal of a crusader. His work has been rewarded by honors, and will culminate in his graduation in June after only three years of college matriculation. Yet "Jim" is not a "greasy grind," in fact, he is the exact counterpart. It is little short of miraculous to think of what he has accomplished, in addition to swimming, and aiding in the social life of Bethlehem. We often wonder whether we have been harboring a jovial genius. Upon putting this question to Jimmy, we have always met with an exclamation which might be deemed to signify his modesty. "Oh Baa"! Only the future can answer this question.

WILLIAM EMANUEL HERMAN

YORK, PA.

"Bill"

... and so our Willie came to Lehigh from York, Pa. Even though York is known as the White Rose City, Bill Herman is not a bad fellow at all. One just has to get acquainted with him, that's all. He will do anything for you. He'll borrow money, take your ties—he'll do anything.

But Bill is really quite a serious minded student too. The look of sheer determination on his face as he "bones" for those finance quizzes leads us to believe that J. P. Morgan will be out of a job when Bill hits the big world. But our friend will have to forget those wild women. Yes, the truth will out—he has many women at home and abroad.

The soccer team also claims Bill and that "L" looks mighty nice on that big brown sweater. He claims a position as goalie, so you see he's always kicking about something.

Freshman and Sophomore Honors, Tau Beta Pi, Pi Mu Epsilon, Pi Tau Sigma, Corresponding Secretary, Band (1, 2, 3, 4), Symphony orchestra (3, 4), Mechanical Engineering Society.

A SHY, rather bashful and retiring young man alighted from the train some four years ago to begin a course of training at Lehigh. But the years have greatly broadened the character of 'Bobbie' Hess. He has, along with having obtained a thorough education, acquired the art of enjoying life.

Without flattery, it may be said that Bob appreciates the better things, deriving satisfaction from musical concerts and art exhibits. Few prominent lecturers address the university without Bob in the audience.

'Bobbie' delights in having people think that college has not deprived him of his coyness, but few of his friends have been so deceived. For before his impelling smile and clean cut countenance, many a fair heart has fluttered.

That quick sense of humor and quiet manner will continue to make Bob popular, but behind it all he will always remain the same conscientious individual with a well defined purpose of doing well.

"Jim"

Intermural Lacrosse (1, 2, 3), Varsity Lacrosse Squad (2, 3, 4), Graduation Announcement and Invitation Committee, Tau Beta Pi, Metallurgical Society (3, 4), President '43, Mining Society.

JIM'S a southern gentleman. His inquisitive physiognomy made its first appearance at Lehigh in September, 1926, and ever since that eventful day he has been winning the hearts of all those who know him; that is, those who don't know him too well.

Jim started off as a "Miner", but fearing the possibilities of never being able to vote, however, because he took a year off to study his future job from a practical standpoint, and during that time he absorbed the "whys and wherefores" of the steel industry. With zeal and enthusiasm he returned for the last two years at Lehigh, and during that time he swept the faculty off their feet by becoming a master mind of metallurgy.

Many a houseparty enthusiast has given up in despair and wished Jim were a stag after he had performed the Ronald Coleman act for his girl. "Oh, he's simply grand."—Can't you hear your girl saying that? He's tall, dark, and handsome and what's more he is a gentleman, a scholar, and a judge of good spirits.

"DUTCHY" came to Lehigh with a very enviable athletic and scholastic record, but he bore the burden of an overwhelming handicap—he was from Lebanon. Still Rus was not discouraged, and he determined to make a name for himself scholastically, athletically, and socially. His diploma, his varsity L's, and his many friends are proof that he succeeded in attaining his goal.

Yet in spite of his success at Lehigh, Rus has one great weakness. He likes to travel. Somehow the city of Lancaster has presented to "Dutchy" certain attractions which others have overlooked, and his week-end cry has long been "Lancaster or bust." Aside from this abnormality though, "Dutch" might easily personify a freshman's ideals. He is a student, an athlete, and a man-about-campus, and we may soon expect to see the name of Hoaster in "Who's Who." We are all wishing Russ and the little girl from Lancaster all sorts of luck.

LONG ere Lehigh's learned vapids rushed from out his chest
In a group of stilling classrooms, walls in dull gray dressed

In the heart of Christmas-Saucon, close by Neilie's side
Jo-Jo picked his Alma Mater from the Dairyman's Guide.

Like an overdraped Colossus in resplendent clothes
Joe now advertises Finchley everywhere he goes.
All he wrests from fashion's storehouse, naught escapes his eye,
Sells it gladly to his brother while he winks his eye.

We will ever live to love him; live to praise his name,
As he drives his dairy wagon forth in fashion's name.
Let the glad news wake the echoes, Joe is through at last
Hail to him, bedizened milkman, school for him is past.

JOSEPH MANSFIELD HOBSON
PHILADELPHIA, PA.

"Jo-Jo"

Burr, Editorial Staff (2, 3, 4)

"S" is short for silent. That's the way he was as a freshman. The name has stayed with him, although the characteristic is not quite as apparent as it was four years ago.

Beneath the cloak of silence that he rarely doffs, we find quite a sense of humor and very amusing wit. Si has served faithfully on the Burr Board for three years, but in spite of that affiliation has kept a pure and productive mind.

We cannot quite figure him out when it comes to women. We've never seen him with one, but from the subtle fragrance of the letters he receives, he must wield a smooth pen. Perhaps some day he'll break down and tell us all about it. We're sure going to the wedding—whether he invites us or not!

Here's to you, Si. Your attainments have impressed us, your friends, of the truth of the age-old statement that silence is golden."

JOHN HENRY HOLZSHU
CUMBERLAND, Md.

"Manny"

"Sonny"

Brown and White (1, 2, 3, 4), News Editor (3), Editorial Manager (3, 4), Lehigh Review (3, 4), President Intercollegiate Newspaper Association of Middle Atlantic States (3, 4), Pi Delta Epsilon, Vice President, Delta Omicron Theta; Varsity Debating (3, 4); Chairman Lehigh Liberal Club (3, 4), Secretary, International Relations Club

If you ask him about it, he will describe himself as Lehigh's most efficient cynic. He may tell you how he took only nine hours of work in his senior year in order to avoid going to classes—and so insure at least five months of education anyway.

But his older fraternity brothers will tell you that when he came to Lehigh he was as innocent as a baby, that he could be convinced that the earth was flat and even that Lehigh had good football teams. They blame his abrupt change on too many late nights at the Brown and White office and a distaste for beer.

Anyway we think he knows more than he cares to divulge about who put chewing gum in Litzenger's lock. We also suspect that he wrote all those editorials about Chapel because he was too lazy to get up early in the morning.

WHEN the bells softly toll over the campus in June, Joe's varied college career will close. Before Joe came to college his main objective was to be a bricklayer, but he was prevailed upon to start at Lehigh. During his first year he concluded that travel broadened one and so he left for the wide open spaces. The following September found him back at Lehigh, but still he thought he was qualified to build sturdy foundations, and again he departed from his Alma Mater. This did not last long, Joe realized the need of a higher education in order to pursue brick and mortar to towering structures.

Ever since then he has applied his excess energy about Bethlehem until there exists no door which will not answer to his knock. Needless to say, Joe has not let the fair Bethlehemites suffer; when he leaves Lehigh many a fair heart will pine. With all of these characteristics we can be sure that next year will find Joe laying foundations the width and breadth of this fair land.

JOSEPH ANDREAS HUNOVAL

IRVINGTON, N. J.

"Huny"

"Joe"

Track '2, 3, 4 Cross Country '3, 4), Band 1, 2)

GEORGE came here a horn coal miner. It took him a year and a half to decide he was best suited for business. Ambition is George's main characteristic, for fall or spring he could be found in the gym. In the fall you would see him running around the campus and the neighboring countryside, his hard work being rewarded with a letter in cross country. During the winter he believed in variety, while in the spring one found him running around the track.

Whatever this industrious gentleman undertook was done in a big way. One year he took the movies in a big way; the following year he took sports in a big way. Then, like many others, he was hit by the prosperity wave and had his fingers burned in the market in a big way.

When George goes out into the world with his business degree under one arm and his indefatigable ambition in the other, he will have plenty of opportunity to show what he learned at Lehigh.

GEORGE EDWARD HUNT
EAST ORANGE, N. J.

CALVIN BREWER HUNTOON
SWARTHMORE, PA.

"Bill"

"Cal"

Cross Country Squad '4), Brown and White Competition 1).

FROM a strong Quaker influence came "our boy" Cal.

In the short period of two weeks, this good influence seemed to have deserted him, but everyone sympathized with him! he was led astray. However, he did create a few noteworthy precedents which certainly will live forever. Among these are "The Famous Huntoon Billiard," "The Huntoon Serve (Ping-Pong)", the memorable way of counting off in R.O.T.C. drill, viz. "Hun-Toon-Three-Four," and a very clever way of covering the entire course in a cross-country meet. There are, of course, those creations in the social line which can be attributed to Cal, but they are so unique that he prefers to keep them for his own exclusive use. We hope, though, that he continues in his creative efforts, but that he stays away from jokes, short-stories, and portrait painting.

HENRY BRILL JAGGARD

BERLIN, N. J.

"Hank"

Business

Baseball (1, 2, 3)

Berlin

HERE is the original bad penny. Lehigh thought it had gotten rid of the foreigner from Berlin when Henry left in February, 1927. Perhaps his sojourn in the cruel world of business showed him the error of his ways whereupon he turned up in the fall of 1929 and, in his innocence, decided to be food again for the business department. Henry is now a typical business student. He never misses a movie if physically able, studies to a minimum, fails to comprehend an engineer and cares less, and extends a hearty disrespect for Arts men. Henry is seldom seen in these parts in the company of the fair sex. The reason is, of course, "the girl back home," and from what we have seen, it is a good reason. Henry has few vices and manifold virtues which are evident to those who know him.

Chemical Engineering

Omega Phi Sigma

Freshman Swimming (1), Rifle Team (2, 3, 4), Sophomore Honors (2), Sigma Xi (4), Chemical Society.

IT was a balmy day in September and no one was really responsible for it, but there he was, standing on the campus. Ashbaugh welcomed him with open palms. Then he went out of sight and we only catch glimpses of him, diving on the Frosh swimming team and receiving Freshman numerals. In his Sophomore year, he managed to garner Sophomore Honors and win a place on the Rifle Team.

Then in his Junior year we find that his only achievement was retaining his position on the rifle team. All too soon the Senior year arrived, and we find he has nothing to do except convince Simmons that he has a firm grasp of Chemical Engineering. It is noted that Sigma Xi has made him an associate.

Among his souvenirs are, several receipts for fees paid, some rifle team medals, a good address book, and remembrances of how a gun carriage looks from below.

CHARLES AUGUST JEANSON, III

BROOKLYN, N. Y.

"Charlie"

Freshman Football (1), Glee Club (1, 2, 3) E. E. Society.

"JEFF" went to school in his youth at Hollis, L. I. Lately, however, he has favored Lehigh, and seems to enjoy it immensely here. This liking has grown somewhat during the past year, for he has stayed in Bethlehem a surprising number of week-ends. Philadelphia and points west were formerly his roving grounds, and now—Well, Jeff just doesn't seem to want to go away.

As a Glee Club member Jeff is well remembered, not only for his singing but also for the good times he always managed to have, be it trip or rehearsal.

And did you ever hear his inimitable chuckle? Any and all time it's ready, and seldom does Jeff have a disgruntled look on his face. Glance up when you hear it (you can't miss it) and you'll see a big smile and a trick "dropped eyebrow" on an up-and-coming Electrical.

JOSEPH. JEFFRIES, JR.

HOLLIS, N. Y.

"Jeff"

"Joe"

FREDERICK DWIGHT JOB

SCRANTON, PA.

"Fritz"

Freshman Basketball; Photographic Editor, Epitome, Senior Class Book Committee, Civil Engineering Society '33, 4

WITH a ready, genial smile and good humor, Fritz radiates a real cheerfulness and good-naturedness. Guided by a motto of "stick to it," he has demonstrated that he came to college with a purpose, and throughout his undergraduate career it has existed, exemplified by the conscientiousness of his work. The photography of the 1931 Epitome is but one example of an ability that exists in other fields as well. Possessing basketball capabilities of note he made the freshman team, and has since played in all the house games.

In any seven counties, it's doubtful if any one person possesses as keen a hearing for the rattle of paper denoting cats, or as keen an intuition of where to look for the same. And in any seven counties, it's doubtful if any is more good natured, more ready for a good laugh or a practical joke, or is a better "kibitzer".

Post Opinion

Football 1, 1, Lacrosse 1, Brown 20, White, Business Staff, Freshman Handbook

DANIEL P. JOHNSON, as he signs his name, or "Spin", as he is more familiarly known to his intimate associates, came to Lehigh from the quiet hamlet of Swarthmore.

At college his avocations, lacrosse, hiking, and advanced Military Science and Tactics, all seem to have been designed for the strengthening of the legs. This was fortunate, for he had need of strong pedestrian members to support a head into which, since 1927, Dr. Carothers and his assistants have been pouring the weightiest of knowledge, and a body into which upon occasion the subject himself poured quantities of a famous local beverage.

It is with keen regret that we see Spin leave us now. His sound judgment and courageous defense of his own opinions have been an inspiration to many of his friends. But above all, his hearty companionship and warm friendship have made for him a place in our hearts that will always be his.

Mining Engineering

Kappa Sigma

Football 1, 2, 3, 4, Baseball 1, 2, 3, 4, Mining and Metallurgy Society

FOUR years ago, "Sad Sam" Jones came to Lehigh. He was only a freshman, but, in his own eyes at least, he held a distinct advantage over the other members of his class. For he came from Washington! We used to think that Washington was famous because it was the capital of the United States, but now we know that the real cause of its fame is Sam Jones, the man with the most fertile imagination in Lehigh.

But Ad's tall stories are not his only bid to renown. He is a versatile athlete, and has won varsity letters in both baseball and football. And in spite of the fact that he is an engineer, he has managed to get very good grades throughout his college career. Sam has made an enviable reputation for himself while in college, and we are sure that he will continue his good work. "Lotsa luck, Sammy!"

FRANK ADDISON JONES
WASHINGTON, D. C.

"Sad Sam"

Mechanical Engineering

Taylor Hall—C

Wrestling (1, 2); Dormitory Chief (4); Glee Club (1); Mechanical Engineering Society.

BY the time George arrived at Lehigh the standard stock of nicknames in the dormitories was exhausted, so he has been required to go by the simple designation of G. B.

G. B. is a mechanical engineer, his favorite diversions being dancing, photography, and bull sessions.

I have heard many strange tales of women, but G. B. tells the strangest of them all. Some fellows speak little of their girls—others brag about them—but G. B. treats the subject in an original way. His stories of women have formed the subject for many mid-night discussions in all sections of the dormitories.

Well, graduation approaches, and if G. B. can accomplish his desire, next year we shall find him an engineer in his home town, Baltimore. Good luck!

GEORGE BOYER KADEL

BALTIMORE, Md.

"G. B."

OGDEN AUSTIN KANTNER

CRESSKILL, N. J.

"Oak"

Mining Engineering

Omega Phi Sigma

Swimming (1, 2, 3, 4); Track (1, 3, 4); Cross Country (3); Sophomore Honors; Tau Beta Pi.

BORN and brought up in the "Garden Spot" of the world—New Jersey, to be explicit,—"Oak" entered Lehigh with the idea of becoming one of the country's foremost engineers. A young and unsophisticated Freshman, conscientious as to studies, ambitious as to athletics, "Oak" managed to succeed to a small degree in both.

Intensely interested in Mining Engineering, still optimistic in athletics, wondering at being a Junior, in a "funk" at being elected to Tau Beta Pi, our friend sailed serenely through his third year.

And so, still a good student, no longer optimistic with regards to athletics,—however, let us not forget that he tried his "d—est"—, cleared of such a false charge as "studious", "Ogie" is soon to leave Lehigh with but a single thought in mind. "If I don't get further than those Mets., I'll give myself over to the lowest of them all, those Electrical."

LEO FRANCIS KEEFE

RUTLAND, VT.

'Bunsie'

'Power-Play'

Arts and Science

International Relations Club

Taylor Hall. B

THREE years ago when the maple syrup was flowing freely in the Green Mountains, Vermont sent to Lehigh the chairman of its publicity committee to advertise the metropolis of New England—Rutland with its 20,000 inhabitants.

Bunsie arrived with great hopes of entering upon a business career. After one year in Christmas—Saucon Hall, he decided to transfer to the more refined atmosphere of Coppee Hall. One history course after another finally led to the peer of them all—History Seminar. He was, however, repaid for these efforts by being elected to the International Relations Club, the honorary History and Government society.

Bunsie expects to become a teacher. We know, however, that he is intending to become another "Knut Rockne." We expect to hear much of Bunsie's teams.

Engineering Physics

Beckleheim

Sophomore Honors, Wilbur Prize in Mathematics, Sigma Xi, Pi Mu Epsilon, Secretary (4); Lehigh Physics Society, President (4), Treasurer (3), Sophomore Representative.

HERE indeed, we have a unique fellow! When it comes to mathematics, he's a wizard—so apparently he knows his figures,—and yet he's a woman hater of the first water!—perhaps this may be the reason—who knows! It is hard to realize that with his noble Gaelic features, no member of the charming sex has been able to ensnare him,—yet this is apparently the case.

"Calc" has a sense of humor that is typical of his ancestry. He is even able to make a joke out of mathematics while most of us are hardly able to cope with this necessary evil!

In addition to his prowess in mathematics, he is equally well versed in many other fields, and wherever he turns, he is certain to conquer. He lives up to an old saying, "You can't keep the Irish down!"—anyway, we all think he's a great fellow, and it will be with regret that we see him leaving us in search of new worlds to conquer.

HARRY CHARLES KELLY

WILKES BARRE, PA.

Football Squad (2, 3), Lacrosse (2, 3, 4); Band (1, 2); A. I. E. E.

SOME three years before the reign of Freddy Trafford and his student chasers, there slipped quietly into this bedlam of beer and wild women the cause of this biography. He would give the impression of one of those quiet, romantic he-men given to deep and profound thought. Don't allow yourself to be deceived. In weaker moments, he will admit a far greater interest in feminine charm than in the less alluring electrons of "Dutchy" Seyfert. Although the seductive powers of nicotine and alcohol have no effect on our hero, one glance from one of those gentlemanly preferred blonds shatters all resolve to study.

Aside from such idiosyncrasies, we find our Galahad (the Erskine) type a pretty likable fellow. If ever he should decide in favor of work (considered doubtful by all concerned), there is no doubt but that his share of success will be right there awaiting him. For the present, however, this believer of hedonism has decided to leave work to the industrious and apple selling to the unemployed.

ANSLEY LEWIS KIME

BELLEVILLE, N. J.

"Ant."

JOHN ELMER KNECHT
WEST COLLINGSWOOD, N. J.

"Jack"

Interfraternity Council (3, 4), Arcadia (4); C. E. Society (2, 3, 4).

JOHN E. KNECHT, or "Elmer" as he is called by intimate associates, hails from the little town of West Collingswood, New Jersey. Although born in humble environment and without hue and cry, this great man or mere child (as he was at the time) was destined for a hard fought success. Can anyone deny that a degree in engineering at Lehigh is a hard fought success?

During the second lap of the great race with the Dean, it appeared that the law of averages was proving itself on Jack. Undaunted, our hero dropped a golden apple; and the Dean was never again bothered with our friend's scholastic standing.

Since responsibility is a good barometer of popularity, it can be seen that Jack, who is president of Theta Kappa Phi, is among good friends during his home life in Berthleheim.

ROBERT KRONE
HACKENSACK, N. J.

"Bob"

Chemical Engineering

Thera Xi

Assistant Manager Frosh Football, 1; Chemical Society, 2, 4; Scabbard and Blade, 4

UPON arriving at Lehigh University from Hackensack, N. J., "Bob" immediately set about making himself acquainted with the customs and fellow students of Lehigh. It would indeed be strange to see this Mr. Krone once more in the regalia of a freshman and addressed "Chubby Little Devil" by all the upperclassmen. Bob, has been without a doubt a distinct asset to Lehigh, sharing its troubles and benefits alike, but still appearing on the top of the pile with his characteristic smile. This young man has been a hard worker studying into the early hours of the morning. However, he has found time during his study to devote an hour or so on occasional social functions of one kind or another. In fact, we have seen Bob at a University or House dance with a member of the opposite sex whose beauty was always included in the discussion of that dance. We wish Bob the best of luck and with a little application of his acquired knowledge, the business world will receive into its folds another excellent engineer.

Civil Engineering

Taylor Hall—B

Sophomore Honors, Pi Mu Epsilon, Glee Club (2, 3, 4); Civil Society.

FRIDAY is here! A bright smile bedecks the face of our little "Harry Herbert." Why? He's going to Reading, the famous pretzel town, but not to buy pretzels. Instead, he is going to "watch-up" a certain young thing in a hospital there. Carl is the person who has made it possible for the Reading Railroad to pay dividends for the last four years.

Despite these week-end pilgrimages, Carl has found time to delve into the mysteries of civil engineering, stresses, strains, shears, and bending moments hold no terror for our little Samson who arrived with his Excalibur in the form of a slide rule.

The conquest of a fair heart and design of bridge trusses aren't Carl's only fields of endeavor. Tuesday afternoon, Uncle Sam has an embryo general in our "Harry Herbert," and the glee club will surely miss his melodious (?) warblings.

CARL HARRY HERBERT KROTT
READING, PA.

"Dutch"

"Krotty"

Track (1, 2), Cross Country (1, 2), Assistant Business Manager Brown and White (2, 3), Junior Cheerleader, Lehigh Union Cabinet (3), Sophomore Cabinet, Junior Prom Committee, Interfraternity Council (2), Arcadia (3), Cyanide Club, Vice President, Metallurgical Society.

NATURE gave the object that you see above the minimum of body compatible with maximum stability, durability, and endurance. She has given to him, as to us, brain and character,—but much more.

Why "Shorty" came to Lehigh no one knows; he claims that it was his thirst for the knowledge?—available at this institution. Nevertheless, after Reading became too monotonous for him, he appeared on South Mountain in the fall of 1926, where he searched for Lehigh.

After trying several departments, "the Runt" finally settled in the Metallurgical department where he has progressed rapidly under the tutelage of its noble instructors.

It was cheer leading that made "Squirt" famous. He grew tired of being lost and ignored by the crowd so he became a cheer leader and made the crowd listen and watch as he blew off steam.

Let us hope that he does not grow taller after graduation, for how would we recognize our "Shorty" at class reunions, and football games—(unless he carries a cane).

REED GEHRET LAIRD

FROM the mountains of coal came Morty Lamb with two fast feet, a mining engineering bent, and a gleam in his eye that should have been a warning sign to the females of the Steel Valley. His feet, in spite of an unassuming manner, carried him into athletic prominence, his mining engineering inclination endured the rigors of an engineering curriculum, and the light that gleamed in his eyes decreased not in brilliance.

Dame Rumor has it, or better Mort would have Dame Rumor have it, that his parlor technique is impartially distributed. It may be. But we fear that the affairs are successive rather than contemporary, and that the present girl is the only girl. Perhaps this is only an extra curriculum manifestation of a certain thoroughness, a "one thing at a time" theory, that prevades all Mort's endeavors, on the books, on the track, or on the divan. At any rate, a quiet ability to work things through has given him a clean scholastic record, and as long as this determination remains a part of Mort, future success is certain.

HENRY LOUIS LANGHAAR

"Fair"

Mechanical Engineering

Taylor Hall—A

Wrestling 1, 2, 3, 4, Mechanical Engineering Society

FOUR years ago the Lehigh campus was graced by the appearance of a bulky individual named Henry. His chief characteristic as a neophyte was his ability to absorb punishment, especially when applied with a paddle.

Besides being a good student he has worked faithfully on the mat, with results sometimes disastrous to his opponents.

Ships have carried him to far places during the summer months and he can relate to you many experiences if you care to listen. However, there are some places where he draws the line.

One person has described him as "the big fellow who speaks slowly." In all, this is a fairly complete description.

Business

Alpha Chi Rho

WILKES BARRE may be a coal mining town, but one must possess quite an imagination to associate Jack with a coal mine. After all, one does not ally Terpsichore and arts with coal mining. Jack, in his first year, danced his way into the Mustard and Cheese show with the black bottom. His interest in this organization was finally rewarded by his election to the presidency. Not only did he act, but he sang with fervor in the Glee club; it is even said that he could yodel if he had the courage to try.

With Jack's departure goes A. N. P.'s interior decorator. It was due to his efforts that the house dances always had that romantic atmosphere of a weird pirates den or a spring-like garden,—with very dim lights.

John Roscoe hopes to go with Du Pont when he leaves school. We feel sure that when he meets Mr. Du Pont he will know just what to say, and when to say it.

FROM beautiful Brooklyn-on-the-Atlantic came Clarence (Perc) Lehr. Fresh he was with the bloom of innocent youth. Determined his jaw and firm his step. Ambition was his and he strove mightily in athletic competition and scholastic work—then alas—he fell in love.

No longer did the fires and gaiety of youth flash from his eyes—no indeed. Now he is the cold grey ashes of the spent fire. Visions of a beautiful love were ever before his eyes—and though to him it was a wondrous sight—to us who knew him it was but a dull film which impaired his vision.

He still fights his great battle against the world but he can never get this vision off his mind. Sad to relate, his giant intellect is slowly but surely decaying. Nevermore will he bloom.

TO delve into the intimate life of this young gentleman would be well-nigh impossible; for an individual of his position must give himself completely to his public.

From the first days of his matriculation at Lehigh Jules proceeded to refute the statement that "the high school athlete never makes good." Not content to be field general on the frosh football team, Jules continued throughout the rest of his athletic career to establish himself as a dependable scorer on the varsity lacrosse team.

His is a sensitive soul. Jules had hoped that some day he might become a great violinist. But the tell-tale signs of falling hair deterred him from this noble purpose. Now he is a mere shadow of his former self, easy prey to the wiles of any Herpicide salesman.

Jules' unbelievable faith in human nature has won him the undisputed title of the "blind date king."

THIS determined looking individual's chief bid for fame is that in his four years, he set what is believed to be an all time Lehigh sleeping record. "Loos" and his syncopated snore are synonymous to his classmates. While Edison has proved to the world a man may work twenty hours a day. Friend Tommy has proved that twenty hours of sleep a day are not only possible but apparently necessary for men of his intellect.

During his brief trips from slumberland, Loos gained considerable fame as a wrestler. Though he threw dice considerably better than opponents, Tommy scored severable notable Lehigh victories.

Unfortunately, during his last year, our hero began to cavort between classes with his low-brow cronies, the Phi Sigs. This had a decidedly bearish effect on Lewis Popularity Preferred, but with his line we expect him to do well in a bull market.

Price Hall

Band 1, 2, 3, 4; Musical Clubs 1, 2, 3, 4; Mustard and Cheese 4;

OUT of the coal regions, in the fall of 1927, came a simple but dignified looking freshman to old South Mountain. "Papa" Shields immediately took advantage of the new recruit and placed him among the musicians of the Lehigh band. Little did Bill's classmates know that not long after he had graduated, he would make his triumphal return to Lehigh as "Rudy Vallee" did at Yale.

Once in awhile, the inmates of Price Hall would catch Bill with a book open. Bill's hobby was to go to those Saturday night dances at Mealey's dance hall in Allentown.

The football team always took Bill with them, so that he might put action into them with that long horn of his. He has the marks of remembrance of one certain trip to U. of P. that he will never forget.

Bill's motto is "never worry" and we hope that in years to come he will still be carrying that same slogan.

TREMONT, PA.

"Bill"

Fraternity Editor, Epitome '37, Senior Class Book Committee (4), Editorial Council, Brown and White (4), News Editor '37, Staff (1, 2), Competition, Assistant Manager Varsity Swimming (2), Pi Delta Epsilon.

It was with some misgiving that the original of the picture, staring at you from above, let himself be placed in this book. A believer in axioms, he "got the most of his four years in college" by trying to stretch them into five.

Jim's ambition for the last four years has been to find the perfect pun! Believing that there is no pun like an old pun, one can easily understand why his fraternity brothers developed that bored and haggard look so common to "feeders" in a vaudeville act.

It seems he found pens more easy to wield than puns for he spent four years putting the Brown and White where it is today (to say nothing of this book!). Thus, all we can say is that if he will stick to "penning" and refrain from punning, he'll "get along."

SOME four years ago when the usual horde was released from Peddie, a young ⁽²⁾ man dashed to Lehigh bearing questionable credentials and demanded admission. After a series of exams in certain numerical masses, he found himself just another frosh.

The four years have changed our youth, for he is now well aware of the material world. When the phone rings a loud voice shouts, "Macartney,"—just one of his many "misses" who will miss him when he has gone. To this, we who know him might well add, "He also has mused many musses." At least he has been a broad education.

Now, he is once more among the horde cast upon a cold world. Yet, knowing his ability and his many friends we look for his success, not necessarily glowing, but surely consistent toward its goal.

Mechanical Engineering

Alpha Chi Rho

Football 1, 2, 4; Track Team 1, 3, 4; Band 1, 2, 3; Drum-Major 3; Symphony Orchestra 1, 2, 3; Combined Musical Clubs 2, 3, 4; Mechanical Engineering Society.

OUR big, blond friend from Roversford is certain proof of Professor Carothers' famous Economic Interpretation of History theory. Fran, when he entered the University, was a very quiet and unassuming young man, inexperienced, but willing to learn. The feminine population did not bother nor interest him.

At the end of the first semester, the famous theory had performed its alleged miracle. Cedar Crest, Beaver College, Elmira, and other institutions of similar character were sponsoring mail to Fran. It seemed that he was always packing his grip.

In athletics, also, Fran became very active. His big bulk could be seen hurling the discus and putting the shot during the track seasons. And to round out the description of a versatile chap, he helped also to entertain spectators and audiences as a member of the band and the orchestra.

Just forget to play your horn, Fran, and you'll have no worries.

T W. MATCHETT! There he is. Just look at him. Look at him! (His picture, I mean). Spare, fairly tall you can't tell that by the picture, have to take my word for it, his pleasant nature, showing in his smiling eyes set in a face which is pleasant though not handsome. You can see that from the picture, all right. There he stands, he's really sitting, but you can't see the chair, what a picture of a man! McCaa took it. Not bad at that, is it?

So Web came to Lehigh, enjoyed an active life there, as much as one can while studying mechanical engineering, and graduated thirteen hundred and fifty-nine (1359) days after entering.

And now, let one who met Web at Lehigh voice this serious tribute, "To meet Web is to like him; to know him is to feel happier because of his friendship."

Electrical Engineering

Alpha Kappa Pi

Member of Institute of Electrical Engineers.

It was in the year of our Lord 1928 that students of Lehigh first noted the presence of George Mathisen upon our campus. Previous to this time he had been born and raised in the usual manner of Germantown, Pa., and had undertaken ecclesiastical training at Gettysburg. Tiring of preparation for the clergy, he shifted his curriculum slightly and entered Lehigh as an electrical engineer. Since that time he has broken all records for blowing fuses and wrecking two phase motors. While not engaged in this pastime he goes in for chair breaking on a large scale and will probably receive a unanimous vote as class clown. During a period of months before and after house parties he is in a state of hopeless lethargy and in the remaining daze of the year thinks of holidays and vacations.

PRESUMABLY, the significance of a famous adage never becomes too trite to be re-used. For that reason, we can attribute the guilt of the succeeding thought to Sir Francis Bacon. Thinking along parallel lines, we may say, some fellows are students, some are athletes, and others merely go to school. If we were to classify, we would place "Hy" in the first category. He does not only eat books, but he certainly can digest them. Because of this digestive malady, he has amassed scholastic honors for all his four years of collegiate work.

However, let us use the words of Caesar to convey the true significance of our thought—"Abdominis rectus bacillus subtilis ectus vectus zvmole trochey". If translated into idiomatic English this quotation would read, "He is college bred, but by no means a four year loaf."

In parting, we wish "Hy" every success in his future medical career.

From Corona on the Island

Came McElroy the "comet,"
He thought he'd try to help Lehigh
So donned a freshman bonnet.

But Mac was quite a witty lad
And got himself a slide rule
With which he figured stress and strain
In the Civil Engineering School.

Now this McClusk—I've heard the crack
Has trouble with his feet
He stepped upon our cinder track
"Placed," "showed" or "won" in every meet.

He's got a girl who sure is keen
I think her name is Ruth
He gets his babe and never fails
That's why they call him "sleuth."

So Al gets out this June you know
With no grades less than "C."
He'll make his mark in structural steel
And I'm not fooling thee.

Chemical Engineering

Taylor Hall D.

Arcadia, Lehigh Union, Sophomore Honor, Tau Beta Pi, Associate Sigma Xi, Musical Club 1, 2, 3, 4, Mustard and Cheese 1, 2, 3, 4, Band 1, 2, 3, Chemical Society

WHEN "Moo" first made his appearance into the activities on South Mountain he was the quietest, most unassuming fellow on the campus. Fresh from a year at Ohio Wesleyan, Lehigh was a big rough and tumble place to Bill. He felt ill at ease and a bit engulfed by the atmosphere of the hard boiled engineers.

To this alone can be attributed the silence of our honored McGarrity during his first year. His second started with a bang. He hit his stride and from then on his pace rapidly increased. Student activities—off the campus as well as on—received considerable impetus from the enthusiastic Bill. In class room and Section D he was a very definite entity. The faculty recognized the former, and "Cough!" impressed his house-mates with the latter.

With the same acceleration Bill carried on to his senior year. When we leave him he is still taking honors, and we hope that his successes will always follow the rising curve they have previously described.

"Jody"

WHEN Taylor Field had a board fence the young fella' above was usually gate crashing, to see Lehigh, under Tom Keady, maul Lafayette.

So when "Austy" took over the coaching reins he found among the squad the same face. Not an unfamiliar one to Tate and Lehigh since "Jody" is one of Bethlehem's sons. Four years of the Tate system at Bethlehem High without a letter was Jody's gridiron experience. With a natural love for the game and "Austy" he refused to quit trying. So in 1929 when Austy wanted a man that knew what it was to see a Lehigh team beat Lafayette we saw Jody in there—still trying. Victory was not to be denied us that day and 13-12 did nothing to change our Jody. This year he was elected captain and another outstanding victory was claimed over Princeton 13-9 after 33 years of trying.

Now he's trying to out-smart his friendly neighbor Curtis and graduate to coach and teach, so when we read of Jody's club in future years we know they will "TRY".

JOHN GEORGE MEHARG
HAMBURG, Pa.

"George"

HAILING from the sticks of Pennsylvania, George became lost in the mad whirl of paddles, leap frog, and errands. In our memories of these happy days, we see him best with a skinned nose from penny races. But what should he care? The winner always got the pennies, and he always won.

It's a long jump, though, from a frightened frosh to somebody on the campus. But jumping was always George's best sport, and to-day we know him as the athlete, scholar, philosopher, psychologist, and almost the doctor.

From the very beginning, "Smoothy" has been industriously ambitious—knocking off Freshman and Sophomore Honors like nobody's business. George had no peer at argumentation. Surrounded by a group of engineers, he can argue them into anything.

We take no greater pride than to say we knew him as a darn good sport and a prince of fellows; and we envy the world of friends which we know he will make elsewhere.

EXACTLY four years ago, Lehigh's campus was first graced with an immense shining belt buckle from A. H. S. With it came a no less immense and shining intellect fronted by a stern visage seemingly carved from marble, though special occasions illuminate it with a bright smile. The modest owner of all this is our own Johnny Mertz, the pride of Allentown and the secret desire of Cedar Crest, Bishopthorpe, Moravian, and points west.

Anything John undertakes receives his whole-hearted attention. He tried hard to be a wrestler while at school, but came in contact with too many big, burly bone-crackers to make it conducive to his good health.

Aside from his choice of belt buckles, we can't help but give him a little credit. His record here is far from disappointing, and his good Irish name appears in many of the best campus society rosters. God bless Allentown!

MOST people have to accustom themselves to our Lehigh and Bethlehem. Not so our Jake. Born, bred, and beered in these parts, he was among the first to raise the famous cry: "Thar's bars in them thar hills!"

Yukon Jake we all call him—the pride of the Klondike. And not an unearned sobriquet at that. He was the man of the shoutin' knickers. When modest and unassuming pants were handed out, Malcolm T. was at the top of the Black List.

But for all of that the lad made out. Was graduated from Lehigh in four fleeting years—surely an epitaph in itself. And in addition, he prevailed in spite of the palpitating attacks of a persistent amour. He prevailed in spite of the alarming fact that he and Jack Pettrikin are—like that. It might be worse, old boy!

MALCOLM THOMAS METZGER

BETHLEHEM, PA.

"Jake"

WHEN "Buck" shook the dust of Red Lion (U.S.A.) from his feet and came to Bethlehem, he came with the burning desire to learn chemical engineering. As the years rolled by, the ardor for work diminished but his star shone more brightly in bull-sessions with his friends. Arts men were no different than engineers to him in this indoor sport, and many tried and true B.A. had to eat Buck's dirt in these sessions on subjects ranging from girls to price of egg plants in Utopia.

Sleep and the idiosyncrasies of women take up the remainder of Buck's time. Under the latter "time waster" comes the study of Fantasies in which Buck spends much of his time.

Many in Bethlehem and at Lehigh will miss Buck when he leaves in June. Male or female, his friends have noted him a good sport and a fair student.

EDWIN TRUMAN MEYERS

RED LION, PA.

"Buck"

LEON SYLVESTER MILLELOT

LYNDHURST, N. J.

"Lee"

Chemical Engineering

Bethlehem

Sophomore Honors; Pi Mu Epsilon, Secretary, Lehigh Student Chemical Society.

"LEE" came to Lehigh because he believed everything that was printed in the university catalogue. Whether he liked the place as well as the catalogue stated is not known, nevertheless it did not take him long to get accustomed to the Lehigh system. Before long he was knocking over quizzes and courses right and left and emerged at the half way mark with Sophomore Honors. That was only the first half. In his Junior year he concentrated his intellect on Math. and made Pi Mu Epsilon. In fact he liked Math. so well he substituted Advanced Calculus for a three hour elective.

Believe it or not, he doesn't know what a valentine looks like, he has lived in the same place for four years, smokes a pipe, thinks the prohibition law is an example of poor legislation and thinks that German is tough.

When he reaches the end-point of his college career we wish him a pail of hydrogen ions and lots of luck in years to come.

HARRY MILLER
BETHLEHEM, PA.
"Harry"

Arts and Science

Bethlehem

Freshman Honors, Sophomore Honors, Eta Sigma Phi Treasurer (3), Delegate National Convention, Robert W. Blake, Robert W. Hall Pre-Medical Society

STAND by you land lubbers while I cast you a line on a sailor tried and true. Harry believes that if a thing is worth doing at all it is worth doing well. With this in mind he has built at Lehigh an enviable scholastic record. Those who know him best, realize that his success at Lehigh is due to an excellent mind coupled with ability to plug and never to give up.

Harry came to Lehigh overflowing with ambition and filled with high ideals of becoming an esculapian follower. Women hold little interest for him. While scrutinizing the fairest he ironically recites an epicurian maxim - "Pleasure is never had per se. But the cause of some pleasures involve reactions that are by no means pleasurable."

Electrical Engineering

Kappa Sigma

Lehigh Burr Business Staff (2), Electrical Society.

HAVING chosen Lehigh as his battle field, Jim Miller embarked from Har-Brack High School to start his college education. Now after four years he has come through not only unscratched, but with the sign of victory, his diploma.

The fact that he came from Tarentum did not worry him, but only made him strive so much harder to overcome that terrible handicap.

When he didn't like something he was not afraid to say so, making sure to assert himself in no uncertain terms. These moods were very much out of keeping with his general nature, and he soon gained the title of "Big Bad Jim."

With all of his extra curricular activities and outstanding work in the classroom he has become a well known figure about the campus, and will always be remembered as a hard worker. We are all sorry he was to leave and be wasted on the Allegheny Valley.

JAMES FRANCIS MILLER

Football (2), Varsity Football (3, 4), Wrestling (2, 3, 4), Lacrosse (2, 3), Varsity Lacrosse (4), Scabbard and Blade, Student Branch of A. S. C. E.

ON May 19, 1909, the day when Bob was ushered into this world of hard knocks, who could have foretold that he was to graduate as a Civil from Lehigh, be an athlete of some sort, and be an embryo general, all in one. Added to these admirable features is the fact that he has made a host of friends through his ever-ready smile, and his quick Scotch wit. As to his being Scotch: ask anyone who knows him—(and if you know him real well, ask him to tell you about the time he paid \$3.50 for someone else's fun). But Bob has two faults although it is doubtful whether to consider them as faults. They are: a liking of the fair sex, and studying too much. But all in all, we back Bob to rise to the top of his field.

Price Hall

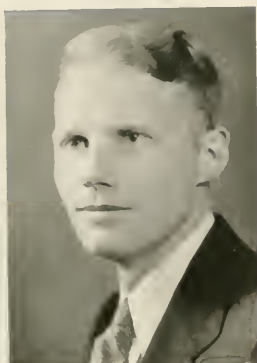

Pi Tau Sigma (3, 4), Vice President (4), Secretary, Mechanical Engineering Society.

"WE come to praise Will, not to bury him," shout the inmates of South Side Brewery. Just evidence of the friendships he has made during his incarceration on old South Mountain.

In September, 1927, as old No. 99 snuffed into the Lehigh Valley Station, passengers were astonished at the remark "Shucks, I thought Bethlehem was a college town." He was soon to be seen wandering aimlessly about the campus with other tormented freshman, hoping that no one would ask him for a match. He did not smoke!

We know him unsurpassed as a gentleman and scholar. Research would be necessary to complete the statement, for his affaires d'amour are jealously guarded.

One of the few men who come to college with the ideal that college work is first, Will submerged himself under the flood of M.E. courses. Personable and sincere, he should some day find pride in achieving his aim—and such is our prophecy.

ALLEN ESEKIL MYRA

"Red"

Chemical Engineering

Newtonian Society, Chemical Society

Taylor Hall-A

RED'S career has been somewhat of a problem to him. Being a "Bluenose" he was naturally inclined toward seafaring. However one season on the water rather dampened his enthusiasm and the following year we find him enrolled as an Arts man at Waterloo, Ontario; but, this too lost its appeal after a year.

Well, call it fate, indiscretion, or what have you; he is now a full fledged chemical engineer.

It is hard to determine just what a man's training means to him. However, there are two things which it has deeply stamped on Red's mind; namely, that organic chemistry is an abominable subject, and that chemical engineering is the hardest course in the school. Most chemical engineers will agree with him on the second point.

However laying all joking aside, Red is a pretty good fellow and we surely wish him God speed, whatever that means.

THIS is Nassau! Charlie in his youth, went to Penn Charter, learned to ride a horse, and decided he would be a big cotton and wool man. Accordingly, C. Francis attended (and graduated from) the Philadelphia Textile School, only to discover that he had a yen for surgery. Hence we find him enrolled as a Pre-Med at Lehigh. And now, having completed the course, he is not at all sure that he wants to be a doctor. Where the curly-headed blond will go next we cannot say, but we can guess it will be back to Minnesota, where one summer in school was not enough. That sad, intensely serious face that he often wears is due to his deep concern in the affairs that matter. Who cares? Nassau cares. But he can forget and unbend, he will smile and be freely foolish. "Ask a girl who knows him." And so, as Charlie leaves, we place among those immortal sayings one more, "Come on, Fellows, Let's Have a Short One."

Bethlehem

CARL NEMETZ found the going rather rough in his first year. Especially, since coming from a clear atmosphere, he had to become acclimated to Bethlehem's "smoky" atmosphere and hilly topography. Along with the dominating purpose of obtaining an education, Carl managed to play on the Frosh Basketball and Baseball teams.

His Sophomore year found him doing for the Frosh what the Sophomores had done for him the previous year, and like other upperclassmen he assumed the well-known "experienced air" about Lehigh. During this year, he came to realize why Lehigh was rated so high scholastically, and had to assume the "bookworm" attitude of studying. He also played Varsity baseball and basketball during this year.

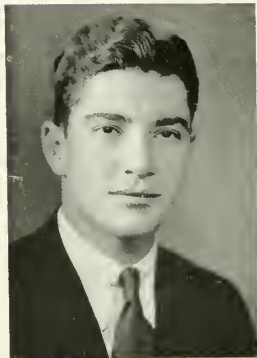

In his last two years, he found little change in the run of things except that studies continued to get harder instead of easier.

"Sam"

Debating (1, 2, 3, 4), Captain (3); Sophomore Honors; Delta Omicron Theta (3, 4), President (4), International Relations Club (3, 4).

HERE'S the big noise from Philadelphia, a man who finds the world full of gloom which he is trying to dispel. We prophecy some big things for Sam, in addition to those he has already obtained. He threatens to be a Bible pounder with a congregation of eighty thousand, a stirring voice, twenty children and a dough belly. So far he has managed to keep himself woman-proof, but someone is bound to smother him and carry him off. Won't she be surprised!

Since Sam is majoring in History he wears a cap which makes him look like a 1908-motorist. Contrary to appearances, however, he promises to be a trolley-car motorman, since he has developed a great efficiency in this line.

We know Sam will meet with a great many people who will like him and wish him as much luck as we do.

OLIVER JACKSON PEARRE

BALTIMORE, Md.

"Cuffy"

Mechanical Engineering

Lambda Chi Alpha

Lacrosse 2, 3, 4; Wrestling 2, 3; Vice President, Tau Beta Pi, President, Pi Tau Sigma, Pi Mu Epsilon, President, Mechanical Engineering Society

OLIVER JACKSON PEARRE, or just "Cuffy" to many of us, owes that title to one of his freshman year weaknesses. Taking his grappling quite seriously, he used to twist his usually beautiful and cheerful map into a Tubby Miller fighting expression and stalk up behind anyone (10 pounds lighter at least) and before the unfortunate victim knew what it was all about, he found himself in a "split-scissors" or some equally compromising position. Because of this aggressiveness he was dubbed "Cuffy" and that has stuck in spite of everything.

Since his freshman year, his ideas have changed not a little. He studied hard, got himself into Tau Beta and also won a major "L" (Lacrosse). But, dear reader, if you can think for a moment that "Cuffy" has thrown over his first love (that ancient Greek sport) well, you have never seen him in a rumble seat of a Saturday night.

Business

Sigma Alpha Mu

HERB never made Phi Beta. In fact, he didn't even become captain of the football team. I must admit that there is nothing remarkable about that. What is remarkable, however, is the fact that this irresponsible youth has a way all his own of getting the most enjoyment out of any situation wherein he finds himself. Anyone meeting Herb is immediately impressed with his spontaneity of good humor and eager enthusiasm which has marked his stay at Lehigh. Unlike many college men he learned very little about women from living in Bethlehem—Newark kept him too absorbed for that.

Herb reminds us of the great Houdini in his ability to do inexplicable feats—we still wonder how he managed to get out of the Math. department.

Herb leaves Lehigh to face the cold business world; but since college has clad him warmly, we have no fear for his future success.

HERBERT MERWIN PERLMUTTER

NEWARK, N. J.

"Herb"

Baseball Competition '22, Freshman Cabinet, Alpha Kappa Psi (3, 4), Treasurer 4; Interfraternity Council '3, 4, Junior Ball Committee, Secretary, Arcadia.

ONE can almost always find our hero hob-nobbing with "Nails" Carothers and his staff of erudite economists. Our hero is such a smooth individual that he is able to inveigle even those learned men into his nefarious football pools.

Luke is famous on the campus for two reasons: first as a campus politician, and secondly, as a perpetrator of putrid puns.

Luke has been a sailor of some note. There is not a man, woman, or child within miles who hasn't heard of his exploits on the billowy deep. Oh how we hate to hear that, "Now when I worked as a sailor,—"

Luke's favorite pastimes are women and cars (and what wrecks they are, the cars, not the women). When he has made his millions selling phony oil stock, we fully expect him to drive up to reunions in some collegiate atrocity.

BYWOOD HEIGHT, UPPER DARBY, PA.

"Bill"

Feature Editor, Brown and White '43, Mustard and Cheese Cast '32.

"BUFFALO BILL" dropped into town three years ago from the University of Pennsylvania, and he proceeded to inform the dean that he would thenceforth make Lehigh his Alma Mater. Bill came from a ranch near Philadelphia and of course had to sell his bronco when he arrived.

Bill soon achieved local publicity for himself by being the first (and, we hope, the last) to write free verse poetry for the Lehigh Review. He was also a good student, but did not try to make any of the honorary societies because he wanted to devote all his time to studying.

Bill's most prominent trait is unswerving allegiance to an ideal. He showed this clearly once, because after he had sold a photograph of Greta Garbo to a fellow idealist for a dollar and a half, he could not sleep nights, and bought it back from him for two dollars.

RICHARD MAIR POWERS

"Dick"

"Pow"

Built—

Delta Upsilon

Lacrosse 3, 4; Aralia, Chairman Student Activities Committee

DICK came to Lehigh with a cultivated Harvard accent, fresh from Boston, but in such uncultured surroundings it had little chance to last. Now he has reached the millenium,—can talk like a Cabor in Boston, and like a Dutchman in Bethlehem.

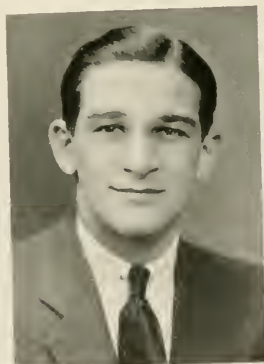

"Pow" started out as an engineer, but saw his error in time and joined the bankers in Hyphen Hall. Since the change, life has been much happier. His perseverance at lacrosse rewarded him with a major letter, and by the way, made him a pretty good lacrosse player. What saddened him most was the unfortunate fact that Lehigh has no facilities for hockey.

During his last year Dick played the piano for the Sunday afternoon college sings,—when anyone came. He often had to do most of the singing himself, but that just made it more enjoyable. We don't know where he is going from here, but it is quite certain that he will be liked there, just as he was liked here.

ALTHOUGH Wally is an excellent bridge player, he has quite a few good qualities. He comes from New York but outgrew it by adopting himself to Bethlehem. Quite a difference, to be sure. This article, says Wally, entitles him to say what he pleases about Lehigh. From a fully candid viewpoint, it is his belief that our school offers one of the best opportunities for education in any field. Few of the many schools he has visited, he states, give the individual attention which we receive here. He hopes we may never exceed our present enrollment, and favors our present policy of small classes and efficient instruction. What Wally hopes to do, we've no idea. The brightest thing we can see for him right now is a floorwalker in those spiffy clothes of his. A morning suit is one thing we don't remember having seen him in.

WALTER TOWNSEND RANSBURG
NEW YORK, N. Y.

"Wally"

ANY attempt to eulogize our "Stew" would be futile, for all the powers attributed to the gifted pen of Milton and the silver tongue of Burke could not do justice to our shy, modest, and blushing hero. Years ago he emerged from the environs of Allentown and before the fog had lifted was enrolled as an engineer, but with the advancing years and deepened maturity came the realization of his youthful folly and it wasn't long before our Business Department welcomed into its ranks he who was destined to be one of its shining lights.

It is only fair to mention that Stewart is one of the few who have successfully withstood the onslaught of his worldly colleagues. All attempts of their rabelaisian subtlety fell unheeded with angelic naiveness at his feet.

In all earnestness, we are sure that with his quick and ready smile, quiet and unassuming manner and sincere conscientiousness, "Stew," has built in himself a sturdy craft to weather his future, and as he leaves us we are only glad to be able to say—Good luck and Bon Voyage.

STEWART ELWOOD RITTER, JR.

"Hal"

"Bobbie"

Mining Engineering

Bethlehem

Mining and Geological Society.

COULD you imagine any fellow's face looking like a dark gloomy rainy afternoon? Well, sometime take a look at our friend "Hal" when he hasn't got a "Camel", and you won't have to do any more imagining. But after he has acquired the trusty "nail," he assumes a slow, easy moving, in fact, a lazy position. If he has a problem to do, he takes a drag on the "Camel", thinks a while, blows the smoke out, manipulates the slide rule and then puts down the "correct" answer.

After completing his early schooling among his native haunts, our classmate did not buy a ticket to Bethlehem immediately, but spent part of a year at St. Lawrence University. Then, looking for bigger fields to conquer he came to Lehigh to become an engineer.

During his time Hal has always tried to safeguard one secret which (never-the-less) is bound to prevent him from voting for some time.

RICHARD ROGERS ROBINSON
TRENTON, N. J.

"Dick"

"Suede"

DICK started life handicapped by blond curly hair and a face to match. It was a titanic struggle, but he finally escaped the clutches of countless admiring members of the fairer sex long enough to catch a train out of Trenton. That it took him to Lafayette was a terrible mistake, but, any port in a storm, says Dick. It took just one year for Dick to discover what we all know: that Lehigh is the place for men. Starting out as a Mechanical Engineer, he pursued his studies most diligently (?). After a compulsory secession from studying, which was spent laying pipe for that haven of mechanical engineers, the Public Service of New Jersey, Dick agreed with the Dean that he was not an engineer. So the teaching profession gained another Adonis. We wish Dick the best of luck in his attempts to teach his younguns the three R's.

Electrical Engineering

Student Branch A I E E 3, 4

Bethlehem

CHARLIE comes from the quiet and peaceful village of Warwick.

His all-consuming passion is radio. Whenever or wherever radio is being discussed you are sure to find him. Much of his spare time is spent in reading his radio magazines, in fact, Rosey says that, in his case, Electrical Engineering is just a means to an end. The end is radio. Perhaps that accounts for some of those long-suffering groans he has been heard to emit while laboring over transmission notes or seminar reports.

Recently Charlie has been smitten by a new passion which threatens for the time being to take his mind from his hobby. It manifests itself in the form of frequently received letters which have a curiously buoyant effect upon him. Oh well, we all have our weaknesses.

CHARLES ARTHUR ROSENKRANS
WARWICK, N. Y.

"Rosey"

Wrestling Squad (2, 3), Football Squad (3), Swimming Managerial Competition (2); Cheerleading Competition (2), Inter-fraternity Council, Arcadia, Student Member A. I. E. E. (1, 2, 3, 4).

CARBONDALE may sound like the name of a coal miner's haunt but "Rosy" uses a flashlight. As head of his fraternity he swings a mean gavel and its just too bad for the guy who is caught pitching pennies.

While Arlington is another name to call him to dinner with, we suggest that he would be much hungrier if you used just "Rosy." Even though girls are consistently bothering him with phone calls he seems to keep dusting off the photograph which sits before him on his desk. Other photos which he takes pride in are those of locomotives and we believe that his main reason for picking engineering was that he had an ambition to get behind the throttle. Speaking of throttles "Rosy" once got at the wheel of a Stanley Steamer and the next day, in the papers among the names of those confined to the hospital, was his in capital letters.

Giving a slant at his future we predict a seat in the legislature or else the engineer of the largest locomotive in the world.

ARLINGTON LAVERNE ROZELLE

CARBONDALE, PA.

"Rosy"

HARRY WYNDHAM RUGGLES, JR.

KINGSTON, PA.

"Harry"

Assistant Manager Baseball (3), Manager Varsity Baseball (4), Inter-fraternity Council (3, 4), Inter-fraternity Conference Representative (3, 4), Lehigh Union Senior Cabinet (4), Deputations Committee (4), Athletic Board of Control (4), Budget Committee (4), Arcadia (4).

THIS boy Ruggles, is one of the campus "smoothies." His smooth looks, snare line and sport roadster is a combination not to be resisted and he has women from Wilkes-Barre to Philadelphia pursuing him. So far, he has succeeded in maintaining his bachelorhood intact—or practically so; but a persistent rumor has it that a certain popular Philadelphia debutante has him tottering on the brink most unsteadily.

With a system of staying in school with a minimum amount of study worked out to perfection, he has leeway to enjoy Bethlehem society, indulge in many activities, and at the same time run a very prosperous coal business. His popularity is attested to by the fact that in spite of the slate he sold for coal, his fraternity brothers elected him president for this year, in which capacity he has done a thorough job.

COMING from Collegeville was certainly no obstacle to the owner of the bright and shining face which gazes at you from the above picture. Let any green freshman ask who that unshaved and cheery looking person is who wearily plods from lab to lab and anyone will answer "That's Bennie."

Realizing that something else besides athletic prowess needed to get along in this cruel world, Frank became Lehigh's leading politician. Under his guidance there was reared a political machine which swept all before it.

And as for being a smoothy, if he had had more time Ben would have put Casanova to shame. However, by mixing a little studying with pleasure he found that he was bound to graduate. We don't hesitate to predict a brilliant future; not only because we believe it, but also because it is the only way to end a biography.

Mechanical Engineering

Theta Xi

Mechanical Engineering Society.

FIVE feet three inches of Mechanical Engineer, polished hair and still more polished manners—that's Rusty. Our own George Mooar, Alabama's favorite son (and also the favorite of many daughters), is not a whole lot as they measure big outdoor things; but, when it comes to a slide rule or a strength problem, he's all there.

Born and brought up in Birmingham's atmosphere of coal dust and flue gas, Rusty feels at home only when, garbed in greasy dungarees, he attends a highly polished Corliss engine or a clattering Diesel.

Despite the attempts of his fraternity brothers, he just will stay around during house-party; which means there are exactly three disappointed brothers who thought they had girls. It will indeed be a sad day for our M. E. family, and the ladies of the North, when Rusty packs his ties and slide-rule, and hies himself to his native clay.

GEORGE MOOAR RUST
BIRMINGHAM, ALA.

"Rusty"

Mustard and Cheese Cast (1, 2), Club (3).

HANK'S decision to come to Lehigh yields to a simple explanation. According to his one failing, Hank walks with his eyes but a few inches off the ground. And this time the girl was going to Bethlehem. Once established here, he had naught else to do but assert his superiority, intimidate the business department and take everyone for a ride with his scathing, yet sparkling repartee.

Despite all tradition this Scrantonian has beneath his black and anthracite exterior, a heart that beats with sympathetic understanding, and cheerful camaraderie. Those of you who saw Hank realistically portray the female in the Mustard and Cheese shows, may conclude that he is effeminate. (We assure you that it is merely his superior ability as an actor).

Hank leaves Lehigh with regret, yet eager to go out into the world and make his place high in the business world.

"Hank"

"Spence"

HAROLD BENJAMIN SALER

PHILADELPHIA, PA.

"Butch"

Varsity Soccer Squad (2), Scholastic Honors (3), Musical Clubs; Pre-Legal Society, Delta Omicron Theta.

BUTCH came up here full of ideals and expecting to find Utopia. Of course you can't blame him for that, because at the time he didn't know better. So we find that from an expectant Freshman evolved a very materialistic Senior, yet never losing that abundance of energy which was so characteristic of him.

Perhaps you've often noticed him walking around the campus with a worried look on his face—he wasn't worried—that was just his way of expressing earnest endeavor. "Hal" believed that the more worried you looked, the higher would be the grade. He worried incessantly—with such a belief who wouldn't? Strangely enough he did get the grades. But throughout the critical years he showed the stuff that makes men, for he never let school interfere with his good time. In fact, he almost blossomed into a Casanova.

BERNARD EDWIN SAMUELS

BROOKLYN, N. Y.

"Bernie"

WITH a desire to amount to something in the world of business, and with an uncanny delight for things mechanical, Bernie came to Lehigh and entered Arts School. He knew that would mark him as a man of letters and it surely did, sometimes two a day, in a female handwriting.

Bernie came to Lehigh with something of a reputation as a baseballer. However, the desire for knowledge plus a serious case of "golitis" diverted his interests from the diamond.

While at Lehigh, Bernie's affable character and personality have won for him a large group of staunch friends and well-wishers. Behind his bland, serious appearance lies a seething volcano of devilment and good natured kidding. This with the aid of his natural mechanical ability has made him the creator of many a practical joke.

Sad to say, Bernie must soon start real work. No doubt it will agree with him.

PERHAPS the fact that Joe Sanna came to Lehigh from Pen Argyl, where prohibition is unknown and the slate quarries are deepest, is the cause for his cosmopolitan nature. It must be the cause for his acute bump of humor, since no one ever came out of that country without being either completely soured on life, or having a sense of humor that could surmount any obstacle.

Joe has been rather engaged these four years in trying out various and sundry courses offered. Starting as a chemical he switched to engineering physics. Soon, through the lifting mist, came the Dawn; and Joe saw the true light of business administration.

Perhaps you remember the Aviation Club; Joe was the chief pilot, president and general motivating force behind it all. Meteoric was the ascendancy of that organization; unfortunately, purchase of a plane was impossible, so the club passed on.

With all his fine qualities, we know Joe can't miss success.

ALFRED ANTHONY SANNA

"Eddie"

Wire-tling (3, 4), C. E. Society (3, 4).

EDDIE found Lehigh after wandering out of the confines of Philadelphia in the fall of '25. After six months, the lure of the "two gun" land proved too much, with the result that the scene changed to the Grand Canyon where he packed a colt and coaxed a burro until his western adventures began to pall.

Bethlehem claimed him again in '28, and like all good Civils he concentrated on highways and bridges. Sleep, wrestling, and the girl from Philadelphia were his main passions. Concentrated letter writing took up most of his evenings, and studying for exams was an "also ran" in his list of hobbies. To Eddie business men had a snap until he struck Corporation Finance, but Structural Steel Design held no terrors for him. Early morning pastime consisted of tapping on the chapel door at five minutes to eight and demanding admission. Dependability, perseverance, and high ideals will surely assure Eddie a success in whatever he undertakes.

IRVING SCHAFER

Bethlehem

IN order to make a paragraph out of a full-length novel, —he was born (like David Copperfield) at a very early age and grew up normally despite the severe handicaps of auburn hair and red freckles. Then, too, he was unfortunate in being raised in Brooklyn, and therefore cannot be said to have seen the finer things of life until he visited Bethlehem. Up until he was five years old, he was known as a model young man, for he never stayed out nights, did not chew or smoke, could neither play bridge, golf nor the sax and he never swore (although he knew all the words). However, he soon realized that "early to bed and early to rise would never make him one of the popular guys." So, a few months later, upon entering high school, his real self began to develop until he reached a climax at the Princeton—Lehigh game of 1930, where his biographer began to doubt his sanity.

AMID screeching brakes, panting of an exhausted "Lizzie," and clouds of dust, might be seen our friend "Scumburg" emerging triumphantly after another one of his fifty-five minute jaunts from Reading. George points with pride to the fact that after four years he has lowered his time ten minutes with one of Henry's newest.

However, "Scumburg" has mastered other cars than Fords. He claims he can now drive a Cadillac with one hand and still make damn good time. We believe him, too, because he needs the rest of the week to repose in Morpheus' arms after these week end work outs.

Outside of this extended course in Highway Engineering, George has found time to become a staunch disciple of "Dutchy" Uhler and his gang, and also one of the reasons why the Civil Society is so progressive.

In addition, "Scumburg" intends to become one of Uncle Sam's future generals.

GEORGE JOHN SCHAUMBURG

READING, PA.

"Scumburg"

JACOB W. SCHROEDER

McKEESPORT, PA.

"Jake"

"Gut"

Freshman Track Manager (4), Metallurgical Society

JAKE'S graduation may well be described as a triumph of mind over matter. During his brilliant four years at Lehigh, Jake has never subjected himself to any of the dangers of Taylor Gym. No task or situation presented itself but that he would find some way to engineer it through with the least amount of physical effort. The same went for Jake's studies—always crashing through with good grades with a minimum display of hard work. Jake will be remembered by all of us for his carefree, happy-go-lucky attitude, and clever wit. He will also be among those famous ones who can settle down to the responsibilities of a married man's estate and yet continue the pursuit of knowledge and the pleasures that go with it. Jake's self confidence and natural ability leads us to expect much of him in the future.

Bethlehem

Track Squad (1), Captain, Debating (3, 4), First Prize, Junior Speaking Contest, President, International Relations Society (4), President, Pre-Legal Society (3), Secretary (2), Omicron Delta Theta (3, 4), Newtonian Society (1)

"MANNY", being a loyal Bethlehemite, made up his mind to patronize the home industries, and entered Lehigh. We do not know how he feels about it, but we are quite certain that Lehigh has had no occasion to regret the bargain, for throughout his four years, he has done his work wisely and well. The various speaking organizations and law societies, in particular, on the campus, have found in him a willing and interested worker. "Manny" is a golden-tongued orator, if ever there was one. That "line" of his has caused debators as well as females to succumb.

Law is the field Manny has chosen for his talents, and we can readily see why. Any lad with such an interest in law, politics, debating, and history, simply can't be stopped. Perhaps another Wickersham, who knows?

Electrical Engineering

Theta Delta Chi

Football (1, 2), Baseball (1, 2, 4), Wrestling (1, 2, 3, 4), Tau Beta Pi, Vice-President Eta Kappa Nu, St. Paul's Society, President Electrical Society.

IN the year 1927 Paul emigrated from the outpost of Factoryville to civilization. During his freshman year Paul resided at the rectory on Wyandotte Street, and became the dean's favorite. This evidently had a good effect on the lad as he ended his freshman year with grades well above the average. "The books" have been by no means Paul's only interest as he is the wearer of a wrestling "L," and he has been busy in the spring with varsity baseball. Paul suffers from two great maladies. One is the desire of making "Whoopce" with the women and the other is fearing that he flunked a quiz.

The junior year yielded many prizes to Paul as it was during this year that he was elected to Tau Beta Pi, and Eta Kappa Nu, and that he earned his wrestling letter. Paul is an accomplished performer on the mats and has as his highest aim such accomplishments in the parlor.

PAUL WESLEY SEAL
FACTORYVILLE, PA.

"P. W."

Baseball (1), Soccer (1, 2, 3, 4), Burr, Advertising Manager (4), Business Board (2, 3), Secretary Interfraternity Council (4), Cyanide, Scabbard and Blade.

WHAT have we here? Oh yes, that famous egotist and humorist, Bill Seeburger. Bill came to us four years ago, endowed with a sense of humor, a resounding cackle, and the capacity to learn. Having followed his grin and good nature around the campus for several years, we find that he has made admirable progress in everything he has attempted. Soldier, miner, athlete, politician and "lover" are all credited to his achievements. His lust for scholastic success is only displayed in the remaining hours before a quiz or a final exam. Although the margin of safety in the latter has never exceeded itself, we find him gliding along with apparently little difficulty, stumbling only when such demons as calculus and her exponents present formidable opposition.

Although the employment problem hasn't been definitely settled for Bill, we expect to find him about two years hence telling miners out at the Anaconda mines what it's all about.

"Toby"

Business

Sigma Alpha Mu

Editorial Board of Freshman Handbook (1), Manager, Varsity Baseball (4), Arcadia.

FEBRUARY has produced three great men,—Seiden and,—I forget for a moment who the other two are,—oh yes,—Washington and Lincoln were also born in that same month. And it was in February that this Roly Poly, cheery faced lad began his collegiate career at Lehigh. Ever since that time he has brought success to everything he has undertaken.

In his Freshman year he resolved that he would aid in making Jack Pettrikin's athletic accounts show up in the black instead of the usual red. Toby was said to be a terror with the youngsters who infested Taylor Field. His winning smile won these urchins over and he is known to all of them as "Uncle Toby." Lee's hard work won him the managership of the varsity baseball team. We know of no one who did so fine a job.

Toby's aspirations are to become a great hotel operator. If we predict correctly, he is bound for instant success. Lee's pleasing personality and sincerity have won him a host of friends. He is always sure to find a hearty welcome when he comes back to his Alma Mater.

FRANCIS PATRICK SHANNON
BUFFALO, N. Y.

"Paky"

"Walkure"

Mechanical Engineering

Bethlehem

Pi Tau Sigma, Mechanical Engineering Society.

FROM the wilds of the windy North, Frozen Buffalo to be specific, Francis Patrick Luke Shannon quietly stole into our fold. However the meteorological character of his native heath soon attested itself.

The Haranguing Harp has shown himself willing to attack anybody on anything, anytime, from the loftiest professor to the lowliest, yea even instructors, on Einstein, Entropy, Beethoven, or Bolshevism. Linked with this intellectual freebooting is a thorough sartorial independence. It has been claimed that the Fourth Dimension as well as warped space was invented to solve the shape of Walkure's amorphous hat.

Other things upon which the Garrulous Gael is independent are: the laws of harmony, etiquette, tact, and class hours. However, despite these mannerisms and eccentricities, his good nature and vigor have insinuated him into our regard.

Chemical Engineering

Alpha Kappa Pi

Football (1, 2), Rifle Team (2, 3, 4), Chemical Society.

BOB hails from the old "Quaker City". His gaze wandered homeward rather often at first, but at the end of his first year, his eyes were set on Lehigh and beyond (beyond Allentown). Although determined to be an engineer, he constructed a diversified roster, taking "extras" at Cedar Crest—particularly night courses. He also entered the "Eats" business, becoming active as salesman, and during his last two years President, General Manager, and Board of Trustees of this growing corporation. One change occurred during his Senior year. Whether he flunked out at Cedar Crest, whether he or someone else received a diploma, we do not know. However, he seems to have developed a liking of Orange climate as he now pursues his extra or more accurately "ultra" curricular activities in Northeastern New Jersey. Perhaps he is merely visiting his ex-roommate. Let us not judge. Such a diversity of interests should lead to fullest success.

ROBERT TILTON SHEEN
PHILADELPHIA, PA.

"Bob"

Track Squad (1, 2, 3)

PETE is Peck's Bad Boy of the Campus. If anyone can get into more scrapes than Pete, and still survive, we would like to meet the wonder man.

Coming to Lehigh as one of the social lions of Chestnut Hill, he was expected to soon become one of the leaders in Bethlehem's social whirl. For some unknown reason, however, he became interested in music and became a very active member of a local men's chorus. That he has never strayed from the "straight and narrow," Pete attributes to an iron will inherited from his pioneer forefathers.

In his five years (more or less) at Lehigh he has become well known and liked on the campus, and noted for his sterling ability in knocking down hurdles in the 220. But Pete claims the hurdles are at least sportsmen—they get him on the rise.

Wrestling -1, 2, 3, 4; Bur- 2, 3, 4; Civil Engineering Society -2, 3, 4;
Treasurer (3)

LEHIGH achieves again! Gentle reader, meet Mr. George Shoemaker, champion wisecracker of Lehigh University. Life to this young gentlemen is one pun after another. "Burro" found in George a very heavy contributor and his jokes and witty wisecracks have helped a great deal toward the success of this Lehigh publication. "Shoey" has also distinguished himself by winning a national championship in wrestling. We wonder what attracts the ladies to him, but it must be his wrestling ability and his line. George has never quite expressed what his crowning ambition is, but we seriously suspect that it is to build a gas station in the middle of the Sahara Desert. That can be the only possible reason for his taking that cultural course in "The History of Architecture."

Mechanical Engineering

Bethlehem

Baseball '2, Track '4

IT'S a scant sixty miles, as the crow flies, from Lancaster to Bethlehem, but it might as well have been nine hundred and sixty for all Roy Siegrist knew of the town where he intended to pursue his higher education. Innocently he packed golf clubs, tennis rackets, hockey sticks, and other implements of the great outdoors, in the naive belief that one could enjoy a few sports at Lehigh while delving into the mysteries of mechanical engineering. Imagine his consternation when he discovered there were but two forms of recreation in the little town of Bethlehem—beer and women!

Not a whit undaunted by such a state of affairs, this son of Lancaster applied himself with diligence and zest to both of these forms of relaxation. He received a broad education, and even found time in his spare moments to garner a respectable scholastic average.

May his tribe increase!

ROY BUCKWALTER SIEGRIST
LANCASTER, PA.

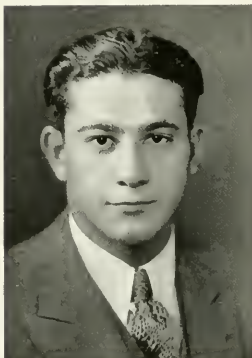

"Seegie"

Freshman and Sophomore Honors, Sigma Xi, Chemical Society.

THERE is no telling what was responsible for the presence of Harold at Lehigh. It was probably a case of too much money in the bank and that merely proves that a good man gets along anywhere. Although he allowed four years to elapse between the time he graduated and the time he entered Lehigh, he managed to carry off Freshman and Sophomore Honors and won membership in Sigma Xi. In addition to his scholastic activities, he managed Dr. Bull's Physical Examination Team for two years. The dispensary has come to lean heavily upon Sincok in the last few years and Dr. Bull will be at least one person who will miss him. Always being mixed up with eats in one manner or another, he had the job of directing the waiters at the Chem. Society in his sophomore year. It seems that his services must have been appreciated for the next year the banquet was served by real waiters.

HAROLD EDWIN SINCOCK
SPARROWS POINT, MD.

ELIAS ALLIE SINDEL
BROOKLYN, N. Y.

"Allie"

"A"

Football (1, 2, 3, 4), Freshman Honors, Sophomore Honors, Eta Sigma Phi, R. W. Hall Pre-Medical Society, Chemical Society.

ALLIE is a perfect combination of the so-called brain and brawn. Lehigh's most scholarly football player, we call him, and why not? Any lad who can capture both freshman and sophomore honors, and at the same time, play three years of sound football, is worthy of more than that. We can easily guess where he got his brains, but where he learned to play football, nobody knows. Football players aren't born in Brooklyn, for a certainty.

Allie claims a wonderful system for himself, whereby he accomplishes a great deal with the minimum amount of effort. Sleeping or feigning sleep in his most arduous pastime; where he gets the time for his daily dozes is a problem all in itself. Sleep, football, and good marks don't seem to stick together, yet Allie succeeds in a mysterious manner. May you be as good a doctor, Allie, as you were a quarterback.

ROBERT CLIFFORD SMITH, JR.

SHAWNEE-ON-DELAWARE, PA.

"Bob"

"Smitty"

Chemical Engineering

Taylor Hall A

Chemical Society (1, 2, 3, 4), Vice President 4

FOUR long years ago R. C., Jr., came to the great city of Bethlehem. His eyes nearly popped out of his head because never before had he seen so many people. You know why and so do the rest of us. Look and see where he hails from. If you ask him where it is he'll tell you it's near Stroudsburg and brag about it too.

There is a gym here on the campus but does Bob know it? You wouldn't think so, for his most strenuous exercise consists in reading such literature as the Saturday Evening Post, Colliers, etc. His greatest drawback is that he is a Chemical. Even though Bob has these faults, he has many assets. He has always been a good student, a good sport, and a fine friend. Now let's turn to the finer things in life. Smitty is well acquainted over at St. Luke's. He's always sick, poor boy! for he is quite a Don Juan with the nurses. When Bob graduates Lehigh will lose one of her best sons.

Tennis Team 3, 4; Freshman Handbook, Debating Team (2, 3, 4), Captain 2; Sophomore Honors, Loomis Public Speaking Award 2; Delta Omicron Theta (2, 3, 4), Secretary-Treasurer 3; Mustard and Cheese Show (2, 3); Pre-Legal Society (2, 3, 4), Vice-President 3; Treasurer 4; International Relations Society (3, 4); Alexander Hamilton Club.

MANY are the decrepit "orphans" that wheeze pitifully over our campus roads, but none are more unique than that wreck of the "Captain's". Nevertheless the "Black Meteor" is no more unique than its owner, a consummate master in his line. And that line is as comprehensive as that car is exclusive. Let the doubters look at the activities list, but let them, too, rest assured that Sid's abilities in the world outside are not overshadowed by the cloistered life of an English major.

Always his "nights in" are punctuated at intervals by phone calls, but "Terry" is a man of firm will power and seldom does he succumb before the second ring. Despite this human failing, Sid succeeds in always maintaining an objective view of things. As an embryo barrister he already shows a rational quality of mind that projected from a glorified "soap-box" will "forever and a day" sway the minds of men.

SYDNEY RAYMOND SNITKIN

NEW YORK, N. Y.

"Sid"

"Terry"

Eta Kappa Nu, Student Branch of A. I. E. E.

FOUR years ago, Ray came to Lehigh with the intentions of learning all about Ohm's law.

At that time, his idea of "making whoopee" consisted of an early movie followed by an invigorating coco-cola. Later, however, all this was changed. Ray began to realize that the fair sex were not so bad after all. His church-going habits became more pronounced as he crossed the path of some "sweet young things" attending the same church, and, at the beginning of his senior year we find him attending all the church functions with suspicious regularity. Ray returns from visits "to see the folks" with a far away look on his face, and in his slumbers we have often heard him mumble the name of a blonde waiting back home.

Despite all these romances, Ray finds time to study regularly, and we feel certain that he will succeed in a big way, both as a loving husband, and as an electrical engineer. Best of luck, Ray!

A MYSTERIOUS hard-haired man was smoking a pipe. The Freshman Psychological examination was over,—he puffed on complacently. So began the enlightening university career of this personable chap, who though never given a nickname became popular.

No one could beat this fellow at buying fresh vegetables, giving rings to women, and dancing futuristically around the parlor. In some subtle manner he has managed to creep into other people's souls. He has been the confidante of thirty-three fellows, trusted and respected by each. He is one of those steady people to whose fatherly grasp mothers trust their children. Newark is the only flaw to be found in his amiable nature. A good man to rely upon in important matters, even his taste in movies has been accepted. His future looms roseate. If everything else fails he will make a marvelous dancing partner.

EDWARD PRESTON SORDON

RIVERTON, N. J.

"Pete"

Electrical Engineering

Alpha Kappa Pi

Managerial Competition, Basketball (2nd), J. P. Stone (2nd), Freshman and Sophomore Honors, Tau Beta Pi, Eta Kappa Nu, Pi Mu Epsilon, Arcadia 4th, A. I. E. E.

WHEN the class of 1931 entered our University, there was in it one quiet chap, whom we came to know as "Pete." Whenever there was any excitement to be found, Pete might not be there when the fun began but he was sure to be there long before it ended.

In his Sophomore year, the frosh had planned to capture him, but Pete fooled them. He slipped out and made a safe getaway to a haunted house where he stayed for two days. Did he have a hectic time? Well, just ask Pete.

Like a true and dignified upperclassman, Pete decided that his last two years should be void of Sophomore tendencies. Maybe an old model "T" Ford doesn't lend a fellow much dignity, but it certainly carries one places. Remember that old oil eater that needed refilling every few miles? Pete does, and so do a lot of his friends.

SYDNEY MARVIN SPECTOR

NEW YORK CITY, N. Y.

"Syd"

"Spec"

WHEN the smoke cleared, Lehigh discovered that a typical New Yorker had graced it's mids. A man sufficient unto himself, without a scholastic care in the world. A person of great potentialities, but who considers it a waste of time and energy to utilize them for work. Self-possessed, carefree, a hail-fellow-well-met, Syd has gained an enviable popularity. Nevertheless, his doctrine has been the omnipresent, "Never allow college to interfere with your education." Spec can usually be found smoking his pipe and reflecting over some piece of verse. True to the Donneian tradition he has cultivated a desire for a broader education and has dedicated a considerable portion of time to social activities. Wending his way through life in his everlastingly lackadaisical fashion, we feel that Syd must succeed by reason of savoir-faire and a confirmed optimism.

Lacrosse Squad (1, 2), Burr, Business Staff (2, 3), Secretary (4), Reviews
Business Staff (3, 4), Student Branch A.S.C.E. (2, 3, 4), Pi Delta Epsilon.

BOB, the last of the Stablers to matriculate at Lehigh, upheld family tradition as a journalist and engineer. After spending a summer surveying concrete curves for a state highway, he came back to school and put his curve analysis to practical use, often doing research work into the wee sma' hours of the morning. His brother graduated without passing on the location of Spiegel's, but Bob managed to locate it for himself before it was too late.

Burr and Review business boards kept him on the hop canvassing Bethlehem merchants for ads, and his attempts at bill collecting should prove invaluable to him when he tries to stall off the installment collector after he settles down in Williamsport (home of the famous "Grit").

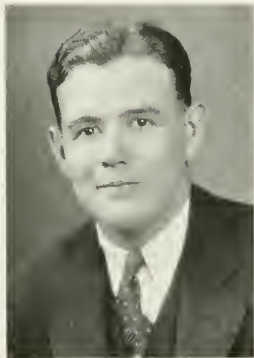

Stabler will probably set up as a consulting engineer after graduation. He certainly worked the phone more than the slip stick with his consulting engineering up here.

ROBERT ALLAN STABLER

WILLIAMSPORT, PA.

"Bob"

FREDERICK STEWART

TUXEDO, N. Y.

"Stew"

Football 1, 2, 3, Baseball 1, Mining and Geological Society.

MOST of us come to this man's college and get pushed through a long process, and after four or five years, come out with a lot of confused ideas about Plato, business cycles, heat engines, and Simon pure athletics, and that's about all. Not so with "Stew"—He went through the long grind taking the breaks like the rest of us but finishing up with a lot of information that he never received in a classroom. Not that he didn't learn anything in class—first it was highways and bridges, then he tried mining, and ended up wondering what Kant's philosophy has to do with getting a job at \$150 per. He tried football and only old man Pro. and a few broken bones kept him from being a good tackle. And a great many other things that we can't talk about have all helped to give "Stew" a cosmopolitan personality. The florists will have to close their shops when Stew graduates.

JOSEPH BROBST STROMAN
BETHLEHEM, PA.

"Joe"

Arts and Science

International Relations Club, Treasurer '41

Bethlehem

BORN and reared in Bethlehem, Joe had the inside dope on Lehigh and picked out the soft spots for himself. The Dean has had considerable difficulty to get him to attend classes outside of Coppee Hall.

Joe's passion is saving time. We don't know what he does with it when he has some saved, unless he devotes it to writing poetry that even the Frown and Bite would not publish. But then the Frown and Bite may be all wrong. A certain Latin Professor once mistook one of Joe's classic (?) verses for one by Catullus—least so 't was said.

Although an Arts man, Joe has been interested in mechanics; to the end that he might reduce the friction between work and pleasure, and has succeeded nicely by developing the rule that friction decreases directly in proportion to the decrease in work.

Metallurgical Engineering

Sigma Phi Epsilon

Football (1, 2, 3, 4); Epitome, Athletic Editor (3), Senior Class Book Committee; Interfraternity Council (3, 4); Sophomore Cabinet, Secretary, Junior Class, Secretary, Union; Alumni Prize in Metallurgy; Cyanide, Scabbard and Blade; Metallurgical Society.

WHEN "Augie" isn't studying, playing football, nursing bruises, or writing letters, he's telling people about Washington—if he can find someone who will listen. "Augie" is just a fair student, managing to scrape through with only a "B" average.

Why Frank settled down in the Metallurgical department when he came to Lehigh no one knows, but it is rumored that he wanted to learn how to determine the dimensions of a piece of metal with a Phase Rule. However, while at R.O.T.C. camp he became very interested in a new problem, and since then has been considered an authority on the characteristics and home life of mules.

Stutz is still a bachelor, but we believe he is seriously considering matrimony with a bonnie blonde. Doubtless Frank believes that the path through life will be brighter and fairer if he is accompanied by the preference of all gentlemen—a blonde.

FRANK AUGUST STUTZ
WASHINGTON, D. C.

"Augie"

Fencing (1, 2); Pre-Medical Society.

TED is one of the few who take life as it is, never worrying about the future nor bothering about what has happened in the past. He is in the same humor from day to day. His smile and ready grin are always waiting to break out for a friend. His interesting, changeable line of chatter (though sometimes bull) seems to fit into any kind of occasion, and wherever he goes, good times follow.

Being a pre-med., Ted's chief interests seem to be in biology and chemistry, but, since this does not take all his time, he has made several female acquaintances who may or may not be sorry to see him leave Bethlehem.

Unlike most of us, Ted's college life is only half through, with the worst of the work yet to come. To spirit him on with his work he has the best wishes of his many friends.

Wrestling 1); Band (1, 2, 3, 4); Metallurgical Society (2, 3, 4).

ONE of the foremost reasons for the publication of the Epitome this year was because every house party date insisted on having a picture of that tall, handsome youth with whom the band marched down the field at football games. Men (?) from Harvard, Oshkosh, and similar institutions have had their girl friends clamoring for a picture of the man who made Lehigh famous, and wanting to know why he couldn't have a pretty uniform like the drum major, or a hat that fitted him. Girls, your prayers are answered. Here is Hugh S. TenEyck.

Mr. TenEyck, as he tells us, started life as a baby. As soon as he was old enough, he set out for Bethlehem because of a false rumor that the beer was better out here. He settled down at Lehigh and soon became known as quite a wit. (There are some who disagree with this, but even these admit that we're half right). He is also known as the man who can borrow, copy, and forget to return more lab reports than any other existing senior. We're sorry girls, but he's engaged.

HARRY LOUIS THOMPSON

WILLIAMSPORT, PA.

"Lou"

Business

Wrestling (1, 2), Baseball (1, 2), Alpha Kappa Psi.

Alpha Tau Omega

A LAUGHING curly-haired boy with outspoken likes and dislikes of four years ago, is still smiling engagingly. His curls are as blonde as ever and he's acquired the habit of keeping more things to himself. What his friends recognize as dependability, his enemies call stubbornness. We think Lou has just the ideal mixture of seriousness, where it's required, and interest in the doings of his fellow-men. He's the perfect keeper of dark secrets from other men's lives; his advice is something to be taken seriously. A shining light in his curriculum, a steady head to face the wicked world, the most loyal friend a man could ask; Lou will no doubt become a successful and progressive man of affairs. Oh yes, we predict a brilliant course on the sea of matrimony where, we hear, he'll soon embark. Lots of luck!

Metallurgical Engineering

Beta Theta Pi

Epitome, Chairman Senior Class Book Committee (4), Organization Editor (3); Manager Freshman Football; Treasurer Inter-fraternity Council; Arcadia, Union, Sword and Crescent, Newtonian Society.

AMONG the crop of this year's graduates bounces a beaming blond Beta, who is seen everywhere, almost everywhere, with his amiable features wreathed in a perpetual grin. Art is crowned with a halo of the benediction of dreary deans and harassed hostesses, but don't hold that against him. He's more than a "nice boy". His activities are boundless and bound-less, depending how you look at them. He manages football teams, aspires to ping-pong honors on Sunday afternoons collects stray cats and dogs, and holds the commuter's record between Philadelphia and Bethlehem,—it all makes for a full life. The Beta house will have to invest in a door-mat marked "Welcome" next year when it no longer has Whitey to lavish hospitality all over the slopes of South Mountain. But whether he's urging grace said at meals, or proclaiming for bigger and better beer, you have to stick to a boy like that.

ARTHUR WILLIAM THORNTON, JR.

McKEESPORT, PA.

"Art"

Tau Beta Pi; Symphony Orchestra '1, 2, 3, 4), Secretary, Mining Society

It was in September, 1927, that a sturdy young back-woodsman from Tenally, N. J. started his career at Lehigh.

With the help of God and a second-hand slide-rule, Harry staggered uneventfully through his first two years, escaping extermination only by the watchful protection of the S.P.C.A. Begging his crusts from door to door, and his lab reports from whomever had them completed, he followed the narrow path of life which has as its only diversions, beer, women, and the Symphony Orchestra.

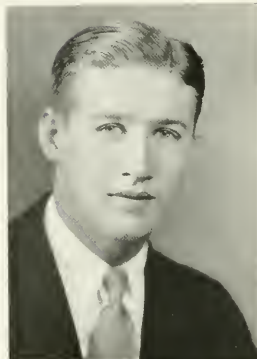

His junior and senior years, however, showed a marked change. Now a fully recognized upper-classman and a fully synthetic Mining Engineer, he embarked on a spirited quest of knowledge, intermingled it with unsuccessful aspirations for cross-country and track, bought himself the secretarial post of the Mining and Geological Society, and sneaked into Tau Beta Pi when no one was looking.

WILLIAM HARRY TICEHURST, JR.

THEODORE J. WALTON TIEDEKEN

CAMDEN, N. J.

"Tiede"

"Tink"

Track (1); Freshman Handbook, Board (2), Arcadia (3), C. E. Society (2, 3, 4), Vice President (3), Secretary (4).

MR. TIEDEKEN, usually called Walton, but now and then heard of as "Tink," entered Lehigh in '27 with the express purpose of making Tau Beta Pi. But the faculty had its wrench ready, and one day, they let it fly into the works—hence, Walt's pungent and vividly expressed opinion of said faculty.

"Tink's," accomplishments are many and varied. For instance, during a miniature war in the dorms, he suddenly discovered his ability to "pass out" at will. It is said in some quarters that he never recovered from this. And his cold blooded temperance in a land of beer and rye is a nine day's wonder. As for his engineering ability, take a look at his desk lighting arrangement. Perhaps you remember the Chevrolet that he and his roommate had. What a mechanical engineer he would have made!

We are sincerely hoping that he realizes his ambition of being a Civil Engineer.

ROBERT LINCOLN TIFFT

BROOKLYN, N. Y.

"Bob"

"Tif-it"

Arts and Sciences

Freshman Wrestling Team; Glee Club, 1

Bethlehem

BEHOLD, fellow engineers a man who has flunked Algebra three times. We remember distinctly coaching this man the last time he took the course. He entered the final with a good average and walked out of the exam in half an hour with a zero. But whatever his failing in mathematics he makes up for in languages. A linguist at Lehigh is something of a novelty.

Bob has some other records. He ran too fast to Chapel in his freshman year and had to use crutches for two weeks. By the way, he's still going.

Bob should have graduated with the class of '30. Unforseen circumstances called upon his ever considerate nature to give up his college career for a while. Next we heard of him, he was roaming the West. We hope that his unselfishness and good will shall be repaid with good fortune.

Metallurgical Engineering

Deutscher Verein, Metallurgical Society

Omega Phi Sigma

FROSH—dinks, paddles, tea parties, banquet fights—all enshrouded in a dense green haze. Ambitions—to become a Metallurgical Engineer, get an "A" average, be a course grabber, etc. Results of ambitions—just another frosh.

Soph—that grand and glorious feelin', brow beating '32, first weekends. Ambitions—to pass calculus, a "C" average, if possible. Results of ambitions—O! Well...

Junior—walked on the grass, learned that Metallurgy was the ONLY course and that Mining was a snap; celebrated before, during, and after the victory over Lafayette. Ambitions—to avoid flunking out, bigger and better weekends. Results—too many weekends.

Senior—What's it all about? Ambitions—to have one swell time, to get a job if he graduated, to see the senior miners go to Africa, permanently. Results—who cares?

Sum total—Four Lafayette games, eight houseparties, ninety-six week-ends, and graduation.

WILLIAM RICHARD TOEPLITZ

IRVINGTON, N. J.

"Bill"

Tennis (3, 4); Inter-fraternity Council (3, 4); Social Committee (4); Freshman and Sophomore Honors; Secretary, Newtonian Society (1, 2); Pi Mu Epsilon (3, 4); Vice-President (3); Associate, Sigma Xi; Glee Club (2, 3); Chemical Society.

WEIRD strains of soulful music are gently wafted to our ears, and despite the pitiful pleadings for mercy, they continued to be heard. Yet this is a common occurrence; for it is Jack at the piano getting in trim for a glee club rehearsal. He has been accompanist for that organization for the last two years.

But Jack's greatest successes, as can be seen by his list of activities, have been found in the scholastic fields of endeavor. It seems as though he has been a member of almost every honorary mathematics society on the campus. And just recently he reached the epitome of his efforts by becoming an associate of Sigma Xi.

Jack took his exercise with the tennis squad, and we hear, from a very reliable source, that he will make the team "hands down" this year.

His seriousness has taken him into another field also. Any man who has the same girl for all his house party dates is, we would say, more than infatuated!

KALIL PAUL TRABULSI

BROOKLYN, N. Y.

"Tab"

"Hamy"

OWAH—Wait! Wait! Wait a minute!—I'll be right with you"—the familiar call to the close acquaintances of "Tabs". Always late, always in a hurry, and never going any place—that's "Tabs."

After J. P. Morgan refused to recognize his financial genius, this genial youth entered Lehigh hoping to continue his inherited ability for banking. Besides being a financial genius, he is an ardent Don Juan, specializing in the art of wooing by epistle and A. T. & T. An ardent proponent and admirer of his curriculum, he often became involved in arguments beyond his scope, all of which he would insist on deciding by exclaiming, "Toss you"—a flip of the coin decides—a procedure his friends have come to fear. Despite occasional amnesia, his omnipresent joviality, generosity, and ever ready sense of humor have made and will always make him a boon companion.

Mechanical Engineering

Mechanical Engineering Society.

Omega Phi Sigma

HENRY TROST, just another mosquito killer (no not lady killer), from that last place on earth—New Jersey.

He entered Lehigh in '26 and enrolled as a Mechanical. Young and innocent, he was led astray and was persuaded to live in the dorms. Amid the confusion and bedlam of that hectic life—aided by a noisy piano in his suite—Hennie's aspirations went "ker-plunk," and to the sad and melancholy tune of our esteemed Dean's oboe on June 1, 1928, he took the 6-30 for Union City.

Returning in February and settling down to a more serious life in a town house, success silently crept into Hennie's life. In spite of all malicious attempts on the part of our beloved faculty and with the help of those library hounds the Omega Phi Sig's, Mr. Trost has toiled the evil ogre and is graduating this June. "Set 'em up fellows. Here's to Henry's success."

"MIKE" came to Lehigh four years ago intending to become a lawyer. After four years of straining (his soup), he still thinks he wants to be a lawyer. And he'll be a good one too, in case he ever gets into law school. If we know "Mike" as we think we do, it'll be corporation law—there's money in it. In college he has but two occupations: the wearing of loud socks and the raising of louder goldfish. In our present business depression his socks are the only reminders of Santa Claus. As for his fish, only an ichthyologist can appreciate them. His habitat is the Public Library, and it's a moot question whether the books or the librarians (who are female) are the reasons. Like our Uncle Dudley he's always arguing; he's never lost an argument, he's never won an argument—but invariably he argues!

MILTON GORDON TUNICK

NEW YORK, N. Y.

"MrT"

Football (1, 2, 3, 4), Basketball (1), Civil Engineering Society.

NED was born and brought up in the coal regions and is proud of it. But, since even that far-famed country is too small to hold a man possessed of Ned's ambition, the fall of 1927 found him engaged with his books at the South Mountain institution. He has directed his endeavors in the field of Civil Engineering with the hope that he may some day be instrumental in putting the coal mines on a paying basis.

Though naturally quiet, Ned has proved himself to be a man of action. His accomplishments in athletics cannot be so much attributed to a brawny physique as to the spirit behind it. In other activities, his word has been of considerable weight.

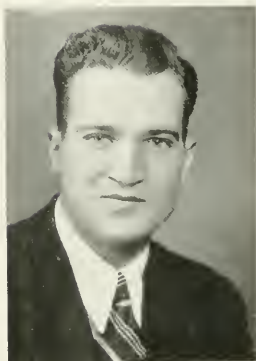

Ned's cheerful disposition and spirited determination have made for him a host of friends at school, and will, we are sure, continue to do so always.

"YOU'RE in on condition"—and thus the above pictured Rhode Island Yankee arrived at Dean Max's college to commence a career which presents sides analogous to that of both Launcelot and Galahad. Like Launcelot, in that he,

"... as became a noble knight,

Was gracious to all ladies, ..."

Like Galahad in that his, "... shattering trumpet shrilleth high."

Although we cannot prove that "Undy" introduced bull throwing as an entirely new sport, we emphatically state that he was a complete novelty in the Lehigh of that day. He went in for A's, took philosophy as serious—instead of soporific,—and in many respects displayed the versatility for which his countrymen are renowned. However, because of his interest in publications, his managership of the Band, his "infinite varieties" in dare finding, and a myriad of other extraversions, "Undy" is quite like the rest of the gang even though he is "a damn Yank."

WESTON WIGHTMAN VALENTINE
KENSINGTON, Md.

"Val"

Electrical Engineering

Taylor Hall—E

Fencing, 1, 2; Sophomore Council; A. I. E. T., 3, 4; Radio Club,
Chess Society; Arcadia

JUST outside of Washington, D. C., is a still larger town of Kensington, Maryland. From this great town came an individual by the name of Weston Wightman Valentine. Not an "ask yourself why" Valentine, but an honest to goodness walking, talking, and swearing type of man-Valentine. This man-Valentine —is not what the dean sends out twice a year, even if he is male. In other words he is little but all there.

One thing that Valentine has is a car. "Cheve" is her name and make. When studies do not call, the car does. Then "Val" becomes well greased from head to foot.

One day the same Val forgot to wash all of his face and left a great big smudge on his upper lip. The result was one rather seedy, well oiled mustache. Therefore picture if you can a small man with a small mustache.

Mechanical Engineering

Beta Theta Pi

WHO wants to depend on snap judgment? That's what this man thought when he started his college career at the University of Minnesota. He soon decided he would rather look around some more before settling down. In his wanderings he ran across Lehigh and here he staved. Perhaps it was the lure of Bethlehem's underworld that got him, because many were the times he could be found wandering about, in and around our city. Likewise, the surrounding towns and countrysides had their attractions.

George was versatile, too. He was at home at Mooch's or Cedar Crest. Engine lab was another one of his hang-outs, and thermo class was just part of a day's work. Story telling was another great weakness. Many's the hour that's been whiled away in letting the boys in on some great adventure or two. And who would want for something to do when a good story teller is around?

GEORGE CROSS VAN DUSEN, JR.
EXCELSIOR, MINN.

"Duse"

"Van"

THE epithet often applied to a freshman is, "young and innocent." Sayre, Pennsylvania, grudgingly withheld one of her sons from these Ivy clad walls until his knowledge of the pitfalls to be avoided were well entrenched in his mind. Van's previous training was sufficient cause for him to be selected as adviser and consoler, to all his classmates. His advice on matters pertaining to the fair sex were frequently sought and listened to with great interest. We can still hear Van say, "boy, don't ever fall for any girl."

However, there came a time when we suspected that Van had not lived as he advised. Daily letters began to pour in from Stamford, N. Y., and Van settled down to pour a conscientious Civil Engineer. Now we notice that even our offers to "bull" are put off by that invariable excuse "I gotta write a letter."

"Dick"

Arts and Science

Bethlehem

REMEMBRANCE of boyhood days spent at Easton took Dick to Lafayette as a freshman. There he was accused of pulling a miracle when he passed all exams without ever having really worked at being a student. Then, bitten by ambition to do bigger things in a bigger way, Dick came to Lehigh as a sophomore. Without changing his "study" spots, Dick did it all over again and here he is with the old parchment almost within his grasp.

Some of us take the aforesaid "ambition" with two or three million grains of salt, since we find that Bethlehem held a much more lovely attraction for Dick than even Lehigh.

A potential athlete at heart, Dick had to be satisfied to participate as an ardent "rooter." Lehigh has started Dick on the road to the Law, and Georgetown will finish the job. We have a hunch that Lehigh has participated in the making of another Blackstone.

COLLEGE is a noble experiment. My scholarly training has been invaluable and should help me onward toward success. My four years have chiefly taught me:

That trousers, if hung by the cuffs from a bureau drawer, will assume an excellent press.

That so-called fraternity politics are practically nonexistent.

That a soiled tuxedo collar may be worn equally well upon the reverse side.

That the senior ball is probably the louisiest committee available, affording little or no profit.

The author is convinced he is the only man in college ever to wear winter underwear for four consecutive years. He cheerfully claims for himself a nasty temper, a positively uncanny skill at ping-pong, and a queer prejudice against attending classes.

Chemical Engineering

Bethlehem

Intramural Boxing (2), Brown and White Reporter (3); President Chemical Society.

IN the fall of 1926 there was great excitement in the city of Bethlehem for word had been received that the mighty Wachholtz from Hasbrouck Heights was going to arrive. In due time he did arrive and immediately set about to tame all the courses Lehigh had to offer and made a fair job of it.

Although Walt was a footballer back in the hometown, he abandoned that sport in favor of other pursuits, one of them being the task of drying up Bethlehem and vicinity. Ask him how he succeeded.

At the end of his sophomore year, "Hoots" got the wander lust and decided to try the German schools. After spending a year in Hanover, he came back to Lehigh to do battle with the Chem department again.

Walt wants to be one of the leading Ch. E's in the United States and Germany and we wish him all the luck in the world, and the breaks in the game to help him arrive at his objective.

WALTER AUGUST WACHHOLTZ
HASBROUCK HEIGHTS, N. J.

"Walt"

Wrestling, Brown and White.

As a representative of the beer and pretzel region around Milwaukee, Bill came to Lehigh in search of several things. To judge from evidence at hand he has been most successful in this undertaking. You can tell at a glance that he is an engineer, if "Mets." may be classed as such, but you might never know—unless he told you—that his greatest delight is to take business courses and get A's out of them.

There is another side to the picture. This goes without saying, for all such men lead dual lives. German club life has always appealed to Bill and since his arrival in Bethlehem he has been able to get a taste of this many times.

Bill has become a firm believer in all signs and in the years to come we are sure that he will heed their warnings.

WILLIAM HERMAN WAGNER
MILWAUKEE, WIS.

JACK DAVID WALLACE
NEW YORK, N. Y.

"Jack"

"Wally"

Arts and Science

Bethlehem

He came, he saw, and he was conquered by the charms of the fair sex, who had long awaited the arrival of some handsome young gentleman to relieve the monotony of their previously dull existence. Jack has never allowed mere work to interfere with his social activities, for when he works, he works for minutes at a time! Boldly and masterfully our bright-eyed boy has put behind him all his childhood aspirations and accepted the task which marks the man—the pursuit of wine, women, and song. Anyone seeing Jack in action with those of the opposite sex, will come to the conclusion that a worthy rival of John Barrymore is in our midst.

We've never been able to tell whether Jack is naturally leisurely or just plain lazy. That bored look tells us he's a man of the world; whether he's nonchalant or tired, we don't know.

JOSEPH RUSSELL WALSH

SOMERVILLE, N. J.

"Joe"

Mining Engineering

Warren Square

Assistant Track Manager (2); Metallurgy Prize (2); Sophomore Honors; Phi Mu Epsilon (2, 3, 4); Mining Society (3, 4)

JOE is the conscientious sort of chap who believes that a little work done today saves a lot from being done tomorrow. It's not that he studies very much, but what he does is done regularly. During the semester he goes his way with a smile, but when the rest of us must sweat over finals, he does little more than yawn complacently.

At first, the home town thought that J. W. was going to make history as a Met. But, after one year at Lehigh, Joe decided that his ability to crawl in and out of holes made him better fitted for a Miner. — Let's hope that he never sinks a shaft so deeply that he regrets his occupation.

This embryo miner of ours hasn't given the local belles much of a break. Almost every Saturday he rides the Central into Somerville. Just what the attraction is down yonder in Jersey has never been made public. Perhaps it's a blonde or a brunette, but then, maybe it's a red head.

Electrical Engineering

Bethlehem

Student Branch of A. I. E. E., Secretary '34

LOUIS came to Lehigh with the Germantown High migration in the fall of 1927 to prepare for electrical engineering. Since that time he has spent much of his time searching the labs for "stray power." Whether, his search was a success or not is doubtful, but we do know that he discovered more than one way to knock out all the circuit-breakers in the building, simultaneously.

Louis is quite afflicted with "Womanitis". For three years he has made occasional week-end visits to Germantown just "to give the women a break". Now, however, after having changed his religion, he is frequently to be found lurking in the shady recesses of a small cross-town apartment.

Louis proposes to aid the utilities in economizing their plants; so that we may someday see the return of nickel trolley fares. At any rate, we expect to see on some Fifth Avenue office door, the words "L. R. Wanner, Consulting Engineer." Hope to see you on Fifth Avenue. Lots of luck, Lou!

LOUIS RAIMOND WANNER

GERMANTOWN, PA.

"Louie"

Tennis (3, 4); A. S. C. E. (1, 2, 3, 4).

FOUR years ago, Bill Warwick enrolled in Lehigh's College of Engineering. Bill came from Upper Darby, but that should not count against him because he brought with him one of the sunniest dispositions to be found on the Campus. Bill may not have looked dignified in the outfit prescribed by the Sophomore Council, but since those early days he has aptly worn the mien of an irresponsible Philadelphia politician. Without the weaknesses for femininity and beer which are traditional to Lehigh men, Bill has, nevertheless, been a real member of our great big family.

Civil Engineering hasn't bothered Bill during his stay at Lehigh, and neither has four year's residence on Birkel Alley. The fact is, nothing bothers him; not even the future, for he is yet undecided whether to keep on loafing after graduation, or to find himself a job.

WILLIAM BOND WARWICK
UPPER DARBY, PA.

"Bill"

PAUL JOHN WEIMAR
FOX CHASE, PHILADELPHIA, PA.

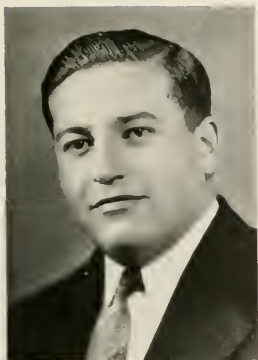

"P.J."

Wrestling '1, 2'; Boxing '4'; Freshman Honors, Tau Beta Pi; Glee Club (2, 3, 4); Industrial Engineering Society.

AND here we have another specimen from that viceless and highly idealized city of "brotherly love." Paul started out in his freshman year to make Tau Beta Pi and to learn the art of "beaker washing". He altered his views on the latter and became an Industrial Engineer, but he worked out his first idea to the finish.

Besides learning everything from books, Paul found out from experience that where there is a will, there is one way. This takes a person someplace. Then he found out that where there are two wills, there are two ways: so that he also has a way back again. This fact having been proven, we find him on the lists of commuters and weekenders.

In future years Paul will be contributing his bit to the existing "bull sessions" about what he has done in the industrial world and there will be few who have as good a story to tell as he.

CLARENCE CARL WEISS

SCRANTON, PA.

"Clarence"

Chemical Engineering
Chemical Society

Bethlehem

THE handsome person pictured above hails from that queen among cities—Scranton. Once upon a time he read in a fairy tale that Chemical Engineering was the most lucrative of professions. At the end of four years he still believes it. However innocent he may be of engineering principles, he has shown an amazing interest in the field of Organic Chemistry: the alcohol series to be exact. His favorite method of imbibing knowledge is thru the medium of Henry's liter bottles.

He has distinguished himself in German and indoor sports, his favorite sports consist of signing his name in Bart's office for Gym. credit, ticket scalping, and making peach brandy.

Here is a man who should go far in life if there are any possible chances of 'hitch-hiking' along the way.

Here's hoping you'll have plenty of luck Carl, you'll need it.

Mining Engineering

Baseball (1), Lacrosse (2, 3, 4), Captain (4); Mining Society.

Delta Upsilon

HERE is Chippie, the versatile athlete. He started with football, exchanged that for baseball, and wound up as the best lacrosse goalie Charlie Lattig could wish for!

Nor so long ago Gus' classmates were positive that he had worms. It appears that Gus had a strong penchant for leaping over tables and chairs, used to have his classwork done a week in advance, and above all, was often seen drinking down a tonic for something or other. How times have changed. Gus no longer hops over the furniture, his work is done a week late, and the tonic bottle has disappeared,—or been replaced.

Well, back to Altoona with the great Werft. Some distant day Chippie will probably blow back to Bethlehem, serious, quiet, and reserved,—and we won't know him.

AUGUST RUDOLPH WERFT

ALTOONA, PA.

PAXINOS, PA.

"Johnny"

Mining Engineering

Theta Xi

Soccer Squad (1, 2), Frosh Handbook Editorial Board (2); Mustard and Cheese (1); St. Paul's Society, Treasurer (3); Mining and Geological Society, Secretary (3), Vice-President (4).

PAGE the laughing-eyed boy who casts his spell in a glance! Meet Johnny Weysser, the hoy Circe, and woe be he who falls under his spell!

John comes from the coal mining country where men are men and the women admit it.

Being a firm believer that "Only saps work", Weysser took mining engineering. Since his entry into that department, the "Honorable Skipper" has been observed to show a marked tendency towards old age.

In his Junior year Johnny contracted a rather serious malady of the heart which requires treatment in Philadelphia each week.

Weysser is a loquacious student, a friend to the poor, a counselor to the wise, a help to the foolish, and the pride it not the joy of his parents. He shows promise of many things—big, little, and medium sized.

Mechanical Engineering

Phi Delta Pi

Track (1, 2, 3, 4); Lehigh Review, Advertising Manager (4); Circulation Manager (3); Business Staff (2, 3); Junior Prom Committee (3); Spiked Shoe Society (3, 4); Secretary, Mechanical Engineering Society (3); Secretary and Treasurer, St. Paul's Society (3).

ROSS WHITEHEAD

PAWTUCKET, R. I.

"Whitey"

AFTER the 1931 Commencement Exercises, Lehigh will again record, as alumni, the names of her sons who are leaving to make a place for themselves in the world. Among these names, one, Ross Whitehead, will bring back to his many friends memories of a young man, not too tall, who spent four years studying a course in Mechanical Engineering. Aside from this work, Ross was active in Track, Journalism, and R.O.T.C.

It is not only on Lehigh's campus that "Whitey" will be missed, for no small number of feminine hearts in and around Bethlehem will beat more slowly when he leaves. The Chevy coupe will disappear, and the world will call on Mr. Whitehead to assume his share of her problems.

Time and space will not permit the writing of an adequate biography of Ross's life here at Lehigh. However, Caesar's three famous words will sum the story for us. "Veni, Vidi, Vinci."

Lehigh University Chemical Society (1, 2, 3, 4), American Chemical Society.

HERE is another product of the old town of Bethlehem. Since Bob has lived in the atmosphere of the Steel City most of his life, he thought that the H_2S of the Chem Lab was fresh air so he stayed there for his health, and believe it or not, he waxed fat and rosy on it.

We know that his quiet unassuming manner is not due to lack of experience. He may fool some of the people some of the time but—why does he go down to Philly so often? And how comes he by the belief that gentlemen prefer blondes?

As a chemical engineer almost anything may be expected of him after graduation. He may set the world on fire—or even blow it up. We fear, however, that if he follows his natural inclination, he will probably blow it up.

JAMES ROBERT WIEGNER

"Don"

"Wilkie"

Business

Phi Delta Theta

Track (1, 2, 3, 4), Competition Football Manager; International Relations Club.

ONCE upon a time, Mr. Wilkinson said to Mrs. Wilkinson, "Let's send Donald to Lehigh—if he ever gets out of high school." So, eventually, Don came to the little town of Bethlehem—how steel we see thee lie!

That was way back in 1927, and now in this year of Grace, Josephine and Anna, he's getting out; being none the worse—at least, not much—for beer, women, and a four year course in Carothersology and history. He was always to be seen in odd corners of the library, dusting off and thumbing through volumes of the past ages; hooking up his presence with the past, as it were.

Now that Don is ready to graduate, he's thinking of becoming a big stock and bond man in Connecticut—if he doesn't displace Professor Gipson in the history department.

THEODORE ALLEN WOLFE

ELMHURST, PA.

"Ted"

Electrical Engineering

Prize Hall

Student Branch A I. E. E., 2, 3, 4, Vice President Student Branch 4

AND in this exhibit we have a device for transforming waste heat into power! After evening peak load, energy at low voltage is stored and converted into high potential grades next day, provided the morning classes are not slept through. For alas, the human element does not affect the process! Shower baths and long hours of undisturbed sleep present great difficulties in the keeping of 100% power factor at full load.

Changer of moneys, good mixer, reformer, sponsor of all grade bull sessions, student, friend - we knew him well. Whether on the crest of the financial wave or completely submerged, there was always that "calliope" whistle or a long forgotten song. Women were not his weakness. Woman was! But then "Aren't We All?"

So long old boy and happy landing. Quick Charlie, bring on the sheepskin. There goes another circuit breaker.

Industrial Engineering

Bechtelheim

Football: 1, 2, 3, 4

JUST another wayfarer from the land of the "black diamond," where men are men and the beer is six per cent! "Bob," though usually a rather reticent personage, bubbles over with enthusiasm when given the opportunity to extoll the virtues of the beloved land of his birth, the relative merits of its athletes, and the great beauty of its fair sex. In fact, after a session with "Bob," one is lead to believe that no greater pitcher than Coveleskie ever ascended the mound, and that Greta Garbo doesn't rate at all compared with some of the "femmes" of his acquaintance. Yes, it's a serious case, indeed!

During his junior and senior years this young man broke all records for week-end trips, Philadelphia being the city thus favored. "Visiting relative" was the only explanation offered. When asked who the girl was, he empharically denied the existence of any affair of the heart, looking upon women solely as a source of companionship. What a man!

ROBERT CURTIS YOCUM

SHAMOKIN, PA.

"Yoke"

Phi Beta Delta

Freshman Wrestling Squad, Track 2, 3), Wilbur Mathematics Prize; Newtonian Society, Mathematics Society, Pre-Medical Society.

WHEN Bob first came to Lehigh, he was sure proof that Dean McConn was right when he said that some college men are only kindergartners. But that is in the dim past, and what have we now but a sophisticated, debonaire, handsome college man. After exhausting the available supply of beautiful Bethlehemites, Bob decided to do a little exploring, but his tour terminated after a short stay in Jersey City.

After trying practically every course given at Lehigh, he has finally come to the conclusion that medicine is his field, though his friends advise him to stick to osteopathy, as his bone-crushing experience will stand him in good stead.

Bob has the happy faculty of knowing when to be serious and when not to be serious, and this factor added to his willingness to help his friends will be advantageous in his life's work.

ROBERT ZOBLER

TRENTON, N. J.

Juniors

History

THE Fall of 1928 saw a sturdy and determined class of fellows, close to five hundred strong, "sign the dotted line" in an attempt on the part of each to become one of Lehigh's "dear sons." We were not unlike any other freshman class and as the saying goes we had a lot to learn. We, too, were possessing of that attitude which seems common to all students new to college of being just the most important individuals on Earth. But little by little, or rather at times it seemed so sudden, the realization of the fact that a Sophomore Class existed dawned upon us.

Our Sophomore year continued in the same unselfish and determined spirit. As all classes have, we too had a few in our midst who were unable to maintain the pace set by the majority and consequently had to drop by the wayside. However we have become concentrated in size and efforts to realize and effectively perform the duty of every Lehigh man: "To make our lives add lustre to her glorious fame." One of the outstanding accomplishments of our class during the Sophomore year was the dropping of the rather unpleasant practice of hazing.

As Juniors we are looking ahead hopefully to our Senior year and graduation. Somehow we feel that the time is short, and then again we feel that it is long. In retrospection, we recall a good many instances where we saw darkness but the light of our pleasant acquaintances and ties of friendship stand above all these and we are sure that when we look back from the threshold of the exit of our college careers, only with reluctance will we take leave of our Alma Mater.

Sophomores

History

A SHORT time ago a high spirited group of young men arrived at Lehigh and were designated as the Class of 1933. Though new to the ways of university life, this group took a quick grasp of things and showed its spirit at the first chance. This opportunity came on Founder's Day when the class, by defeating the Sophomores in the annual Founder's Day sports, won the right to forget its dinks on Sundays. As the year went on, the class began to display qualities which would make its history worthy of notice. It aided the sophomores in abolishing rushes and in establishing a sane banquet season which eliminated the great number of class cuts which always attended this event.

The enthusiastic energy of the first year was still vigorous when the class came back to Lehigh as sophomores. Again the class won the Founder's Day sports. During the past year men of the class of 1933 have entered into every phase of University life and there are now sophomores among the leaders in scholarship, sports and campus activities.

The Class of 1933 now looks towards the future, towards its Junior and Senior year with the assurance that its members will continue to live up to Lehigh Standards.

Freshmen

History

THE CLASS of 1934 became a reality in the Fall of 1930 when over four hundred aspiring and ambitious young men reported for Freshman Orientation Week. During this week, this group experienced the novelties of college life and learned about the traditions of old Lehigh.

Following Chapel on the opening day of school, the sophomores were on hand with their usual "warm welcome." Hazing in its more severe terms had been abolished previously but some of the 1934 men felt the wrath of the Sophomore Council. Class elections were delayed this year to give the men a chance to become better acquainted with each other before election time. This was done under the recommendation of the Arcadia and the Class of 1934 was the first group to use this means as a check on partisan politics.

The sophomores emerged victorious in the Founder's Day sports only after a hard battle and compelled the men of '34 to wear their "dinks" on Sundays. As the year went on, the class became more organized and concentrated in its efforts. It has shown itself strong in extra curricular activities, student publications and the Glee Club. Its teams have shown that they contain material which will later make varsity teams.

Chi Phi

THE successive union of three older organizations, each bearing the name Chi Phi, resulted in the present Chi Phi Fraternity. The first of these, called the Princeton Order, was founded at the College of New Jersey in 1854; the Southern Order was founded at the University of North Carolina in 1858; the Hobart Order was started at Hobart College two years later. All three of these Orders established several chapters, but during the Civil War they became inactive. After the war some of the chapters were revived and the Chi Phi of the North and Chi Phi of the South were formed. A union was effected between the two orders in 1874; since then the fraternity has undergone a conservative growth, now having thirty-two chapters and a membership of 10,000.

Psi Chapter, the first fraternity at Lehigh was founded by S. V. Wilson, G. C. Haldeman, F. A. Watkins, W. M. Reese, W. W. Cross, and J. P. Meyer, in 1872, and has had a continuous existence since, although it has been reduced to two or three members several times.

In the early days when only a lodge room was maintained, the chapter formed an eating club called at different time the Calumet Club and the Hefty Club. The chapter has had its home at many locations, including the present sites of the Moravian Book Store, Washington Republican Club, the Post Office, and the Wilbur Trust Co. The present chapter house, erected on the campus by the alumni, was formally opened in the fall of 1923.

ALPHA TAU OMEGA

Alpha Tau Omega

THE ALPHA TAU OMEGA fraternity was founded at Richmond, Va., September 11, 1865, by Otis Allan Glazebrook, Erskine Mayo Ross, and Alfred Marshall. The first chapter of the fraternity was established at the Virginia Military Institute in Lexington, Virginia.

In July of 1870 the first congress of the new organization was held and the executive and legislative powers were vested in a general body of delegates and officers. The fraternity was incorporated under the laws of Maryland in 1879.

Alpha Tau Omega was first established in the north at the University of Pennsylvania on April 8, 1881. Dr. Edgar F. Smith, provost of the University of Pennsylvania, was instrumental in the formation of this first northern chapter of Alpha Tau Omega even though he was a member of another national fraternity. N. Wiley Thomas, the first initiate of the new Tau chapter installed a chapter at Muhlenberg in 1881, the the first Alpha Rho chapter at Lehigh in 1882.

The Alpha Rho chapter of Alpha Tau Omega was the second chapter of and fraternity to be installed at Lehigh. The life of the first was short, however, and in 1886 the charter was withdrawn. Four years later the chapter was revived by Otis Glazebrook, one of the founders, and though the charter was withdrawn again, the chapter was revived in 1903 to stay.

DELTA PHI

Delta Phi

DELTA PHI fraternity is the oldest member of the Union Triad, a name applied to the three fraternities which originated at Union College, and is the third in the order of establishment of the American college fraternities. The national organization was founded in 1827 by nine students at Union College many of whom were students of the Theological School and since that time has been among the leaders in the establishment of chapters throughout the East.

Nu Chapter of Delta Phi was founded as the fifth fraternity at Lehigh University in 1884. Henry B. Douglas, John A. Jardine, William A. Cooke, Joseph K. Surls, Miguel R. Sauraz and Harry S. Meily were the founders. The local chapter has been in continuous existence since its installation and at present has an enrollment of about two hundred.

The purpose of the founders "to consolidate their interests and at the same time mutually benefit each other, to maintain high standing as students and gentlemen, and to foster cordial and fraternal relations", has always been the object of the local and national fraternity.

At first the chapter occupied several rooms near the campus as club rooms, from which they moved to a temporary house far out on Delaware Avenue. The next move took the fraternity to Delaware and Mohican Streets where the chapter remained until 1913, when the house was destroyed by fire. The present house was obtained in 1920.

PSI U P S I L O N

Psi Upsilon

THE ETA chapter of Psi Upsilon was installed in February, 1884 after the petition for the installation of a chapter had been granted at the Psi Upsilon convention in 1883. The original petition was submitted by Phi Theta Psi, a local chapter, which had been formed for the purpose of petitioning the Psi Upsilon fraternity. The national fraternity of Psi Upsilon was founded at Union college in 1833 as the result of a local society which had been formed for election purposes.

Although they were unsuccessful at the time of their petitioning, the work of G. F. Duck, H. V. Cooke, J. W. Leithead, R. G. Cooke, and W. R. Pinkney gradually built up a strong local fraternity: Phi Theta Psi. This society emerged at the end of their first rushing season with twenty undergraduate members. Two members of the Lehigh faculty interested these men in petitioning the Psi Upsilon convention in 1883 and their charter was granted the next year.

As scholarship had much to do with the selection of upper-classmen for membership to the fraternity, there were in the group valedictorians of two classes, oratorical prize winners and Wilbur scholars.

The present chapter house was constructed from plans drawn up by T. C. Visscher '99. It is located on Broadhead avenue just off the campus. The first chapter house was located on East Market street.

THETA DELTA CHI

Theta Delta Chi

IN 1847 Theta Delta Chi fraternity got its start as a national fraternity on the campus of Union College. Since the founding of the fraternity, the society has made a continuous growth but a conservative attitude toward granting new charters is now apparent. Thirty chapters comprise the active roll and as the Lehigh chapter is twenty eighth on the list, there have been only two added since 1884.

Nu Deuteron Charge of Theta Delta Chi was founded on June 14, 1884, by Charles Luchenbach, Thomas Luchenbach, Mason Pratt, John Spengler, Charles Thomas, and Edward Van Kirk. The chapter is the ninth of the fraternities at Lehigh in the order of their continuous existence.

Various located houses were occupied by the fraternity until 1919 when the House association built the present home on South Mountain. This house was one of the first to be located on the campus.

Among the prominent members of Nu Deuteron alumni are Walter R. Okeson, Head of Eastern Intercollegiate Football Officials; Eugene G. Grace, President of the Bethlehem Steel Company; Alfred R. Glancy, President of the Oakland Motorcar Company, now president of the Alumni Association; and Archibald Johnson, President of the Bethlehem Bank.

DELTA UPSILON

Delta Upsilon

THIRTY undergraduates of Williams College were responsible for the formation of a society destined to become the first chapter of Delta Upsilon. The new society, formed in 1834, was known as an "anti-secret society" but in 1881 the general attitude of the fraternity towards secret brotherhoods changed and the term "non-secret" was substituted. At Williams College the new society readily became a power, and in 1838 had a membership of eighty-two which was then about two-thirds of the student body. The fraternity was incorporated in 1909 and now has fifty-six chapters.

The fiftieth annual convention of Delta Upsilon fraternity granted the Lehigh charter and on October 10, 1885 the installation ceremonies were held in the American Hotel in Allentown. Charles Evans Hughes, Brown, '81, was chairman of the installation committee. George A. Ruddle, William A. Lyndon, Robert Lee Whitehead, Charles Pope Pollack, Otway A. Terrell, John M. Howard, Luther R. Zollinger, Harlan S. Minner, Harry S. Morrow, and Charles S. Parker were charter members.

The first quarters of the chapter consisted of two rooms on the second floor of the old Kansas' building. Two years later the fraternity rented a floor at Fourth and Wyandotte streets in the present Wyandotte Hotel and later moved to a house on Cherokee Street. The present house, the first to be built on the Lehigh campus, was erected in 1909.

Sigma Nu

THE SIGMA NU fraternity was founded in 1868 at the Virginia Military Institute in Lexington, under the name of the Legion of Honor. In 1869, the Greek name, Sigma Nu, was adopted and a program of expansion started. At first, the new chapters were largely in the South, but as the fraternity grew larger and stronger, suitable colleges in the north were chosen.

Pi Chapter, founded in 1885, began under very discouraging circumstances, but the early members overcame most of the difficulties during the first few years. The first chapter letter written by one of the founders, in the fall of 1885, gives insight into the workings of the group.

"Although somewhat isolated, we feel united by the bonds of Sigma Nu. There were many obstacles in our way, and now, since we have overcome them, we have not only strengthened the fraternal feeling existing between us, but have the gratification of knowing that each contributed to the successful establishment of Pi. Our work is not yet finished, but we have no fears for its fortunate completion."

Two charter members, Charles D. Marshall and Howard R. McClintic, who while at Lehigh were laying the cornerstone of their future achievements, formed from their relationship as fraternity brothers in Pi Chapter, an attachment which led to the business partnership of McClintic-Marshall, one of the largest construction companies in the world.

PHI GAMMA DELTA

Phi Gamma Delta

PHI GAMMA DELTA was founded at Jefferson College, April 22, 1848, by J. T. McCarty, J. Elliot, D. W. Crofts, N. Fletcher, E. B. Gregg, and S. B. Wilson. It was during one of their social meetings that these men, all members of the same debating society, decided to form a secret fraternity. The first meeting was held in McCarty's room on the night of April 22. There the constitution was drawn up and the chapter organized.

Soon after the founding of the fraternity, Phi Gamma Delta established chapters at other colleges and this movement has continued up to the present time; the fraternity is now nation-wide in expanse.

In 1885, Major Frank Keck and W. French of the Columbia chapter planned a chapter at Lehigh. They communicated with Butler, Domenich, McFadden, and Pierce, all Lehigh undergraduates, who then petitioned the grand chapter of Phi Gamma Delta. Their petition was granted, being endorsed by the Lafayette and Muhlenberg chapters.

On January 15, 1886, Major Keck together with eleven other "Fijis" from the Columbia chapter installed the Lehigh men; they initiated Pierce at Lafayette, and Domenich and Butler at the Sun Inn. McFadden was ill at the time. In December of the same year, seven more men were initiated and the new chapter became firmly established.

Beta Chi's first house was on Market Street; later they moved to a larger house on Cherokee Street. Finally, with the fine-co-operation of the alumni, George R. Brothers and T. H. Mueller in particular, they were enabled to erect their present brick home on the campus.

Sigma Phi

WHEN the petition for membership in the Sigma Phi fraternity was granted to a local club known as Beta Beta in 1887, the Lehigh chapter of Sigma Phi was installed. Sigma Phi, the second member of the Union Triad, was founded as a fraternity at Union College in 1827.

Alpha of Pennsylvania, as the Lehigh chapter is known within the fraternity, was the outgrowth of a local club which was organized as the result of dissatisfaction of some of the members of other clubs with existing conditions. The local club was also formed for the distinct purpose of applying for a charter from some national fraternity. R. P. Linderman, G. B. Linderman, Warren A. Wilbur, and W. H. Sayre are some now prominent local alumni who were initiated at installation ceremonies.

The original chapter roll numbered twenty-six men, including the eleven graduates admitted, and the group flourished from the start. A chapter house was built shortly after founding and on February 4, 1889 was formally opened with a reception attended by representatives of many of the chapters, by the faculty, and friends of the chapter residing in Bethlehem.

PHI DELTA THETA

Phi Delta Theta

PHI DELTA THETA was founded at Miami University, Oxford, Ohio, in 1848. Chapters were soon established at other colleges, and in 1882 a charter was granted to a group of students at Lehigh, who were initiated by a body of Phi Deltas from Princeton. However, the chapter did not prosper having had difficulties with the university authorities. After a few years it died. In 1887, the Pennsylvania Eta Chapter of Phi Delta Theta revived its charter and the members were installed by the Lafayette chapter. The charter members were: R. P. Barnard, E. H. Beazell, O. C. Burkhart, F. R. Coates, M. H. Fehnel, J. J. Lincoln, C. H. Miller, T. F. Newby, T. A. Straub, and A. T. Throop.

It is a noteworthy fact that thirty-seven years after their initiation all the charter members were able to attend a reunion. On this occasion a picture was taken showing them in the same positions which they occupied in a picture taken when the chapter was organized. At the present time all are living but one, C. H. Miller, who was killed in a steamboat accident on the Mississippi in 1923.

During the first few years of its existence, the chapter changed houses several times, but the members finally settled down in a house on Wyandotte Street which is now occupied by the Elks. With the aid of the alumni, especially F. T. Townsend, the present gray stone house on the campus was built and opened in 1917.

Sigma Chi

THE SIGMA CHI fraternity originated after the refusal of six members of the Delta Kappa Epsilon chapter at Miami University to vote for a fraternity brother for a campus office. These six men: Thomas C. Bell, James P. Caldwell, Daniel W. Cooper, Isaac M. Jordan, Benjamin P. Runkle, and Franklin H. Scobey voluntarily withdrew from the chapter, associated themselves with William L. Lockwood, and established a new secret society.

They assumed the name Sigma Phi, apparently unaware of the existence of another organization of the same name in the East. Early in the succeeding year, rivals stole the ritual and constitution, and new ones were drawn up with the name changed to Sigma Chi. A second chapter started the same year and since then expansion has been constant.

During the Civil War, with many universities closed, seven Sigs kept alive the fraternity spark, by organizing a chapter in the Confederate Army, which they termed the Constantine Chapter. This unique organization of Sigma Chi held regular meetings and conducted two initiations throughout the Civil War.

The fore-runner of the Alpha Rho chapter at Lehigh was the Crimson Halberd society, which successfully petitioned the national fraternity in 1886 and again in 1893 after three years of inactivity. Although planning for a campus site, the fraternity is now situated in a fine home at 240 East Broad Street.

DELTA TAU DELTA

Delta Tau Delta

DELTA TAU DELTA was founded at Bethany College, West Virginia; its founders were R. H. Alfred, A. C. Earle, E. Tarr, and J. C. Johnson. An informal initiation was held in the spring of 1858, but the badge, motto, and constitution were not adopted until February, 1859. The parent chapter at Bethany, after establishing several other chapters, temporarily passed out of existence in the confusion of the Civil War. In 1885 a union was effected with the Rainbow or W.W.W. Fraternity, a strictly Southern organization founded at the University of Mississippi in 1848.

For a time the fraternity was directed by the parent chapter, but in 1883 this system was abolished and authority was vested in an executive committee known as the Arch Chapter. Active chapters now number more than seventy-five; there are alumni chapters in most of the leading cities.

The Pi Chapter was organized at Lehigh in 1874 but ten years later its charter was revoked. In 1889 the chapter was revived as Beta Lambda by St. John Cox, W. B. Brady, W. T. Frederick, J. A. Beaver, Wm. Griffith, and S. M. Bines. Beta Lambda's first home was the place which is now the University Club. After several changes, the present Sigma Alpha Mu house was occupied for a few years. By generous help from the alumni, the chapter was enabled to erect its present home on the campus. This house was completed in 1914 and was the second on the campus.

BETA THETA PI

Beta Theta Pi

BETA THETA PI was established at Miami University, Oxford, Ohio, in 1837, by John Reily Knox, who, with seven other undergraduates, organized the national fraternity. Beta Theta Pi, the first of the Miami Triad, was also the first fraternity to be organized west of the Alleghenies; about that time the fraternity system was coming into prominence in the East. Since then, the fraternity has experienced a steady growth, now having more than eighty active chapters.

The seat of government rested in the parent chapter for about eight years after its founding. In 1879, the reins of authority were put in the hands of a board of directors, consisting of nine men.

Beta Chi, the chapter at Lehigh, was founded in 1891 by Peyton B. Winfree, a transfer from the now defunct chapter at Randolph-Macon, and two other Beta transfers. These three, along with eleven other students petitioned the national convention, and in 1891 a charter was granted them.

Beta Chi's first house, on West Fourth Street, was a small rickety structure, now long since vanished. In the earlier days when membership was small and funds not too plentiful, the chapter house changed periodically. In 1902 the Betas acquired a house on Wyandotte Street which they occupied for sixteen years. In 1923 the chapter moved provisionally across the river to East Church Street, and a new home on the campus was contemplated. This house was completed in 1926.

KA

Kappa Alpha

WITH the breakup of a society for exercise and drill at Union College in 1825, a new secret society of a literary and social order was formed by nine men. This was the beginning of the Kappa Alpha fraternity, the first secret brotherhood in an American college, and although it met at first with a great deal of opposition from the college and faculty, the fraternity has continued to grow.

Three members of the class of 1895, James E. Brookes, Henry E. Kip, and Charles F. Maurice, having worked for nearly a year to obtain a charter, finally made application to the Kappa Alpha convention in May, 1893. Their petition was accepted and in January, 1894, the Alpha chapter of Kappa Alpha fraternity was installed at Lehigh University. The six original petitioners were initiated January 2, 1894 in the Masonic Temple, New York City and three more were taken into the brotherhood in February.

A year after the chapter had been established, a small house on Cherokee Street was rented, but as the chapter continued to grow, better and larger quarters were obtained. In 1916 the chapter moved to Seneca Street after having sold their first house. Two years later a house on Broadway was acquired and in the summer of 1922 the present house at Fourth and Seneca Streets was purchased.

C H I P S I

Chi Psi

THE CHI PSI fraternity was founded at Union College in 1841 to unite the founders into a closer bond of friendship and brotherhood. With a policy of conservatism the fraternity has established with careful selection twenty-five strong chapters stretching from Maine to Georgia, and from New York to California. In each of the individual chapters the aims and ideals of the founders are the goals and the one word "gentlemen" is stressed.

Alpha Beta Delta of Chi Psi was founded at Lehigh by nine friends, prominent undergraduates, who wished to belong to a strong, conservative national brotherhood. However, being dissatisfied with the existing campus nationals, they chose to petition Chi Psi for a charter. The request was granted in 1894. The nine local founders were: Harry L. Adams, Samuel L. Beeler, George W. Beggs Jr., Frank Faust, Ira M. Higbee, Arthur F. Loomis, Thomas C. Roderick, Ambrose B. Strickler, and Alfred M. Worstall.

Alpha Beta Delta first held its meetings—dealing mostly with literary work—in various rooms of its members. Later a house on Seneca Street was obtained and the first lodge was a reality. In 1915 a new lodge was erected in Sayre Park on the campus.

Because of the unjust naval execution for mutiny in 1843 of Philip Spencer, a founder of the fraternity, the members were later known as "pirates."

KAPPA SIGMA

Kappa Sigma

THE BETA IOTA chapter of the Kappa Sigma fraternity was installed at Lehigh University, November 19, 1900, with the following men charter members: L. G. Krause, J. S. Krause, A. R. Young, C. E. Barba, W. P. Rogers, H. L. Fryer, S. W. Goldsmith, G. J. Waltz, E. C. Godschalk, J. W. Dismant, and J. J. Shonk. These men desired the benefits derived from membership in a national fraternity, and accordingly petitioned and were accepted into Kappa Sigma fraternity.

The national organization of Kappa Sigma was founded at the University of Virginia in 1869 by five men, who, refusing chances to join other Greek letter secret societies, founded an organization of their own in order to further their own friendship as a group. Thus, these men have been termed "the five friends and brothers." This spirit has spread throughout the national fraternity and is found to be a part of each individual unit.

With this thought in mind, the new Beta Iota chapter started to function immediately, and was soon active in all campus affairs. Expansion of the chapter necessitated a change to a house on Delaware Avenue, but a disastrous fire forced the members to move to the Chapman house on Church and High Streets. The next move took the chapter to E. P. Wilbur's old home on Delaware Avenue. The members finally established themselves in a spacious home at 24 East Church Street, where the chapter is at present located.

PHI SIGMA KAPPA

Phi Sigma Kappa

PHI SIGMA KAPPA fraternity was founded at Massachusetts Agricultural College, March 15, 1873. For five years it had no name, but was generally known as the "Three T's." The organization became national in 1888 due to the activity of alumni members who went to the Albany Medical College for graduate study. The fraternity now has about forty-nine chapters. Its government is similar to that of the United States and much of its constitution is non-secret.

Nu chapter was founded at Lehigh in 1901 by Charles Murray, William Landis, Robert Thoroughgood, Henry Walters, and Frederick Dawns. They had petitioned several other national fraternities previous to being granted a charter by Phi Sigma Kappa.

The original chapter home was at 511 Seneca Street. A short time later, the chapter moved to Packer Avenue. During the war so small a number was left in the chapter that the few remaining were forced to live with another fraternity. When the chapter was able to function independently again, a house on Wyandotte Street was occupied. Eight years ago, however, the chapter outgrew this house, and it moved to its present home at 437 West Third Street.

Theta Xi

THETA Xi fraternity was formally founded on April 29, 1864 at Rensselaer Polytechnic Institute. Developments of the fraternity resulted from two factions which then existed in Sigma Delta fraternity, a local club formed at Rensselaer in 1859. The group of eight, who were the dissenters, withdrew from Sigma Delta and formed a new society with the full intention of making it national in scope. The eight founders took the oath and signed the constitution.

The charter to Eta chapter was granted to a local organization then known as the Lehigh Herman club which had existed upon the campus since the middle nineties. Fourteen charter members received the initiation on December 3, 1903. To date, Eta chapter has initiated two hundred and eighteen men into Theta Xi fraternity.

The original chapter house stood at 431 Cherokee Street, but about 1908 the chapter moved to 541 Senaca Street where it stayed until the time of war. For some time during the war the fraternity had no house but held meetings at the Five Points. Immediately after the war a house was secured on North New Street and when larger quarters were needed the fraternity moved on East Church Street. In September, 1928, the present quarters were obtained at 407 Delaware Avenue. In approximately twenty-five years of existence, Eta chapter has held meetings in seven different houses.

SIGMA PHI EPSILON

Sigma Phi Epsilon

THE national fraternity of Sigma Phi Epsilon was founded at what is now called the University of Richmond, then called Richmond College, in 1901. The chapter at Richmond took in several students of theology and because the badge was heart shaped, the fraternity has been called the "Sacredhearts". The parent chapter held entire control of the government until 1903.

The Lehigh chapter, which is known as Pennsylvania Epsilon, was granted its charter at the 1908 National Conclave of the fraternity. Pennsylvania Epsilon chapter was originally a local society called Omega Pi Alpha but previous to 1907 was known as Delta Epsilon. The local chapter, at the time of initiation, contained sixteen members. The present active chapter consists of thirty-one members and alumni enrollment totals three hundred and eighty-one. The national fraternity now has a membership of sixty-one active chapters scattered throughout the country.

The first house of the chapter was located on West Fourth Street, but an increase in membership in a few years necessitated larger quarters so the chapter purchased a house on the northwest corner of Fourth and Wyandotte Streets. The present chapter house has been occupied since 1923. It is located at 61 West Market Street. Plans are now being made for the construction of a new house in the near future.

PHI LAMBDA PHI

Pi Lambda Phi

PI LAMBDA PHI was organized by a group of Yale students on March 21, 1875, for the chief purpose of eliminating sectarianism from the American colleges. The preamble to the constitution of Pi Lambda Phi states its purpose as follows: "We, students pursuing courses at American colleges, appreciating the need of a fraternity which shall eliminate all prejudice and sectarianism, and desirous of affiliation in spirit, in feeling, and in action, do hereby associate ourselves in this Pi Lambda Phi Fraternity."

The Lambda chapter of Pi Lambda Phi was founded in 1915 by eleven charter members. Since then the chapter has taken rapid strides forward, quickly overcoming the usual obstacles which beset every new chapter of a fraternity. In 1918, Lambda became a member of the Interfraternity Council, and since then has been active in campus activities.

In recent years, Lambda chapter has three times been the recipient of the Interfraternity award for scholarship. In the year 1928-29, Pi Lambda Phi was awarded the Trustees Cup for having the highest scholastic rank of all living groups.

ALPHA CHI RHO

Alpha Chi Rho

TRINITY COLLEGE at Hartford, Connecticut, is the birthplace of the Alpha Chi Rho fraternity; The Rev. Paul Ziegler, H. T. Sheriff, William A. Eardeley, C. G. Ziegler, and William H. Rouse, were the Trinity men who first conceived the idea of establishing the brotherhood. Since the date of its birth, June 4, 1895, the fraternity has undergone a steady growth, now numbering 22 active chapters, with no inactives on the list, and a membership approaching 4,000.

The Phi Mu chapter of Alpha Chi Rho, at Lehigh, was organized in 1918. It traces its origin to Theta Delta Psi, a local which had been founded several years before. The Lehigh chapter in common with the other chapters of Alpha Chi Rho, has a strong and distinctive alumni organization, more strongly linking the graduates of the chapter. It is a fraternity policy for a member of the alumni chapter to live in the chapter house if possible, and act as an advisor to the undergraduates.

Alpha Chi Rho's first home was situated at 454 Vine Street, but it soon became unsuited to the purposes of the growing fraternity, and in 1921 a larger place was rented at the corner of Third and Wyandotte Streets. Two years later the chapter purchased what was known as Skeer's Mansion a large brick structure situated at Third and Cherokee Streets. Since 1923, the Alpha Chi Rho's have lived and flourished there in the brick mansion, their present chapter house.

THETA KAPPA PHI

Theta Kappa Phi

DURING the year 1916, a group of Lehigh Students found themselves thrown together quite frequently in one of Bethlehem's "chop houses". Recognizing the mutual congeniality of the group, certain of them set a movement on foot in order to bring about a more certain and binding organization. Whether it was to result into an eating club or fraternity was never discovered, for the War disbanded the group. Various members entered the service; and the rest, left without leaders, lost interest.

Some months after the close of the War, however, the organization of the group began anew; this time their efforts meeting with success. Under the leadership of August Concilio, who had returned from overseas to complete his senior year, and with the capable guidance and sound advice of Msgr. McGarvey, then pastor of the Holy Infancy Church, the residence at 454 Vine Street was secured and furnished. With faculty recognition, the local fraternity, Theta Kappa Phi, became a reality.

An amalgamation with a prominent local fraternity at Pennsylvania State College, Kappa Theta, was accomplished in 1922, thus beginning the expansion of Theta Kappa Phi. Since then the fraternity has placed chapters in eight prominent colleges in the East and Middle West.

SIGMA ALPHA MU

Sigma Alpha Mu

THE SIGMA KAPPA chapter of Sigma Alpha Mu fraternity was established at Lehigh in the spring of 1923. The first initiates of the local chapter were: Frederick Coleman, Benjamin Epstein, Meyer Garber, David Getz, Walter Grosman, Elheim Lang, Maurice Nehemiah, Clement Schiffren, George Sall, and Barney Wolinsky.

The national organization was founded at the College of the City of New York, on November 26, 1909, by Hyman I. Jacobson, Lester Cohen, Jacob Kaplan, Ira N. Lind, David Levinson, Samuel Ginsburg, Abraham N. Kerner, and Adolph I. Fabis. Their object as written in the preamble to the fraternity's constitution was "to form a close social and fraternal union of Jewish students of the various universities, colleges, and professional schools in America; to foster and maintain among its sons a spirit of fraternity, a spirit of mutual moral aid and support; to instill and maintain in the hearts of its sons love for and loyalty to Alma Mater and its ideals; to inculcate among its sons such ideals as will result in actions worthy of the highest precepts of true manhood, democracy and humanity." With the establishment of the Beta chapter at Cornell University in 1911, Sigma Alpha Mu began its expansion on a national scale.

The local chapter's first home was located at 524 Broadway. Then, in 1925, a house was obtained at 326 Wyandotte Street. In 1926, the undergraduate body, supported by the alumni, purchased the present home at 506 West Third Street.

PHI SIGMA DELTA

Phi Sigma Delta

THE PHI SIGMA DELTA fraternity was founded at Columbia University. The Alpha chapter at Columbia has gradually expanded until today there are twenty-two active chapters at the foremost colleges and universities of the United States. From Boston to Colorado, from Michigan to Texas, Phi Sigma Delta has established its chapters over the country.

Tau chapter, at Lehigh, is the seventeenth of these chapters. The sixth of June, 1926 marks the founding of Tau chapter. Previously the fraternity had been organized as a living group, under the name Beta Phi. At this time, however, a charter was granted to a group of seven men, who had petitioned the Central Council of Phi Sigma Delta. The men, instrumental in establishing Tau chapter, are: J. S. Askin, H. J. Gutowitz, H. Lewin, W. Gould, B. Weinstein, B. Levitz, and M. M. Miller.

From the very start, Tau chapter of Phi Sigma Delta distinguished itself on the campus. Honey Lewin, a famous Lehigh grid star; the Levitz brothers, noted athletes in football, track, and wrestling; and Ben Weinstein, basketball star and captain in 1924, are all numbered among the fratres of Phi Sigma Delta.

The fraternity has never experienced serious internal or external difficulties, and is now firmly intrenched as an active brotherhood.

LAMBDA CHI ALPHA

Lambda Chi Alpha

ESTABLISHED at Boston University in 1909, Lambda Chi Alpha has spread its chapters throughout the entire nation after a phenomenal rate of growth until it now numbers more than seventy active chapters. At Lehigh, it had its beginning as the Delta Theta fraternity, a prospering local founded in 1922.

Their curiosity aroused by stray copies of the Lambda Chi Alpha publication, and further interested by a visit to the Rutgers chapter, members of Delta Theta informally petitioned the national fraternity late in 1923. Two years later their formal petition was filed, which was accepted the following spring. On November 13, 1926, thirty men were initiated, and the Lehigh chapter of Lambda Chi Alpha was established as Gamma Psi Zeta.

The original chapter house of Delta Theta was on Packer Avenue, but due to the rapid expansion of the chapter, it was soon outgrown, making necessary a change to a house on Montclair Avenue. In the fall of 1927, Lambda Chi Alpha again moved, this time to a large stone house on Delaware Avenue. In their new home, situated in one of the residential sections of Bethlehem, the chapter has an enviable record of achievement and progress and eagerly is looking forward to an even more successful future.

PI KAPPA ALPHA

Pi Kappa Alpha

THE friendship of six Confederate soldiers who had fought together through the Civil War was the reason for the founding of Pi Kappa Alpha at the University of Virginia in 1868. Due to the unsettled condition of the South after the Civil War, the fraternity led a precarious existence for the first few years. A convention of three of the four active chapters in 1889 gave new life to the fraternity, and since then, under the leadership of Robert A. Smythe, it has expanded to the enviable position that it now holds in national fraternal affairs. Until 1909 expansion was limited to southern and southwestern states, but during that year all geographical restrictions were removed.

The Lehigh chapter, Gamma Lambda, was installed on December 6, 1929, at 535 Montclair Avenue. In June, 1930 the chapter moved to its present location, 306 Wyandotte Street. Before its installation into Alpha Kappa Pi, the fraternity was a local, Zeta Chi. The inception of this group occurred in 1924, and was at that time known as the "Seal Club," which name was soon dropped in favor of the "Lehigh Ivy Club." In 1926, the club was reorganized as the Zeta Chi fraternity, the constitution being accepted by the faculty in May of that year.

PHI BETA DELTA

Phi Beta Delta

IN the fall of 1926, eight Lehigh students, members of a local club, Omega Phi, petitioned the Phi Beta Delta fraternity for membership. The petition was granted and on March 26, 1927, the Alpha Gamma chapter of the Phi Beta Delta fraternity was installed at Lehigh and moved into its first house at 728 Broadway. Phi Beta Delta is one of the largest Jewish national fraternities and was founded at Columbia University, April 4, 1912.

Eight men comprised the group which was first initiated. They were: Adolph Schiff, Quentin Wright, Abram Mendoff, Herman Lehrer, Sidney Simmons, Harold Phillips, Hyman Satinstein, Robert D. Levy, and Alexander S. Beale. Just as it is the purpose of the national organization, so it was the purpose of these eight men, to develop a finer spirit of loyalty, activity and scholarship toward their Alma Mater and to promote a closer bond between its members. With this aim in view, Alpha Gamma chapter has flourished as a national at Lehigh and has grown to such proportions that the first house has been outgrown.

The chapter is now in possession of a new house which is located on Cherokee Street.

Ρ Η Ι Δ Ε Λ Τ Α Ρ Ι

Φ Δ Π

Phi Delta Pi

THE PHI DELTA PI fraternity is a local society which was established in 1923 as the result of the desire of a group of junior and senior engineers to unite themselves into a closer bond. The faculty offered no objection to the formation of such a fraternity and the petition for organization was granted. From the beginning, the organization was known as the Sigma Iota society and it was not until a few years later that its name was changed to Phi Delta Pi.

Four years later in 1927, as the result of the industry and hard work of the small band, a new house was obtained. With the purchase of the new house, the fraternity took on a new life, and the chapter was revived with more interest than ever in spite of the fact that the years 1925 and 1926 were nearly disastrous because the chapter house had to be abandoned by the small group who were not able to withstand the burden of the upkeep.

An important result in the revival of interest was a change in the constitution which gave the fraternity the name of Phi Delta Pi. The fraternity is now progressing rapidly and expects to petition a national fraternity soon. The present house at 735 Delaware Avenue was purchased in 1929.

TAU DELTA PHI

Tau Delta Phi

TAU DELTA PHI fraternity was founded on June 22, 1910 at the City College of New York. A group of undergraduates there, feeling the desirability of the closer bonds of friendship and harmony embodied in a fraternity, banded themselves into a brotherhood. At the beginning, Tau Delta Phi was designed to be a purely local organization, and for several years this policy was strictly adhered to. In 1914, however, a chapter was organized at New York University, and, in 1916, the two sister chapters decided to adopt a policy of cautious and conservative expansion. Since then the size of the fraternity has increased considerably.

In June, 1926, the Tau chapter of Tau Delta Phi was granted a charter at Lehigh University. A local fraternity, called Upsilon Kappa, had been founded the year before, and had its chapter house at 240 West Packer Avenue. At the time it received membership in Tau Delta Phi, its roll consisted of nine members and nine pledges. The actives became charter members and were as follows: Charles P. Berman, Nathaniel Goldblatt, J. Holtz, Daniel Jatlow, Leon Lewis, Manuel Schultz, and David Troderman.

In the three years since becoming a national, the Tau chapter has had as many dwelling places, the first being on West Packer Avenue. A year later, the chapter moved to 527 Montclair Avenue. Last year, the spacious chapter house at 618 Delaware Avenue was acquired, and is now the present home of the chapter. Since its establishment at Lehigh, the chapter has prospered and has many high hopes for the future.

Α Λ Ρ Η Α Κ Α Ρ Ρ Α Ρ Ι

Alpha Kappa Pi

ALPHA KAPPA PI was organized at the Newark College of Engineering, Newark, New Jersey on January 1, 1921. It remained a local society until March, 1926, when the Beta chapter was placed at Wagner College. The first convention was held in New York City, May 22, 1926, with Wilson Hall, first grand president, in charge. "The Alpha" is the organization magazine which was started when the fraternity had only two chapters.

Nu Chapter of Alpha Kappa Pi was installed at Lehigh University on February, 1930. Prior to that date, this chapter had existed as Howard Hall, an organized living group. Howard Hall was organized during the winter of 1927, and moved into the house on Seneca Street which they now occupy. The group has succeeded very well as an organized living group, and their representative was admitted to Arcadia soon after its establishment.

In 1929, the members came to the realization that, in order to bind the men more securely and to derive the benefits of closer companionship, it would be advisable to apply to a national fraternity for a charter. Accordingly, in October 1929, a petition was submitted to Alpha Kappa Pi, and the charter was granted for the Nu chapter at Lehigh University the following February.

OMEGA PHI SIGMA

Ω Φ Σ

Omega Phi Sigma

THE OMEGA PHI SIGMA fraternity was organized at Lehigh University in 1927 by six undergraduates under the leadership of Elmer C. Easton. The founders of the organization keenly felt the lack of some connecting link between the college and the students living in town. They realized that, for some students, life in a quiet private home was a necessity for proper study. They also knew that other men were prevented from joining a fraternity, because of the expense involved. Omega Phi Sigma, then, met the needs of a social fraternity without the obligation of maintaining a house.

The first attempt at the organization of such a group took the form of an application for admittance to a national independent fraternity. The group was accepted and installed as a chapter, but was forced to withdraw from the national body because the latter was a non-collegiate organization.

Since the University's objection was merely to a non-collegiate fraternity, the chapter re-organized in 1928, with the result that, with the fall semester, Omega Phi Sigma was seen as a new local fraternity at Lehigh.

Intercollegiate Champions

John Augustine Engel

National Intercollegiate Wrestling Champion
118-pound class

"Johnny" Engel concluded his wrestling career at Lehigh in a brilliant manner by winning the National Intercollegiate title in the 118-pound class. Since his sophomore year Engel has wrestled on the varsity squad in the 125-pound class, and was elected captain of the 1931 team. As captain he enjoyed an undefeated season during dual meets and met his first defeat in the finals of the Eastern Intercollegiate bouts. Coming down to the 118-pound class for the National meet, he defeated Arends of Iowa State by a sensational fall and became the first eastern wrestler to win a National Intercollegiate title.

JOHN A. ENGEL

Paul Wesley Seal

Eastern Intercollegiate Wrestling Association Champion
145-pound class

Paul Seal made his appearance on the 1930 wrestling team as the 155-pound class entry and after a successful season in dual meets he reached the semi-finals of the Intercollegiate meet before being eliminated for the title in the 165 pound class. During the past season Seal wrestled in the 145-pound class and was defeated only once during the dual meet schedule and scored one fall and four decisions to account for 17 points. In the Intercollegiate meet he met and defeated both McGauly of Yale and Lorenzo of Pennsylvania to gain the title.

PAUL W. SEAL

Clarence Bardwell Peck

Eastern Intercollegiate Wrestling Association Champion
165-pound class

"Pete" Peck, in his first year of varsity wrestling, completed a season of seven dual meets without a defeat and climaxed this brilliant record by winning the 165-pound title in the Intercollegiate meet at Yale. Four of Peck's dual meet victories were won by falls and the remainder by time advantages for a total of 29 points, and he scored two more falls in the Intercollegiates to win the title. Pete's record included victories over the leading collegiate wrestlers of the country and his final bout with Hooker of Princeton for the title is considered to be one of the best ever seen in an intercollegiate meet.

CLARENCE B. PECK

FRANKLIN B. SHAW

Franklin Bolton Shaw

*Eastern Intercollegiate Wrestling Association Champion
135-pound class*

Coach Billy Sheridan's search for 135-pound wrestler was well rewarded in the form of Franklin Shaw. Shaw competed in six of the dual meets, scored three falls, two decisions, and was defeated only once, to end the season with 21 points to his credit. His victory in the Intercollegiates was unexpected by many critics until he demonstrated his ability in the preliminaries. He threw Jameson of Pennsylvania in an impressive style and proceeded to the finals where he met Relyea of Columbia, runner-up in the 1930 championships, and threw him in less than six minutes, to gain a title in his first year of varsity wrestling.

Harry Samuel Walker

*Eastern Intercollegiate Swimming Association Champion
200-yard Breaststroke*

Swimming his first season on the 'varsity squad, Harry Walker maintained a record of being undefeated in the 200-yard breaststroke and won the title in this event at the Intercollegiate meet in New York. Walker is in his sophomore year having transferred to Lehigh from Bucknell and his performances of the past season indicate that he is facing a successful career in intercollegiate swimming. His best performance of the season was 2:46 $\frac{7}{8}$ in his title race which is very close to the Eastern Intercollegiate record for the event.

HARRY S. WALKER

Hall Watson Cushman

*Eastern Intercollegiate Swimming Association Champion
50-yard Freestyle*

"Watso" Cushman provided a fitting finish to his outstanding swimming record at Lehigh by winning the Intercollegiate title in the 50-yard freestyle event. Cushman began to build up his long list of records in his freshman year when he set yearling marks in every freestyle event but the 220-yard swim. Injury prevented him from entering the championships in 1930 but he was a consistent scorer in dual meets. During this time he set University records in the backstroke, 100-yard, and 50-yard events and in the dual meet with Cornell Cushman set a new E.I.S.A. mark of 24 $\frac{1}{8}$ for the distance.

Summary of the 1930 Football Season

LEHIGH's 1930 football season cannot be termed successful from the standpoint of games won, for the Tatemen were victorious in only four of the nine games played. However, the season was marked by a brilliant triumph over Princeton for the first time in the thirty-three year football relationship that has existed between Lehigh and the Tiger. The three other teams defeated by the Brown and White were Ursinus, P.M.C., and Johns Hopkins. Lack of reserve strength and injuries were the obstacles that prevented Coach Tate and his staff from building up a more powerful eleven.

Lehigh - 12 Ursinus - 0

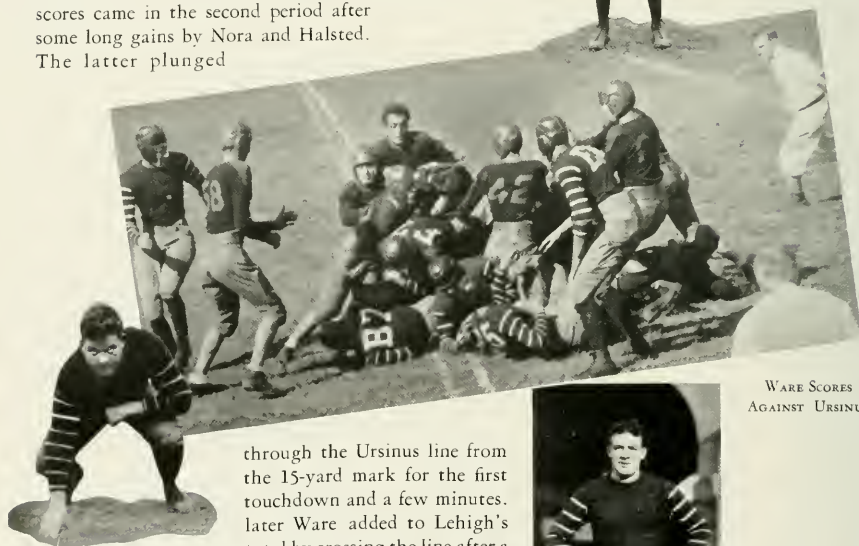

Ursinus surprised the Lehigh gridders in their first game by showing unexpected strength, but the backfield trio of Ware, Halsted, and Nora kept the Brown and White out of danger at all times. Both of the Lehigh scores came in the second period after some long gains by Nora and Halsted. The latter plunged

Clark

Hall

WARE SCORES
AGAINST URSINUS

Bailey

through the Ursinus line from the 15-yard mark for the first touchdown and a few minutes later Ware added to Lehigh's total by crossing the line after a sweeping end run.

Lehigh - 25 P. M. C. - 0.

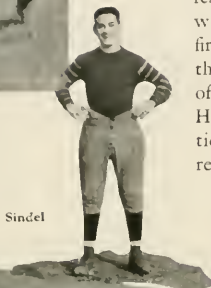

The Tatemen displayed a smooth functioning attack combined with a much improved defense against P.M.C. and were never seriously threatened by their Cadet rivals. Just after the game had begun Halsted received a long pass from the hands of Al Ware and sprinted across the line for a touchdown. The Cadets, finding the Lehigh forward wall impenetrable began

Blood

Evers

Sindel

a series of passes, but Tommy Nora intercepted one of these tosses to run the ball back to the P.M.C. 25-yard line. On the next play Halsted scored again on a beautiful broken-field run. Both Halsted and Nora made touchdowns in the third period while Ware accounted for one extra point.

Lehigh - 19 Johns Hopkins - 12

The gridders broke their long jinx on away games by defeating Johns Hopkins in a close struggle at Baltimore, which was poorly played and replete with fumbles. The first quarter ended in a 6-6 deadlock but Tommy Nora, the outstanding star of the game, made a sensational dash of 55 yards to give his team a 12-6 advantage at half time. Hopkins staged a powerful comeback in the last period and tied the score until a long pass from Halsted to Ware resulted in a touchdown and a victory for the Tatemen.

Lehigh - 0 Gettysburg - 14

Lehigh played the strong Gettysburg team to a standstill in the first half of the game, but showed a complete reversal of form later on to meet the

HALSTED KICKING
OUT OF DANGER
IN THE P. M. C.
GAME

Ware

season's first defeat. Since both teams offered a strong defense, the first half was largely a punting duel, Ware holding the edge with some beautiful spirals. Late in the third quarter Gettysburg broke through the Lehigh line to block a kick and Anglemoyer scored after a series of line plunges. The Tatemen weakened after this touchdown and the Bullets released an aerial attack for six points more just as the period ended.

Stein played a stellar role at his line position throughout the game while Ware and Halsted proved to be the main factors in Coach Tate's attack.

Baker

Lehigh - 0 Pennsylvania - 40

The Quakers, smarting from a previous defeat, turned their full strength on the Lehigh team and ran up an overwhelming score. Coach Tate withdrew his first string backfield to save it for the remainder of the schedule when he saw that a chance for victory was hopeless. Some fine punts by Ware held the Red and Blue away from the goal line for the first quarter, but Gentle and Masters broke loose in the next period and gave Penn a commanding lead before they were replaced by substitute backs.

Lehigh - 0 Muhlenberg - 24

A wide-awake and determined Muhlenberg eleven that took advantage of several glaring errors on the part of the Brown and White crossed the Lehigh goal line four times to win a wholly unexpected victory. Al Ware played a beautiful game for the Tatemmen but received little assistance when he carried the ball. The Mules made their first score in the second period on a long run by Carney through the entire Lehigh team, and a pass from Carney to Gerend resulted in another touchdown during the

Billy and Davis

Doering

Halsted

same period. The other scores occurred in the third quarter.

Lehigh - 13 Princeton - 9

One of the major upsets of the year took place when Lehigh, with a great display of defensive strength, defeated Princeton. The Brown and White touchdowns came in the first quarter before ten minutes of playing time had elapsed. An exchange of punts soon after the kick-off placed the ball on Lehigh's 20-yard line, but an end run by Ware advanced it to the 40-yard mark. Halsted took the ball on an off-tackle slant and with the aid of good interference made a thrilling 65-yard run to cross the goal line. Immediately after the kick-off

Doering

Halsted

HALSTED
STARTING OFF
FOR A TOUCH-
DOWN
AGAINST
PRINCETON

Rushong

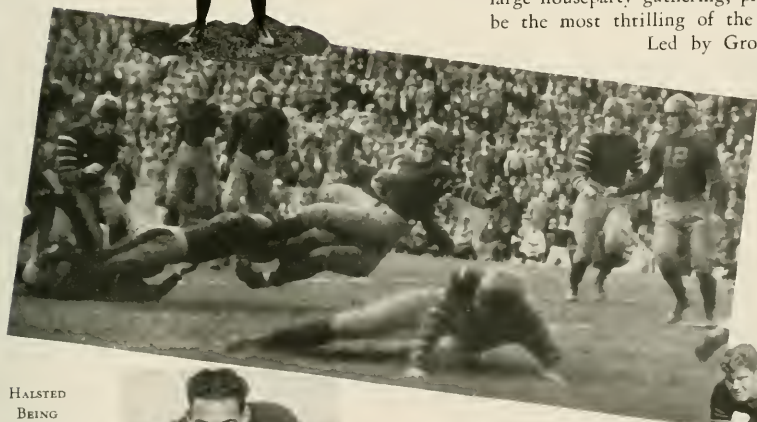

Nora

Princeton worked the ball up to Lehigh's 40-yard mark and Howson, star Tiger half-back, then attempted to pass, but Clark intercepted it with a pretty catch and duplicated Halstead's feat with a 65-yard dash to another touchdown. Ware made good the extra point. Princeton, thoroughly roused, began a powerful drive that ultimately resulted in a score, but before the Tigers were able to gain it, Lehigh held inside its 5-yard line on two occasions. Again in the third quarter a series of passes brought the ball close to the Brown and White goal line, and each time the Tatemmen frustrated the Princeton bid for a score. In the last minutes of the game Ware's attempt to punt from behind his own goal line was blocked, and although a Princeton lineman recovered the ball it had rolled outside the end zone so that the play resulted in a safety for Princeton. The game ended as the Tigers were in the midst of a desperate aerial attack to overcome the Lehigh lead.

Lehigh - 13 Rutgers - 14

The traditional battle with Rutgers, played before a large houseparty gathering, proved to be the most thrilling of the season.

Led by Grossmann,

HALSTED
BEING
TACKLED BY A
GETTYSBURG
MAN

Haas

Coach Rockafeller's star full-back, the Scarlet began a steady drive late in the first period to score a touchdown. The battle raged on even terms throughout the second quarter but in the third period Chick Halsted intercepted a pass from Grossman to place the ball in scoring position. A pass from Ware to Issell secured a touchdown and the count became deadlocked at 7-7. Grossman came back with a number of long runs to mark up his second score and added the extra point as the quarter

Motion

came to a close. In the last minutes of play the Tatemmen staged a hard drive that was climaxed by another six points but Ware failed in his attempt to kick the extra

marker from placement and the game ended shortly afterwards.

Lehigh - 6 Lafayette - 16

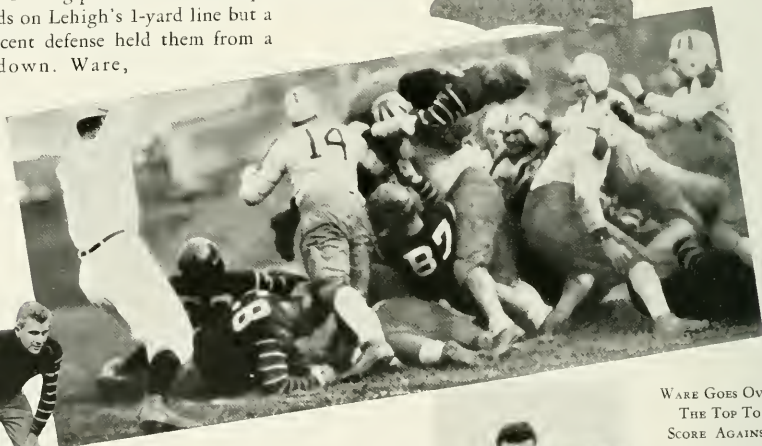

The annual classic with the Maroon saw Lehigh holding a 6-0 lead until the final minutes of play when Lafayette staged a furious attack that materialized into 16 points before the final whistle blew. While 20,000 spectators looked on, the traditional rivals played on even terms until a misplay by Wilcox, Lafayette back placed the way to a Lehigh score. Wilcox fumbled a punt from Ware on his own 28-yard line which was recovered by Issell. Ware gained 14 yards on a single smash at the Lafayette forward wall and a penalty placed the ball on the Maroon 1-yard mark. Ware crashed over the line for a touchdown but missed the try for the extra point. The half ended shortly afterwards with Lehigh still holding the 6-0 advantage. In the third period the Tatemen were forced to assume the defensive and Lafayette barely missed two chances to score on long passes. The fourth quarter found the Leopards on Lehigh's 1-yard line but a magnificent defense held them from a touchdown. Ware,

Stutz

Mivers

WARE GOES OVER
THE TOP TO
SCORE AGAINST
THE LEOPARD

Issell

about to punt from behind his goal line, allowed himself to be downed for a safety. This score inspired the McCracken's charges and after the ball had gone into play again Wilcox

took a long pass from Thompson on Lehigh's 35-yard mark and scored a touchdown. Lafayette then kicked off to Haas who fumbled, giving the ball to the Maroon on the Tatemen's 30-yard line and the next play saw Wilcox get away on a beautiful run to score again. Thus in five plays that took place in the same number of minutes Lafayette snatched an apparent victory from the Brown and White. Wilcox starred

Chess

Hoaster

Twigger

HALSTED FINDS

SHORT GAIN
AGAINST
LAFAYETTE

Stein

Jones

throughout the game for his team while McLernon and Ware showed best for Lehigh.

At the conclusion of the Lafayette game Allan Ware was elected to lead the 1931 eleven. Ware's style of play in the backfield was consistently good throughout the season, and he is considered an outstanding triple threat man. No members of the first string backfield will be lost to the team at graduation but the line will suffer heavily by the loss of Hall, Chess, Motion, Beachler, Twigger, Captain McLernon, and Evers.

Lehigh's best performance of the season came in the annual clash with Princeton when both touchdowns were obtained by 60-yard dashes by Halsted and Clark. On both plays the runners were aided by perfect interference. Clark, intercepting a pass to run for a touchdown, was so well guarded that he was not touched by a Tiger tackler.

The severe physical beating that the Lehigh team took in the Gettysburg game played havoc with the little reserve material that Tate had available. In this encounter many of the men received injuries that

handicapped the team for the remainder of the season.

Despite the fact that the Muhlenberg game was one of the most unexpected and humbling defeats ever experienced by Lehigh at the hands of the Mules, it was featured by the most outstanding individual performance of the season—that of Captain-elect Ware. He was the only one of the Tatemen that was able to gain against the Cardinal and Gray, and took the ball time after

time to rip off long gains unaided by any semblance of interference, as well as breaking up several of the opponent's plays.

Review of the 1931 Season

THE regaining of the Eastern Intercollegiate Wrestling Association team title, three individual championships, and an undefeated record in seven dual meets made the 1931 wrestling season the most outstanding in the history of the sport at Lehigh. Individual honors were won by Pete Peck who went through the entire season undefeated to win the 165-pound intercollegiate title in his first year of varsity wrestling, and score 29 points in the dual meets. Captain Engel did not meet defeat during the dual meet season but was forced to bow to Beyland of Cornell in the intercollegiate finals. Franklin Shaw, also wrestling his first year on the squad, won the 135-pound title, while Paul Seal was crowned champion in the 145-pound class after a thrilling final bout.

The season opened at home against Syracuse and superiority in the heavier classes gave Lehigh a 19-9 victory. The Orange held a lead of 9-3 at the beginning of the 155-pound bout, Engel having scored the only Lehigh victory previous to this. A time decision by Seal, in the 155-pound class, falls by Peck and Shanker and a time advantage by Hirshberg gave the Brown and White a large margin of victory.

Resuming activities after mid-year examinations, Lehigh defeated Princeton 19-11 but despite the score the Sheridan charges were not in top form. Peck and Shaw registered falls while Engel continued his undefeated record. Pennsylvania was not able to score a point against the Lehigh team and the final score read 32-0 for Lehigh. The feature bout between Peck of Lehigh and Mann of Penn in the 165-pound class ended in a 5.25 minute time advantage for Peck after a beautiful exhibition by both wrestlers. Shaw scored two falls in the 135-pound class after failing to go to the mat in the first two minutes.

Lafayette offered little trouble to the Lehigh matmen and Captain Sargent, undefeated for the season, gained a time advantage on Davis for the only Maroon victory. Cornell was the first real test for the Sheridan charges, who proved their worth by handing the defending champions a decisive 21-9 defeat. Peck, Hirshberg,

SAMUEL C. FULLER

and Shaw all contributed greatly to the score with falls, while Engel and Britton gained large time advantages.

Navy was the next to fall before the victorious Lehigh march by a 19-9 score. Time decisions in the 118-pound, 135-pound, and 155-pound classes were the best the middies could do while Peck and Hirshberg again registered falls. Peck's victory was over Silverstein of Navy, who previously had been undefeated for three years. Columbia, regarded as a dangerous foe, was the last to meet Lehigh in a dual meet and the Brown and White came through with a 17-8 victory to maintain a clean record. Engel and Peck remained undefeated both winning on time advantages while Shaw again scored a fall.

The Intercollegiate meet at Yale was a fitting climax to such a successful season. The aggressiveness of the Lehigh wrestlers was apparent from the start and Engel, Shaw, Seal, and Peck won their preliminaries by falls to pile up a good lead and five Lehigh men entered the finals. Engel met his first defeat by a fall, and Shanker lost by a scant time advantage, but Shaw, Seal and Peck came through to win the 135-pound, 145-pound, and 165-pound titles. Peck's bout with Hooker of Princeton will live long in the memories of those who witnessed it, for it was a gruelling extra-period struggle. In Hooker, Peck met an opponent who tested his brilliant technique to the limit, and it was only two seconds before the end of the second extra period, that Peck finally pinned his man. Lehigh finished far in the van with 30 points followed by Cornell with 22 points and Columbia placed third with 14 points.

Games: Won—2 Lost—6

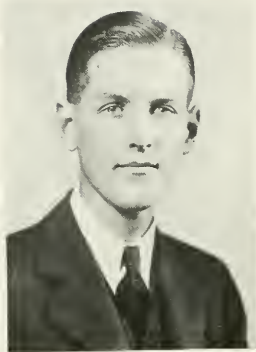

CHARLES I. LATTIG
Coach

Review of the 1930 Season

THE lacrosse team passed through an unsuccessful season with a record of two games won and six lost. Coach Lattig was forced to rely almost entirely on inexperienced material since Captain Dex Bullard, Captain-elect Gus Werft, Tim Callan and Julius Lietzer were the only veterans available.

Swarthmore brought a team of veterans to open the season in Taylor Stadium and met defeat at the hands of the Lehigh stickmen by a 4-2 score. The Lattig charges displayed a fine exhibition of all-round play and had the situation well in hand at all times. Dex Bullard played a stellar game on the attack with three of his team's four goals to his credit, while Werft excelled on the defense with his work at goal. The following week the Brown and White engaged the combined Oxford-Cambridge team before one of the largest crowds that ever witnessed a lacrosse game in Taylor Stadium. The game was hard fought and cleanly played but the Britons edged out a 4-2 victory despite the fine play of the Lehigh squad. The English team came to Bethlehem fresh from a victory over Navy so the showing of the Lattig men was gratifying to Lehigh followers. In their twenty-two day tour of the country the Oxford-Cambridge team met defeat only on three occasions and ran up a record of fifteen victories over the leading teams of the East and Middle West. On the basis of this performance they were awarded the Flannery Cup which is symbolic of the lacrosse championship of the world.

Stevens was the first team met away from the home field and the Hoboken twelve marked up its third successive victory over Lehigh by a 6-2 margin. The game was featured by loose playing on the part of both teams; Lehigh was never a serious threat. Princeton was next in line for the Lattig team, which showed improvement in team play but was forced to accept a 6-4 defeat. At half time the count was dead-

ROBERT P. LENTZ
Manager

play seen during the season.

Lafayette was beaten 4-2 on a field that was a veritable sea of mud. Dex Bullard found the slippery footing to his liking and dashed down the field time and again to account for three markers. In closing the season against N. Y. U. in New York the second-half weakness of the Lattig stickmen again became apparent. After holding the Violet 3-3 during the first half the defense slumped and two goals late in the game gave N. Y. U. a 5-3 victory.

locked at 4-4, but Roberts of Princeton broke away in the closing minutes of the game to score twice and clinch the victory for the Orange and Black.

Rutgers maintained its "jinx" on the Lehigh squad by scoring a decisive 9-2 win before a large Sub-freshmen day crowd. As in the Princeton game the Lehigh team played on even terms throughout the first half and tied the score at 2-2 just before the period ended. However, the second half brought about a complete crumbling of the Brown and White defense while the Scarlet attack scored almost at will. Spring House-party week-end saw another powerful Navy team invade Bethlehem. Despite the fact that Lehigh was defeated 6-1, the team showed a brand of team work that almost equaled its early season form. Lehigh's only tally came on a beautifully executed pass from Pearre to Lietzer which was probably the best

ROBERT B. ADAMS
Coach

Review of the 1930 Season

THE 1930 baseball team enjoyed a season that was marked by varying degrees of success. The final record showed a total of 7 victories in 16 games played including the winning of the traditional Lafayette series. However, the team went into a bad slump on an early season tour and lost 4 successive games to somewhat mar the season's record. When the call for candidates was given, Coach Adams found eight lettermen available; Captain Strauss, Zakorka, Miller, Jones, Bennett, Harris, O'Leary and Schultz. To augment this array of veterans there was much good new material including Ware, Halsted, and Nemitz. Strauss, Ayre, and Zakorka were elected for the pitching staff while Halsted and Nemitz alternated behind the plate.

The Adam's charges showed great form in their opening encounter with an 8-7 win over Ursinus. The game was featured by a dramatic ninth inning when Mort Strauss stole home to tie the count and Miller scored a minute later after a wild throw by the Collegeville third baseman. Haverford came to Bethlehem the following week-end with a team that was reported to possess unusual strength, but the Brown and White nine wore out three of the visiting hurlers for a total of 18 hits and the final score was 15-1 for Lehigh. The third game, scheduled with Princeton, was called off because of rain.

The first defeat of the season came at the hands of the Rutgers nine by a close 1-0 count. Bob Garrett, star southpaw pitcher for the New Brunswick team, held Lehigh to a lone hit while his team mates collected 7 from Strauss to win the game. The disastrous spring tour then began and games were lost to Navy, St. Johns, Fordham, and Army. The Navy encounter was raggedly played, but a seventh inning rally proved to be the margin of victory for the Middies. The St. Johns team

LEON SEIDEN
Manager

managed to edge out its win in the ninth inning after several costly errors by the Lehigh infield, while weak pitching was the main cause of the losses to Fordham and Navy.

The Adamsmen returned to the win column with an 11-2 trouncing of C.C.N.Y. The New Yorkers held the edge in hitting with 8 safeties to their credit, but Lehigh perfectly combined 5 hits and 3 passes to pile up a commanding lead. The early season loss to Rutgers was averted when the Scarlet came to Bethlehem and received a decisive 8-2 beating. Tommy Avre, pitching for Lehigh, was in danger several times, but showed remarkable control when Rutgers' batters were in scoring position. The Brown and White used the bats effectively and was credited with 13 hits while Harris featured the game with a homer that scored 4 runs.

The first of the Lafayette series was played in Bethlehem and the Lehigh nine delighted a large crowd of sub-freshmen by handing the Maroon an 11-7 defeat. Runs were scored in all but two innings to accomplish the first Lehigh victory over a Lafayette baseball team in two years. Villanova sprang a surprise by beating the Brown and White 7-4, to break a string of impressive Lehigh victories. Poor playing in all departments of the game caused this unexpected set-back.

Lafayette won the second series game by a margin of 9-8. Despite this close score the game was poorly played, being marred by too many unnecessary errors on the part of Lehigh. The Maroon scored all its runs in the fourth and fifth innings to gain a lead that was never overcome by the Adams men. Penn took a 14-8 decision over Lehigh at Philadelphia, due chiefly to the great work of Masters who scored three hits and pitched the entire game for the Quakers. Rain caused the cancelling of the game scheduled with Muhlenberg a week later.

The Leopards came back to Tavlör Stadium once more, determined for a win, but Strauss pitched a steady game to close his brilliant collegiate career while his teammates hit opportunely to win the game 8-6 and take the series. Five runs in the fourth inning clinched the series for Lehigh. Muhlenberg was routed by a one-sided 20-3 count before a large Commencement Week gathering. Only two men on the Lehigh team failed to hit, Ware leading the barrage with two home runs added to his batting record and the team played errorless ball on the field. Villanova defeated Lehigh again in the closing game of the season a day later when eight runs scored in a wild opening inning paved the way for the 15-9 win of the Mainliners.

Review of the 1931 Season

FREQUENT injuries and the loss of five veterans due to the probation ruling combined to make the 1930-31 basketball season one of the most disastrous in the history of the sport at Lehigh. Of the 18 games played the Gearymen were victorious over Delaware, Stroudsburg State Teachers' College, Muhlenberg, and P.M.C. Two losses to Lafayette were included in the list of defeats. Captain Buck Schaub alternated between guard and forward, playing a good game at either position, while Captain-elect Al Ware did well at his center position.

Franklin and Marshall provided the opposition for the opening game of the season and shocked Lehigh followers by scoring a 30-26 victory. Schaub and Nemetz led the scoring with 10 points each while Issel played a fine game until forced to the sidelines by injuries. A belated Lehigh rally began near the end of the second half but the Lancaster team hung doggedly to its lead until the final whistle. Stroudsburg threw a scare into the Lehigh camp by gaining a 14-1 lead before the Geary offense began to function effectively, but Nemetz broke loose in the last half of the game to score repeatedly and pile up 22 points during the game. This second half rally gave the Brown and White a 45-34 victory.

During the Christmas holidays the squad took a tour through the colleges in the Pittsburgh sector and returned with a record of four more defeats. Lehigh led at half time in the Carnegie Tech encounter but Buck Schaub's injury at the opening of the second half played havoc with the morale of the team. As a result Carnegie spurred in the last few minutes to take a 41-31 victory. Wittenberg also defeated the Gearymen by a close score, edging out four points in the last minutes of play to win, 28-25. Lack of reserve material caused losses in the last two encounters of the trip for Bray and Issel joined Schaub on the injured list. Geneva was victorious over the Lehigh tossers by a 33-28 margin and Duquesne added a 32-25 defeat.

A revised line-up met Syracuse but the undefeated Orange-clad team ran up a 51-23 count to hand Lehigh its sixth defeat. Hyman of Syracuse led the scoring while Nemetz and Ware showed best for the Brown and White. In the last half of the game fine work by Nemetz put his team within a few points of the Syracuse lead but as the game ended Lehigh was again losing ground rapidly. The Tigers held the Geary offense to a single field goal in the first half of the game at Princeton and had little difficulty in winning 34-19. The game against Army showed a little better play on the part of Lehigh but Ray Stecker, of football fame greatly helped Army to a 32-25 victory. Schaub and Ware again bore the brunt of the game for Lehigh and kept the Brown and White within range of victory until the final minutes.

When the results of mid-year examinations were announced it was found that no less than five of the leading Brown and White passers were ineligible for further competition, and practically a new Lehigh team made its appearance against P.M.C. The Cadets had won six of their seven contests and were favored to win over Lehigh. However, Buck Schaub scored 16 points at his new forward position, and led his

WARREN H. SCHAUB
Captain

ROBERT L. BAIRD
Manager

team-mates to a 36-30 victory. Rutgers put Lehigh back into the losing streak by exhibiting a smart brand of basketball to defeat the Brown and White by a large 47-21 margin. O'Connell, lanky Rutgers center, caged 17 points for his team while Schaub and Best led the Lehigh scoring with seven points each.

Navy, in its first visit to Bethlehem clearly outplayed the Brown and White, winning 59-29. The first half was evenly fought although the midshipmen had the edge on passing and held a 25-20 lead at half time. Second-half weakness on the part of Lehigh became apparent again while the midshipmen maintained their form to easily win the encounter. Holsworth, Navy center, led the scoring with a total of 16 markers.

The third victory of the season for the Brown and White occurred when Muhlenberg was beaten 25-23 on the Taylor gym floor. The count was tied on three occasions during the first half of the game, but a spurt led by Ware and Schaub gave Lehigh a 17-11 lead at half time. The former led the scoring with six field goals. The second half opened with both teams playing a good brand of ball but late in the period Muhlenberg broke away to score eight points and come within three points of victory. The whistle ended the game as Lehigh had just worked out of danger.

C.C.N.Y. avenged a defeat of the previous season by trouncing Lehigh with a 45-26 score. The New Yorkers used 14 players in their line-up during the course of the game and Lehigh never threatened the C.C.N.Y. lead dangerously. Turpin, Lavender ace, led the scoring of the game with 16 points to his credit while Buck Schaub scored 14 counters for Lehigh to take runner-up honors. The splendid team play of the New York team was apparent throughout the game and the Lehigh quintet was helpless before it.

The Crescent A. C. five of New York, composed of former college athletes, gained another easy victory at the expense of the Lehigh team. The opening half of the game proved to be fast, with Lehigh more than holding its own against the seasoned team and at one point of the game the Gearymen held a 9-8 lead. Schoenen, the star of the New York team, dropped in several scores just before the half ended to give his team an 18-11 lead. Captain Schaub found his eye in the second half and scored four baskets before the period ended, bringing his game total to 14 points. However, the clubmen continued to play a smooth passing game that enabled them to score frequently for a 48-25 victory.

One of the crushing blows of the season was the 30-12 defeat that Lehigh suffered at the hands of Lafayette at Easton. Schaub and Best were the only ones of the Brown and White who were able to put up a presentable game. Captain Ken Gilchrist of the Maroon led his team in a fast start and Lehigh failed to approach the Maroon lead at any point in the game.

The final victory of the season for the Lehigh five was gained over the University of Delaware, 30-12. This was the best played game of the year from a Lehigh standpoint. Best, Schaub, and Ware all worked smoothly, scoring from all angles to keep Lehigh in front throughout the game. Inability to shoot fouls, a weakness of the past season, caused the second beating at the hands of Lafayette, this time by a 22-20 score. At first it appeared that the Geary charges were about to turn tables on the Leopard, for half-time saw Lehigh with a 10-5 lead, due chiefly to the work of Captain Schaub.

Review of the 1930 Season

LEHIGH's tennis season of 1930 was notable as marking the last year of intercollegiate competition of its captain, Julius Seligson, who began the season with the unusual record of two years of intercollegiate performances without a defeat.

He started the year by winning the Indoor Intercollegiates at Cornell for the third successive time and then swept through a strong field of college champions in nine dual meets. Moving on to the Eastern Intercollegiates, he won the championship over a fine field after a hard match with Sutter of Tulane in the finals. In the national intercollegiates he faced much the harder half of the draw, defeated

four high-grade players in the early rounds; defeated Muhleisen of California in the semifinals in what was probably the finest intercollegiate match ever played, only to lose the finals to Sutter in a heart-breaking contest which was the sixty-seventh and last of his career at Lehigh. He graduated with the most extraordinary record ever made by a college athlete in any sport with 66 consecutive victories, 3 national indoor championships, 1 national intercollegiate championship, 1 Eastern intercollegiate title, and 6 major and 2 minor letters in a minor sport.

While the record of one man overshadowed the play of the team as a whole, the 1930 team was very strong and, in the opinion of Coach Carothers, was the best team Lehigh has ever had. Seligson and Snitkin as a team won the national indoor collegiates, making the second consecutive win for Lehigh. Playing against the best teams in the country during the dual meets, the team won 7 matches of the 11 scheduled; losing one match early in the season when the team had had no practice, losing another because of an accident to one of the team during the match, and losing only to Yale and Princeton because they had better teams.

Muhlenberg was beaten 9-0, Cornell 8-1, and Penn 7-2. When the team reached the peak of its form late in the season, matches were won from Columbia, Cornell, Penn, and Rutgers within a period of ten days and one match was lost to Dartmouth when Montencourt sprained his ankle with the deciding match almost won. Lafayette came to Bethlehem with the best team in its history and was defeated for the eleventh consecutive time. Columbia was beaten in a great match and, in a contest where feeling ran high, the team performed the remarkable feat of beating a strong Penn team on its own court by taking all six singles matches.

Montenecourt, captain-elect for 1931, played at number 2 position behind Seligson, while Epstein, Engleman, and Spangler usually played in that order with little to choose between them. All four of these men won the majority of their matches and scored many notable victories. Montenecourt defeated Harry Johnson, Dartmouth net star and all-round athlete while Epstein won a match from Captain Lumbard of Lafayette to decide the Maroon encounter. Spangler has to his credit a victory over Greene, Captain-elect of the Penn tennis team and fullback of the football team squad, and Engleman has beaten a half dozen good men.

A peculiar feature of the season play was the weakness in the doubles. When in full strength, the team had six fine single players, but of these six only Epstein had a style of play that could be adapted to doubles. Coach Carothers tried every possible arrangement to no avail. This weakness was shown by the fact that the team took all six singles from Lafayette and lost all three doubles, while at Penn six single matches were won and two doubles lost.

Review of the 1930 Season

THE soccer team showed a brilliant reversal of form in mid-season when, after losing the first four games on its schedule, it came back to win the last five and convert a poor start into a successful season. The defeat of Princeton and Swarthmore were outstanding among these victories. Coach Carpenter began the task of building a team under a great handicap, for Captain Mort Strauss left college soon after early practice began, leaving Bill Bird, Wint Miller, Bill Seeburger, and Buck Schaub the only lettermen available. As a result, the team was composed largely of sophomores so that inexperience and lack of scoring punch caused the loss of four straight games, three by one point margins. A mid-season shift in the line-up and the experience gained in previous contests enabled the team to finish its season with five straight triumphs.

The first game was played at home with Syracuse and resulted in a bitterly fought 5-4 victory for the Orange-clad team. Lehigh got off to an early lead but Syracuse soon tied the count and the teams played on even terms for the remainder of the first half, the period ending with the

HARRY ANDREWS, JR.
Manager

WARREN N. SCHAUB
Captain

score 4-4. In the final minutes of play, Hall, of the New York team, put the winning point past Buck Schaub. Bird scored a number of goals for the Carpenter team which were not allowed because of the off-side ruling.

Haverford, with its usual strong team, edged out a 2-1 victory by a rally in the third period. Again the Brown and White team got off to an early lead when Miller made a pretty goal after dribbling through the entire Red and Black defense. Haverford opened a fast attack in the second quarter and managed to secure one goal and only the clever work of Schaub prevented them from piling up a large score. Haverford scored again in the last half and the game ended with Lehigh seriously threatening to drop in a tying goal.

The contest played at Annapolis was described by Navy officials as the best ever seen on the Middies' field. The score was deadlocked at 2-2 until the last thirty seconds when Engle of Navy cleverly dribbled down the sidelines for the winning score. Miller and Montgomery accounted for the Lehigh goals. The Army continued, and also concluded, the opponents' march of victory with a 2-0 game at West Point and it was the only team to defeat Lehigh by more than one goal during the season. The last quarter was played under artificial light.

A string of victories was well heralded when Delaware was trampled 6-0 by a team composed almost entirely of sophomores—Schaub being the only upper classman to play the entire game. Swarthmore was beaten in a gruelling contest by a 1-0 score. The defense of both teams was such that no score was made until the last quarter, when Wint Miller dropped in the ball from a difficult angle to score the winning point. Chapin and Byers starred on Lehigh's defense.

St. Johns, previously undefeated, bowed to the Carpenter men 2-0. The game was played on a wet, slippery field but Bird and Gold managed to cage two nice goals for the victors. Lafayette offered little resistance to the Lehigh team and was defeated 3-0. Goals were scored in the first three periods by Miller, Fountain, and French. The victory over Princeton was the grand climax to the winning streak of the booters. A rushing attack for the first three periods saw Lehigh gaining a 4-1 advantage. French played an outstanding game, scoring two goals, one of which was from a distance of 30 yards and was declared to be the best shot of the season. Princeton rallied effectively in the last quarter and brought the score to 4-3 but time was too short to allow further scoring.

Review of the 1930 Season

THE 1930 track team showed a marked improvement over the 1929 record by winning three of the six dual meets on its schedule, while last year's squad was victorious in only one of six starts. Two meets were lost by very close margins and if Coach Kanaly had had more men available for the field events it is possible that these two losses might have been converted into victories.

Mort Lamb, competing in the 100 yard and 220 yard dashes, remained undefeated for the entire season and had a total of sixty points to his credit for the six dual meets. His most brilliant performance occurred in the meet with Lafayette when he equalled the University record of $9\frac{1}{5}$ seconds for the 100-yard dash and was timed at 22 seconds flat for the 220-yard event.

The team opened its season at home with a one-sided 83-43 victory over Dickinson. Lehigh took every first place but the pole vault, which resulted in a triple tie among Wright, Sievering and Caster, the latter a Dickinson man. By defeating Swarthmore, 64-62, in the second meet, the Kanaly men accomplished what no other Lehigh track team has ever done, for although the two teams had met on nine occasions, the Garnets always triumphed. The Brown and White took an early lead by sweeping the pole vault and high jump events for all places, but Swarthmore steadily drew up until the last event decided the meet. This was the discus throw, and Swarthmore annexed the first two places to come within a point of victory, but Monroe made a nice throw to secure a third place and clinch the meet.

The squad traveled to Rutgers for its next meet and was defeated by a margin of 61-65. Clean sweeps in the discus event and the two mile run gave the Scarlet a big lead early in the afternoon. Again Lehigh's fate hung upon the results of the last event, the broad jump, but the straining of a tendon by Clifford ruined any chance of victory. Seivering turned in a pole vault mark of 11 feet 6 inches and Lamb won his events in handy style. Haverford handed the Kanaly men their second set-back in an encounter that saw eight dual meet records fall. Although the Main Liners took 10 of the 14 first places, Lehigh led by six points at the end of the track events, but was weakened by injuries in the field events. Many ran a spectacular race in the quarter mile event to set one of the new dual meet records.

Muhlenberg fell before the Brown and White team, which took 10 first places to pile up a $79\frac{2}{3}$ to $46\frac{1}{3}$ score. Lamb took his usual two first places to become high scorer of the meet and keep his record unblemished. The annual meet with Lafayette resulted in a $79\frac{2}{3}$ to $46\frac{1}{3}$ victory for the Maroon. Five new marks were set, two of which were credited to Lehigh men. It was in this meet that Lamb equaled the mark for the century dash while Hartman of Lafayette was clocked at $51\frac{2}{5}$ seconds for the quarter mile. A week later Lafayette was the winner of the Middle Atlantic States Intercollegiate title.

Eastern Intercollegiate Swimming Association Meet: Tie for third place with Franklin and Marshall.

PETER J. MORRISSEY
Coach

Review of the 1931 Season

SWIMMING at Lehigh enjoyed a fairly successful season with a dual meet record of three won and two lost, a third place in the Eastern Intercollegiate meet and two individual champions. Captain Hall W. Cushman set an Eastern Swimming Association record in the 50-yard freestyle event, and Harry Walker, a newcomer to the squad, won the 200-yard breast stroke title. Coach Morrissey had many worries at the outset of the season since illness prevented Cushman from entering more than one event, while Hoyt and Hobbs became ineligible at mid-years.

Lehigh met too strong opposition at Princeton in the first meet of the season and finished on the short end of a one-sided 59-12 score. The Tiger mermen took first place in every event, and six of the eight second places. Cushman took a close second in the 50-yard freestyle and Ben Levenson was second in the 150-yard backstroke for the main share of Lehigh's points.

RAYMOND H. DRUKKER
Manager

Coach Morrissey's charges had little trouble in defeating Franklin and Marshall despite the fact that Enscoe, Fluck and Levenson were out of the line-up with colds. Brennessoltz performed well to establish a new University record in the 440-yard swim of 5 minutes and 50 seconds, and Ross turned in fast time in the breast-stroke event. The final score saw Lehigh leading with a 32-24 margin.

Rutger's remarkable team took every first and second place of the meet with the exception of the 440-yard freestyle and the breast-stroke events. A new world's mark was established by the

HALL W. CUSHMAN
Captain

Scarlet team in a special 400-yard relay, when Dryfus, Sunderland, Kramer and Kojac completed the distance in 3 minutes $38\frac{7}{8}$ seconds. A week later the Brown and White team had things its own way when Lafayette was decisively defeated in Taylor Pool, 46-13. Cushman swam the 50-yard sprint to establish a new Lehigh pool record of $24\frac{3}{5}$ seconds, and his team mates secured first place in every other event but the dives.

In a thrilling and hard fought meet, the Morrissey charges concluded their dual meet season by defeating Cornell 37-22 in the Taylor Pool. Ives of Cornell scored two first places for his team by the winning both the 100-yard and the 440-yard freestyle events while Cushman swam a brilliant race in the 50-yard dash to set the Eastern Intercollegiate Swimming Association record of $24\frac{1}{5}$ seconds.

C.C.N.Y. captured the annual individual championships of the Intercollegiate Association when they placed third in the 200-yard relay, thereby nosing out N.Y.U., the former titleholders, by two points. Cushman outclassed his competitors to win the 50-yard freestyle while Walker and Ross took first and second respectively in the 200-yard breast-stroke event. Levenson swam a good race to finish third in the 150-yard backstroke event and a medley relay composed of Levenson, Ross and Enscoe placed fourth to complete the last of Lehigh scores.

INDIVIDUAL SCORES

Name	1st	Number of places scored				Relay	Number of points scored
		2nd	3rd	4th			
Brennesholtz	2	1	1	0	3		$17\frac{3}{4}$
Cushman	4	1	1	0	3		$27\frac{3}{4}$
Dean	0	3	2	0	0		11
Enscoe	1	1	2	0	3		$13\frac{1}{6}$
Fluck	1	1	1	1	0		10
Fritz	0	3	1	0	2		$12\frac{1}{2}$

M. A. S. C. A. A. Championships; Alfred, Manhattan, Union, Lafayette, Rutgers, Lehigh.

Review of the 1930 Season

FRANCIS NEUWIRTH
Captain

THE 1930 cross country team won 2 of the 4 dual meets on its schedule but was forced to take sixth place in the Middle Atlantic States championship run. The injury of Captain Neuwirth at the beginning of the season was a severe blow to the Kanaly men, for the Lehigh captain was unable to finish among the leaders in any of the meets. An overwhelming defeat of Rutgers and the holding of a strong Manhattan team to the score of 27-28 were the bright spots on the record of the team.

Coach Kanaly took his harriers to Baltimore for the first meet of the season against Johns Hopkins and Lehigh emerged victorious by a 24-31 standing. This was the first defeat the Southerners have received from a Kanaly team in three years. Chandler and Weldon finished first and second respectively, a full minute ahead of Packer, the Johns Hopkins leader. A meet scheduled with

Franklin and Marshall was cancelled at the request of the Lancaster college officials and the harriers were forced to remain idle for two weeks until the Manhattan contest.

Bill Schaklette, veteran Manhattan runner and Middle Atlantic States champion, won the race over the Van Cortland Park course in the fast time of 32:20 and was closely followed by Ryan, a teammate. However, Engleman, Weldon, Meyers, and Chandler finished in the order named to give Lehigh a chance for victory, but a host of New York men finished directly behind them to gain a 27-28 decision. Manhattan finished second in the intercollegiate run later in the season.

Lehigh fully avenged a previous defeat at the hands of Rutgers by beating the Scarlet 19-36. Only one man saved Rutgers from being conquered by a perfect score, for Lehigh took five of the six leading places. Engleman again ran in splendid form to win in the time of 28:32, while Hall of Rutgers placed second followed by Weldon, Chandler, and Hunt, all Lehigh harriers.

Lafayette handed the Brown and White an unexpected 23-32 defeat in the closing dual meet of the season. Masterdon and Illingsworth, both of Lafayette, were first and second and were trailed by Chandler and Weldon of Lehigh with Engleman in fifth place. The Maroon won the Middle Three title as a result of this victory for Rutgers had previously been defeated by the Lafayette harriers. The team slumped badly in the Intercollegiate meet and finished in last place. Chandler scored for Lehigh in thirteenth position. Alfred took first honors with its usual strong team followed by Manhattan, Union, Lafayette, Rutgers, and Lehigh in the order named.

The Lehigh Epitome

FOR the first time in the history of its existence, the Epitome is being published by members of the Senior class. The class of "seventy-eight" published the first Epitome in the form of a sophomore year book. The original editors were H. F. Porter, M. P. Paret, and Frank P. Howe, brother of the noted author and editor, M. A. DeWolfe Howe, who was a member of the class of "eighty-six." For a number of years, the Epitome continued to be published by Sophomores, but in 1885 it became a Junior publication, and continued as such until the present volume.

The Juniors who published the Epitome last year are also supervising the publication of the book this year. Membership to the board of the Epitome was formerly determined only by class election, but is now obtained through a competition similar to that of other publications. The purpose of this new policy is to improve the Epitome by selecting only experienced men to do the work of publishing it.

The Epitome is published in the spring of every year. Some of the early editions were humorously dedicated. The Epitome of 1891 was dedicated to the "World," while that of 1894 was inscribed to "Christopher Columbus," and that of 1895 was dedicated to "Rule Thirty-three." In recent years, however, dedications have been made to prominent men whose names are familiar to everyone connected with Lehigh. These include Asa Packer, Eugene Grace, and Charles M. Schwab.

The contents of the Epitome originally included pictures, records, and members of all classes, sports, clubs, societies, and fraternities of the University, as well as a number of pages devoted to jokes and humorous articles. In this issue, however, the jokes and humorous articles have been eliminated. In its more than fifty years of continuous publication, the Epitome has increased in size from a modest little year book to a volume of more than five hundred pages.

The Lehigh Brown and White

DURING the past year, the Lehigh Brown and White has continued its reorganization policy which began in the spring of 1928. Last fall, the position of Makeup Editor was created and the meeting time of the two sections of news writers was changed from Tuesday and Friday afternoons to Sunday and Wednesday nights. Previous to 1928, the Brown and White, which was founded on January 16, 1894, was solely a student conducted publication. However, in 1928, members of the staff were required to enroll in the journalism course, English 48, known as "Brown and White". This step was taken in order to improve the Brown and White, and to provide instruction in newspaper journalism and management.

The Brown and White won second place last fall in the news competition sponsored by the Intercollegiate Newspaper Association of the Middle Atlantic States. This competition, a semi-annual affair, is entered into by the twenty four college papers in the association. Lehigh was host last fall also to the eleventh annual fall convention of the I. N. A. Emanuel Honig, editorial manager of the Brown and White, and president of the association, presided at the convention. Irving Genner, business manager of the Brown and White, was secretary-treasurer of the association last year, and Curtis D. MacDougall, assistant professor of journalism, was the executive secretary.

The Lehigh Burr

THE first issue of the Lehigh Burr was offered to the students of Lehigh in the October of 1881. At the time of its appearance it was strictly a monthly bulletin news and student opinion. As the years went by, however, changes were made until it became the student comic publication that we have today. Like all other college periodicals, the Burr has had its ups and downs; but since it has maintained its present successful status for some years, its permanence as a student publication seems to be assured.

The Burr boasts of having had on its various editorial staffs such men as Richard Harding Davis, Charles Belmont Davis, M. A. DeWolfe Howe, G. Edwin LeFevre, and John J. Gibson.

Catherine Drinker Bowan gives an interesting account of the Burr in her history of Lehigh. "The Burr was so successful in the early days that in 1887 it became a bi-monthly, and in 1891 the editors, desiring to make the paper more eminently a college newspaper, began bringing it out every ten days. In 1895 the Burr made the mistake that proved its downfall. The editors stated that the paper was henceforth to be a strictly literary magazine. In three years the Burr was dead, and the editors learned that being 'strictly literary' is at best a dangerous business. In 1904 the Burr was revived again, and, with the exception of several periods of probation, has been in a flourishing condition."

The Lehigh Review

THE REVIEW was founded in the spring of 1927 with the clearly defined purpose of making it a Lehigh literary magazine and an organ for the expression of student opinion on all such matters as might be of general interest to the students of the University. R. Max Goepp, '28, who was the first Lehigh graduate to have been awarded a Rhodes scholarship, was editor-in-chief during the first year. Carl O. Carlson, '28, was the first business manager. Dudley Lee Harley, '30, another Rhodes scholar, was also a contributor to the magazine.

Since its establishment, the Review has been published as a quarterly, the first issue appearing late in the fall, the second just after the Christmas holidays, and the remaining two in the spring.

The Review prints conservative themes, radical discourses, short stories, poems, criticisms, plays, and other articles which are of interest to the student body. Freshmen may contribute as well as seniors and technical papers find a warm welcome in the Review. Anyone who wishes to express his opinion concerning an aspect of college life, may consider the Review as a medium which will always publish student thought, radical or conservative, humorous or serious, prosaic or poetic, technical or non-technical.

Pi Mu Epsilon

(Honorary Mathematical Fraternity)

THE PENNSYLVANIA GAMMA CHAPTER of Pi Mu Epsilon was installed at the University in the spring of 1929 with the awarding of a charter to the Lehigh University Mathematics Club. The fraternity honors the successful student in mathematics by making him a member, and strives in every way to stimulate and encourage interest in scholarship, particularly in mathematics, throughout the University.

In accordance with the established policy, the Lehigh Chapter concentrated upon one subject of study, developing the topic in greater detail at successive meetings. During the first half of the academic year, projective geometry was chosen as the topic of discussion. The first meetings dealt with the principle of duality, cross ratio, second order curves, and the general application of projective geometry to problems of statics in engineering. Later Pascal's Theories and quadric surfaces were discussed.

Last spring, an open meeting was held at which Mr. Claude Bragdon, a prominent New York architect and designer spoke on the growing importance of mathematics in architecture. Mr. Bragdon has done considerable work in this field and brought out instances in which new fields of artistic endeavor have been opened with the aid of mathematics. The meeting was so well received that it is planned to hold such a meeting each year, bringing a speaker who has gained recognition in his particular field by utilization of the principles of mathematics.

Mustard and Cheese

MUSTARD AND CHEESE, the dramatic association of the University, was founded in 1885 by Richard Harding Davis, who was at that time an undergraduate at Lehigh. The Club's unique name comes from its equally unique origin which was brought about in a tavern. According to reports, the favored place was "Rennig's" where the undergraduates repaired on Saturday nights for beer, oysters, and brown bread with mustard and cheese. Actors who were then starring in town were often guests at these parties. When Charles Belmont Davis, a brother of the Club's founder, suggested that these weekly gatherings become a regular custom, the "Mustard and Cheese" came into existence.

In its forty-six years of organization, the Club has presented all types of shows, and every year since its founding, with the exception of 1918, some worth while presentation has been given. Prior to 1928, musical comedies were presented, the last five being "Her Knight Out", "Panchita," "Russian Around," "Coll-Egypt," and "Mercy Sakes," all of which were written by undergraduates and produced with much success. In 1928 the annual offering was the "Creaking Chair," a three act mystery melodrama, while the one of 1929 was a three act comedy called "The Bad Man." Last year the offering was "The Shannons of Broadway" with special music written by the club president, George Motter.

Since its origin, the club has made many extensive road trips throughout Pennsylvania, New York, and New Jersey. It has become increasingly popular and ranks as one of the major activities of the campus.

Familiar Campus Scenes

Looking down toward
Drown Hall.

Looking across the campus
toward the Chapel.

An unusual shot of the
Packer Tower.

The entrance to the Gym.

The familiar stone face.

The observatory.

Did You Know?

- That 90% of the members of the class of 1931 are glad that they came to Lehigh.
- That 69% are going to send their sons to Lehigh.
- That only 60% of the class are in favor of "Pure" athletics.
- That 32% disapprove of the fraternity system.
- That 75% are dissatisfied with the present political conditions at Lehigh.
- That compulsory Chapel is favored by 12%.
- That 47% favor compulsory R.O.T.C.
- That the most popular activities are first, Athletics; second, Beer Drinking; third, Brown and White; fourth, Bull Sessions.
- That 73% of the class are Republicans, 19% are Democrats, and the remainder are mostly Socialists.
- That 13% are satisfied with Prohibition, 39% are for Repeal, and 49% are for Modification.
- That half of the class are in favor of Free Trade.
- That the three outstanding world figures according to the class are Mussolini, Hoover, and Einstein.
- That 21% of the class do not smoke.
- That 47% smoke Camels, 40% smoke Luckies, 5% smoke Chesterfields.
- That 32% have cars.
- That the average amount that a senior spends at school for one year is \$1424.00; of which he earns 18%.
- That the favorite authors are Sabatini, Oppenheim, Sinclair Lewis, and Van Dine.
- That 94% of the members of the class dance.
- That 33% are engaged, and 34% are in love.
- That the favorite female movie stars are Greta Garbo, Ruth Chatterton, and Joan Crawford.
- That the three favorite male movie stars are Ronald Colman, Clive Brook, and William Powell.

Laboratory Hours

A busy moment in the Brown and White office.

Shorty Long talks it over with a Chemical.

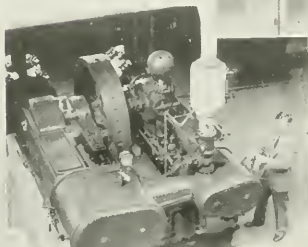

Professor Fuller in familiar surroundings.

Doc Bull and Billy work on a patient.

The rabbits in Bill Hall lead a precarious life.

Professor Stewart tries the indicator card mechanism or the Engine Lab students.

The Lehigh R. O. T. C. Unit

The ordnance department puts a tank through maneuvers.

A group of advanced students at summer camp.

A group of freshmen line up for a picture.

A group of advanced R.O.T.C. students after their tent burned down.

A Field Day demonstration.

The Lehigh unit in the Armistice Day Parade.

More and more colleges are coming out in favor of the no-student-cars rule. Well, not having anything that could really be called a car, ourselves, we aren't much worried. But there's something to be said in favor of letting students have cars; they're sure to be on time for their classes. They have to get there early, in order to find a parking space!

WOOD'S

Power Transmission Machinery

It is good management to place responsibility for merit of a product, or a specialized service, with that organization which works with heart and mind to insure the utmost satisfaction from the service its product renders throughout years of use.

Such an organization is the T. B. Wood's Sons Co. For more than seventy years we have served the manufacturers of this country in solving their problems of power transmission, and installing approved power transmission machinery and equipment.

Whenever improvements in your power transmission equipment are undertaken with the object of increasing production and lowering costs—thereby in time returning the original investment—we will gladly place our experience at your service without obligation.

BIG GAME NEWS

UMGWAMBASSA, Kenya Colony.—Geffrey Yoink, noted big game hunter, was injured on a lion hunt today. Yoink's 200 boys flushed a blackmaned lion as the safari moved through deep grass. After the kill, Yoink sprained his left ankle in his haste to get down out of a tree and have his picture taken, with one foot on the deceased lion.
